

# Contents

<b>1</b>	<b>Introduction</b>	1
1.1	Generic Existence of Solutions of Optimal Control Problems	1
1.2	Lavrentiev Phenomenon	5
1.3	Turnpike Properties	10
1.4	Examples	12
<b>2</b>	<b>Well-posedness of Optimal Control Problems</b>	17
2.1	Optimal Control Problems with Cesari Growth Condition	18
2.2	A Generic Variational Principle	24
2.3	Concretization of the Hypothesis (H1)	26
2.4	Preliminary Results for Hypotheses (A2) and (H2)	31
2.5	A Preliminary Lemma for Hypothesis (A3)	37
2.6	An Auxiliary Result	41
2.7	An Auxiliary Lemma for Hypothesis (A4)	41
2.8	Proof of Theorem 2.2 and Its Extensions	44
2.9	Variational Problems	45
2.10	Optimal Control Problems with Cinquini Growth Condition	49
2.11	Variational Principles	54
2.12	Preliminary Results for Theorem 2.20	56
2.13	Proof of Theorem 2.20	60
<b>3</b>	<b>Well-posedness and Porosity</b>	63
3.1	$\sigma$ -porous Sets in a Metric Space	64
3.2	Well-posedness of Optimization Problems	66
3.3	A Variational Principle	68
3.4	Well-posedness Results	73
3.5	A Preliminary Result for Theorems 3.9 and 3.10	80
3.6	An Auxiliary Result for Theorem 3.10	84
3.7	Proofs of Theorems 3.9 and 3.10	85
<b>4</b>	<b>Well-posedness of Nonconvex Variational Problems</b>	87
4.1	Two Classes of Variational Problems	87
4.2	Variational Principles	88

4.3	Proof of Proposition 4.1	89
4.4	Generic Well-posedness Results	92
4.5	Proofs of Theorems 4.6 and 4.7	97
4.6	Porous Sets and Well-posedness	104
4.7	A Variational Principle	106
4.8	Well-posedness and Porosity in the Calculus of Variations	111
4.9	Preliminary Results for Hypotheses (A1), (A3), and (H)	115
4.10	An Auxiliary Result for Hypothesis (A4)	117
4.11	Proof of Theorem 4.20	122
<b>5</b>	<b>Generic Well-posedness Result</b>	<b>125</b>
5.1	Preliminaries	125
5.2	Concretization of the Hypothesis (H1)	126
5.3	Generic Well-posedness	131
5.4	A Class of Differential Equations	136
5.5	An Auxiliary Result for (A5)	142
5.6	Auxiliary Results for (A4)	145
5.7	Proof of Proposition 5.3	151
5.8	Auxiliary Results for (H2) and (A1)–(A4)	154
5.9	Proof of Theorem 5.4	156
5.10	An Extension of Theorem 5.4	157
<b>6</b>	<b>Nonoccurrence of the Lavrentiev Phenomenon for Variational Problems</b>	<b>159</b>
6.1	Spaces of Integrands	159
6.2	Auxiliary Results	164
6.3	Proof of Theorem 6.2	165
6.4	An Auxiliary Result for Theorem 6.7	175
6.5	Proof of Proposition 6.4	181
6.6	Proofs of Theorems 6.5–6.7	182
6.7	Proofs of Theorems 6.8 and 6.9	185
6.8	Generic Existence of Lipschitzian Solutions	189
<b>7</b>	<b>Nonoccurrence of the Lavrentiev Phenomenon in Optimal Control</b>	<b>197</b>
7.1	Preliminaries, Assumptions, and Main Results	197
7.2	Auxiliary Results	205
7.3	Proofs of Theorems 7.4 and 7.5	209
7.4	Proofs of Theorems 7.6 and 7.7	214
7.5	A Density Result	219
7.6	Proofs of Theorems 7.8–7.10	224
7.7	Examples	226
7.8	Sarychev Integrands	228
<b>8</b>	<b>Generic Nonoccurrence of the Lavrentiev Phenomenon</b>	<b>233</b>
8.1	Preliminaries, Assumptions, and Main Results	233
8.2	Auxiliary Results	240
8.3	Proofs of Theorems 8.2–8.3	252

<b>9</b>	<b>Infinite-Dimensional Linear Control Problems</b>	255
9.1	Preliminaries, Assumptions, and Main Results	255
9.2	Auxiliary Results	261
9.3	Proof of Theorem 9.1	263
9.4	An Auxiliary Result for Theorem 9.5	273
9.5	Proof of Lemma 9.2	280
9.6	Proofs of Theorems of 9.3–9.5	281
<b>10</b>	<b>Uniform Boundedness of Approximate Solutions of Variational Problems</b>	285
10.1	Preliminaries and Main Results	285
10.2	Preliminary Results	289
10.3	Discrete-Time Control Systems	294
10.4	Proofs of Theorems 10.1, 10.3, and 10.4	297
<b>11</b>	<b>The Turnpike Property for Approximate Solutions</b>	305
11.1	Preliminaries and Main Results	305
11.2	Auxiliary Results for the Main Theorems	308
11.3	Proofs of Theorems 11.1–11.3	322
<b>12</b>	<b>A Turnpike Result for Optimal Control Systems</b>	327
12.1	Discrete-Time Optimal Control Systems	327
12.2	The Generic Turnpike Result	329
12.3	Preliminaries	331
12.4	Auxiliary Results	339
12.5	Proof of Theorem 12.1	366
	<b>References</b>	371
	<b>Index</b>	377
