

Contents

Immunopathology of COPD	1
Laimute Taraseviciene-Stewart and Norbert F. Voelkel	
Monocyte Populations Which Participate in Chronic Lung Inflammation	29
William D. Cornwell, Maria Elena Vega, and Thomas J. Rogers	
Neutrophil Inflammation in COPD	59
Paul A. Kennedy and Laurie E. Kilpatrick	
Role of Epithelial Cells in Chronic Inflammatory Lung Disease	81
Victor Kim, Kosuke Kato, K. Chul Kim, and Erik P. Lillehoj	
The Relationship Between Oxidative Stress Responses and Lung Inflammation with Cigarette Smoking	99
Changcheng Song and Steven G. Kelsen	
Autoimmune Mechanisms Contributing to Chronic Obstructive Pulmonary Disease	129
David B. Corry and Farrah Kheradmand	
Chronic Obstructive Pulmonary Disease (COPD): Local and Systemic Disease	143
Alex J. Mackay, Anant R.C. Patel, and Jadwiga A. Wedzicha	
Infectious Mechanisms Regulating Susceptibility to Acute Exacerbations of COPD	159
Karin Provost, Himanshu Desai, and Sanjay Sethi	
COPD: Biomarkers and Phenotypes	177
Kartik V. Shenoy and Gerard J. Criner	
Anti-Inflammatory Therapeutics in COPD: Past, Present, and Future	191
Peter J. Barnes	

Smoking and Lung Inflammation

Basic, Pre-Clinical and Clinical Research Advances

Rogers, Th.; Criner, G.J.; Cornwell, W.D. (Eds.)

2013, VII, 213 p. 21 illus., 19 illus. in color., Hardcover

ISBN: 978-1-4614-7350-3
