Preface	v
Companion Scripts.....	vi
Companion Textbook and Help Files.....	vi
Technical Support.....	vi
Typographic Conventions.....	vii
A Note About Figure Titles.....	vii
Acknowledgments.....	vii
 1 Getting Started	 1
1.1 Introduction.....	1
1.2 What Is Environmental Statistics?.....	1
1.3 What Is EnvStats?.....	2
1.4 Intended Audience and Users.....	3
1.5 System Requirements.....	4
1.6 Installing EnvStats.....	4
1.7 Starting EnvStats.....	4
1.8 Getting Help and Using Companion Scripts.....	5
1.9 A Note About Examples and Masking.....	6
1.10 Unloading EnvStats.....	7
1.11 A Tutorial.....	7
1.11.1 The TcCB Data.....	8
1.11.2 Computing Summary Statistics.....	9
1.11.3 Looking at the TcCB Data.....	10
1.11.4 Quantile (Empirical CDF) Plots.....	12
1.11.5 Assessing Goodness-of-Fit with Quantile-Quantile Plots.....	14
1.11.6 Estimating Distribution Parameters.....	16
1.11.7 Testing for Goodness of Fit.....	19
1.11.8 Estimating Quantiles and Computing Confidence Limits.....	22
1.11.9 Comparing Two Distributions Using Nonparametric Tests.....	23
1.12 Summary.....	24

2	Designing a Sampling Program	25
2.1	Introduction.....	25
2.2	The Necessity of a Good Sampling Design.....	25
2.3	What Is a Population and What Is a Sample?.....	25
2.4	Random Versus Judgment Sampling.....	26
2.5	Common Mistakes in Environmental Studies	26
2.6	The Data Quality Objectives Process	27
2.7	Power and Sample Size Calculations	28
2.8	Sample Size for Confidence Intervals	28
2.8.1	Confidence Interval for the Mean of a Normal Distribution.....	30
2.8.2	Confidence Interval for a Binomial Proportion.....	34
2.8.3	Nonparametric Confidence Interval for a Percentile.....	38
2.9	Sample Size for Prediction Intervals	40
2.9.1	Prediction Interval for a Normal Distribution	40
2.9.2	Nonparametric Prediction Interval	43
2.10	Sample Size for Tolerance Intervals.....	44
2.10.1	Tolerance Interval for a Normal Distribution.....	45
2.10.2	Nonparametric Tolerance Interval.....	47
2.11	Sample Size and Power for Hypothesis Tests	49
2.11.1	Testing the Mean of a Normal Distribution	51
2.11.2	Testing a Binomial Proportion	55
2.11.3	Testing Multiple Wells for Compliance with Simultaneous Prediction Intervals	57
2.12	Summary.....	61
3	Looking at Data.....	63
3.1	Introduction.....	63
3.2	EDA Using ENVSTATS	64
3.3	Summary Statistics	65
3.3.1	Summary Statistics for TcCB Concentrations.....	65
3.4	Strip Charts	66
3.5	Empirical PDF Plots	66
3.6	Quantile (Empirical CDF) Plots	67
3.6.1	Empirical CDFs for the TcCB Data	68
3.7	Probability Plots or Quantile-Quantile (Q-Q) Plots	68
3.7.1	Q-Q Plots for the Normal and Lognormal Distribution	69
3.7.2	Q-Q Plots for Other Distributions	70
3.7.3	Using Q-Q Plots to Compare Two Data Sets	72
3.7.4	Building an Internal Gestalt for Q-Q Plots.....	73
3.8	Box-Cox Data Transformations and Q-Q Plots.....	75
3.9	Summary.....	78

4	Probability Distributions.....	79
4.1	Introduction.....	79
4.2	Probability Density Function (PDF).....	88
4.2.1	Probability Density Function for Lognormal Distribution	88
4.2.2	Probability Density Function for a Gamma Distribution	90
4.3	Cumulative Distribution Function (CDF).....	92
4.3.1	Cumulative Distribution Function for Lognormal Distribution	92
4.4	Quantiles and Percentiles.....	93
4.4.1	Quantiles for Lognormal Distribution	93
4.5	Generating Random Numbers	94
4.5.1	Generating Random Numbers from a Univariate Distribution	94
4.5.2	Generating Multivariate Normal Random Numbers.....	94
4.5.3	Generating Multivariate Observations Based on Rank Correlations	95
4.6	Summary.....	96
5	Estimating Distribution Parameters and Quantiles	97
5.1	Introduction.....	97
5.2	Estimating Distribution Parameters.....	97
5.2.1	Estimating Parameters of a Normal Distribution	97
5.2.2	Estimating Parameters of a Lognormal Distribution	99
5.2.3	Estimating Parameters of a Gamma Distribution	101
5.2.4	Estimating the Parameter of a Binomial Distribution	102
5.3	Estimating Distribution Quantiles	102
5.3.1	Estimating Quantiles of a Normal Distribution.....	103
5.3.2	Estimating Quantiles of a Lognormal Distribution	105
5.3.3	Estimating Quantiles of a Gamma Distribution	106
5.3.4	Nonparametric Estimates of Quantiles.....	107
5.4	Summary.....	112
6	Prediction and Tolerance Intervals.....	113
6.1	Introduction.....	113
6.2	Prediction Intervals	113
6.2.1	Prediction Intervals for a Normal Distribution.....	116
6.2.2	Prediction Intervals for a Lognormal Distribution	119
6.2.3	Prediction Intervals for a Gamma Distribution	122
6.2.4	Nonparametric Prediction Intervals.....	125

6.3	Simultaneous Prediction Intervals	128
6.3.1	Simultaneous Prediction Intervals for a Normal Distribution	131
6.3.2	Simultaneous Prediction Intervals for a Lognormal Distribution	133
6.3.3	Simultaneous Prediction Intervals for a Gamma Distribution	136
6.3.4	Simultaneous Nonparametric Prediction Intervals	136
6.4	Tolerance Intervals	141
6.4.1	Tolerance Intervals for a Normal Distribution	142
6.4.2	Tolerance Intervals for a Lognormal Distribution	144
6.4.3	Tolerance Intervals for a Gamma Distribution	146
6.4.4	Nonparametric Tolerance Intervals	146
6.5	Summary	148
7	Hypothesis Tests	149
7.1	Introduction	149
7.2	Goodness-of-Fit Tests	149
7.2.1	One-Sample Goodness-of-Fit Tests for Normality	151
7.2.2	Testing Several Groups for Normality	154
7.2.3	One-Sample Goodness-of-Fit Tests for Other Distributions	159
7.2.4	Two-Sample Goodness-of-Fit Test to Compare Samples	161
7.3	One-, Two-, and k -Sample Comparison Tests	163
7.3.1	Two- and k -Sample Comparisons for Location	164
7.3.2	Chen's Modified One-Sample t -Test for Skewed Data	166
7.3.3	Two-Sample Linear Rank Tests and the Quantile Test	168
7.4	Testing for Serial Correlation	169
7.5	Testing for Trend	169
7.5.1	Testing for Trend in the Presence of Seasons	170
7.6	Summary	172
8	Censored Data	175
8.1	Introduction	175
8.2	Classification of Censored Data	175
8.3	Functions for Censored Data	176
8.4	Graphical Assessment of Censored Data	176
8.4.1	Quantile (Empirical CDF) Plots for Censored Data	176
8.4.2	Comparing an Empirical and Hypothesized CDF	179
8.4.3	Comparing Two Empirical CDFs	180

8.4.4	Q-Q Plots for Censored Data.....	181
8.4.5	Box-Cox Transformations for Censored Data.....	183
8.5	Estimating Distribution Parameters.....	184
8.5.1	The Normal and Lognormal Distribution.....	184
8.5.2	The Lognormal Distribution (Original Scale).....	188
8.5.3	The Gamma Distribution.....	190
8.5.4	Estimating the Mean Nonparametrically.....	191
8.6	Estimating Distribution Quantiles.....	193
8.6.1	Parametric Estimates of Quantiles.....	194
8.6.2	Nonparametric Estimates of Quantiles.....	198
8.7	Prediction Intervals.....	198
8.7.1	Parametric Prediction Intervals.....	198
8.7.2	Nonparametric Prediction Intervals.....	200
8.8	Tolerance Intervals.....	200
8.8.1	Parametric Tolerance Intervals.....	200
8.8.2	Nonparametric Tolerance Intervals.....	203
8.9	Hypothesis Tests.....	203
8.9.1	Goodness-of-Fit Tests.....	203
8.9.2	Nonparametric Tests to Compare Two Groups.....	207
8.10	Summary.....	209
9	Monte Carlo Simulation and Risk Assessment.....	211
9.1	Introduction.....	211
9.2	Overview.....	212
9.3	Monte Carlo Simulation.....	212
9.3.1	Simulating the Distribution of the Sum of Two Normal Random Variables.....	213
9.4	Generating Random Numbers.....	216
9.4.1	Generating Random Numbers from a Uniform Distribution.....	216
9.4.2	Generating Random Numbers from an Arbitrary Distribution.....	216
9.4.3	Latin Hypercube Sampling.....	217
9.4.4	Example of Simple Random Sampling versus Latin Hypercube Sampling.....	220
9.4.5	Properties of Latin Hypercube Sampling.....	222
9.4.6	Generating Correlated Multivariate Random Numbers.....	222
9.5	Uncertainty and Sensitivity Analysis.....	224
9.5.1	Important Versus Sensitive Parameters.....	225
9.5.2	Uncertainty Versus Variability.....	226
9.5.3	Sensitivity Analysis Methods.....	227
9.5.4	Uncertainty Analysis Methods.....	230
9.5.5	Caveat.....	232

9.6	Risk Assessment	232
9.6.1	Definitions	232
9.6.2	Building a Risk Assessment Model.....	235
9.6.3	Example: Quantifying Variability and Parameter Uncertainty	236
9.7	Summary.....	241
