

Contents

1 Presynaptic Glutamate Transport in the Brain	1
References.....	6
2 Cholesterol and Its Role in Synaptic Transmission	9
References.....	12
3 Effects of Cholesterol-Depleting Agent Methyl-β-Cyclodextrin on the Functional State of Brain Nerve Terminals	15
3.1 Extraction of Cholesterol from Brain Nerve Terminals by M β CD, Confocal Imaging and Flow Cytometric Analysis of Cholesterol-Deficient Nerve Terminals.....	15
3.2 Effects of M β CD on the Proton Gradient of Synaptic Vesicles.....	20
References.....	23
4 The Extracellular Level and Uptake of Glutamate in Cholesterol-Deficient Nerve Terminals.....	25
4.1 Effects of Acute and Long-Term Treatment of the Synaptosomes with M β CD on Glutamate Uptake.....	26
4.2 The Extracellular Glutamate Level After Cholesterol Depletion	27
References.....	35
5 Unstimulated and Exocytotic Glutamate Release from Cholesterol-Deficient Nerve Terminals.....	39
5.1 Tonic (Unstimulated) Release of Glutamate from Cholesterol-Depleted Synaptosomes	39
5.2 Influence of the Continuous Enrichment of the Cytoplasm with Vesicular Glutamate on Tonic Release of the Neuromediator ...	42
5.3 Leakage of Glutamate from Cholesterol-Deficient Nerve Terminals at Low Temperature	46
5.4 Exocytotic Release of Glutamate During Acute and Long-Term Treatment of the Synaptosomes with M β CD	49
References.....	55

6 Neuroprotection by Lowering Cholesterol	57
6.1 Stimulated by Depolarization of the Plasma Membrane Transporter-Mediated Release of Glutamate from Cholesterol-Deficient Nerve Terminals	59
6.2 Release of Glutamate from Cholesterol-Deficient Nerve Terminals by Means of Heteroexchange	60
6.3 Release of Glutamate in Low-Na ⁺ Medium from Cholesterol-Deficient Nerve Terminals	61
6.4 Transporter-Mediated Release of Glutamate from Cholesterol-Deficient Nerve Terminals During Dissipation of the Proton Gradient of Synaptic Vesicles	62
6.5 Transporter-Mediated Release of Glutamate from Cholesterol-Deficient Nerve Terminals Under Conditions of Energy Deprivation.....	63
References.....	67
Appendix	69

Cholesterol and Presynaptic Glutamate Transport in the
Brain

Borisova, T.

2013, XVI, 75 p. 32 illus., 11 illus. in color., Softcover

ISBN: 978-1-4614-7758-7
