

Contents

1	B Cell Receptor and Antigens in CLL	1
	Andreas Agathangelidis, Stavroula Ntoufa, and Kostas Stamatopoulos	
2	The CLL Cell Microenvironment	25
	Jan A. Burger	
3	Acquired Genomic Copy Number Aberrations in CLL	47
	Peter Ouillette and Sami Malek	
4	Recurrent Gene Mutations in CLL	87
	Alejandra Martínez-Trillos, Víctor Quesada, Neus Villamor, Xose S. Puente, Carlos López-Otín, and Elías Campo	
5	TP53 Aberrations in Chronic Lymphocytic Leukemia	109
	Martin Trbusek and Jitka Malcikova	
6	Gene Expression and Epigenetic Deregulation	133
	Rita Shaknovich	
7	Apoptosis Deregulation in CLL	151
	Chris Fegan and Chris Pepper	
8	Richter Syndrome	173
	Davide Rossi and Gianluca Gaidano	
9	Molecular Biomarkers in Chronic Lymphocytic Leukemia	193
	Sami Malek	
10	Critical Signal Transduction Pathways in CLL	215
	Asish K. Ghosh and Neil E. Kay	
11	Immunotherapies in CLL	241
	Jae H. Park and Renier J. Brentjens	

12	Towards Targeted Therapy of Chronic Lymphocytic Leukemia	259
	Carsten U. Niemann, Jade Jones, and Adrian Wiestner	
13	Inherited Susceptibility to CLL	293
	Helen E. Speedy, Georgina Sava, and Richard S. Houlston	
14	miR Deregulation in CLL	309
	Veronica Balatti, Yuri Pekarky, Lara Rizzotto, and Carlo M. Croce	
	Index	327

Advances in Chronic Lymphocytic Leukemia

Malek, S. (Ed.)

2013, XI, 334 p. 25 illus., 24 illus. in color., Hardcover

ISBN: 978-1-4614-8050-1
