Theoretical and Numerical Study of Iteratively Truncated Newton's Algorithm	1
Anatoly B. Bakushinsky, Alexandra B. Smirnova, and Hui Liu	
1 Introduction	2
2 Convergence Analysis: Noise-Free Data	3
3 Stability and Stopping Rule	5
4 Numerical Experiments	7
References	14
Approximate Global Convergence in Imaging of Land Mines from Backscattered Data	15
Larisa Beilina and Michael V. Klibanov	
1 Introduction	15
2 Statements of Forward and Inverse Problems with Backscattered Data	16
2.1 Statements of Forward and Inverse Problems	17
2.2 The Approximately Globally Convergent Method	19
2.3 New Model of the Tail Function	21
2.4 The Sequence of Equations with Respect to the Pseudo-Frequency	23
2.5 The Approximate Globally Convergent Algorithm	25
2.6 Approximate Global Convergence Theorem	27
3 Imaging of Land Mines with Backscattered Data	28
3.1 A Simplified Mathematical Model of Imaging of Plastic Land Mines	29
3.2 Numerical Results	31
3.3 Test1	32
3.4 Test2	34
References	35

Time-Adaptive FEM for Distributed Parameter Identification in Biological Models	37
Larisa Beilina and Irina Gainova	
1 Introduction	37
2 Forward and Parameter Identification Problems in Biological Models	39
2.1 Statements of the Forward and Parameter Identification Problems with Applications in Biology	39
2.2 The Tikhonov Functional	39
2.3 The Lagrangian	40
3 A Finite Element Method to Solve Equation (14)	42
4 An A Posteriori Error Estimate for the Lagrangian	43
5 An A Posteriori Error Estimate for the Tikhonov Functional. . .	44
6 Relaxation Property for the Functional $E_{\alpha}(q)$	46
7 The Time-Mesh Refinement Recommendation and the Adaptive Algorithm	48
References	49
 Adaptive Finite Element Method in Reconstruction of Dielectrics from Backscattered Data	51
Larisa Beilina, Marte P. Hatlo Andresen, and Harald E. Krogstad	
1 Introduction	51
2 Forward and Inverse Problems	53
3 The Tikhonov Functional	55
4 The Lagrangian and Its Fréchet Derivative	57
5 A Finite Element Method to Solve Equation (23)	59
6 An A Posteriori Error Estimate for the Lagrangian	59
7 The Adaptive Algorithm	60
7.1 The Algorithm	61
8 Numerical Examples	61
8.1 Example 1	63
8.2 Example 2	67
9 Conclusions	69
References	73
 A Posteriori Error Estimates for Fredholm Integral Equations of the First Kind	75
N. Koshev and L. Beilina	
1 Introduction	75
2 Statement of the Problem	76
3 The Finite Element Spaces	78
4 A Finite Element Method	80
5 A Posteriori Error Estimate for the Regularized Solution on Locally Refined Meshes	80
6 A Posteriori Error Estimates for the Functional (44) in DG(1) ..	84

7	A Posteriori Error Estimate for the Error in the Tikhonov Functional (44)	85
8	The Adaptive Algorithm	87
9	Numerical Studies of the Adaptivity Technique in Microtomography	89
