Contents

Part I Hypotheses

1 Oxidative Stress: Impact in Neuroscience Research 3
Helmut Sies

2 Oxidative Stress and Alzheimer's Disease 9
Rudy J. Castellani, Bei-Xu Li, Amna Farshori, and Georgy Perry

3 Inflammation and Oxidation: A Link in Alzheimer's Disease Pathogenesis 15
Kenneth Hensley

4 GAPDH: β-Amyloid Mediated Iron Accumulation in Alzheimer's Disease: A New Paradigm for Oxidative Stress Induction in Neurodegenerative Disorders 25
Michael A. Sirover

5 Aβ in Mitochondria—One Piece in the Alzheimer's Disease Puzzle 41
Maria Ankarcrona

6 The Role of the Plasma Membrane Redox System in the Pathogenesis of Alzheimer's Disease 55
Sara M. Hancock, David I. Finkelstein, Ashley I. Bush, and Paul A. Adlard

Part II Mechanisms

7 Metal Dysfunction in Alzheimer's Disease 73
Rosanna Squitti, Mariacristina Siotto, Carlo Salustri, and Renato Polimanti

8 Brain Oxidative Stress in the Pathogenesis and Progression of Alzheimer's Disease 99
Rukhsana Sultana, Aaron M. Swomley, and D. Allan Butterfield

9 Cholesterol Metabolism and Oxidative Stress in Alzheimer's Disease 119
Luigi Iuliano and Valerio Leoni

10 Brain Hypometabolism, Oxidative Stress, Maternal Transmission, and Risk of Late-Onset Alzheimer's Disease 137
Lisa Mosconi, John Murray, Pauline McHugh, and Mony de Leon

11 Stress and HPA Axis Dysfunction in Alzheimer's Disease 159
Yash B. Joshi and Domenico Praticò

Part III Clinics

12 Diabetes Mellitus and Its Impact on Sporadic Alzheimer's Disease 169
Weili Xu

13 Peripheral Biomarkers of Oxidative Stress in Alzheimer's Disease 185
Fabio Di Domenico and Marzia Perluigi

14 Nutrition, Lifestyle and Oxidative Stress: Prevention of Alzheimer's Disease 201
M. Cristina Polidori and Ludger Pientka

15 Are Antioxidant Food and Nutrients Useful in Preventing Cognitive Decline? 211
Luc Letenneur, Catherine Feart, and Pascale Barberger-Gateau

16 Antioxidant Clinical Trials in Mild Cognitive Impairment and Alzheimer's Disease 223
Patrizia Mecocci, M. Cristina Polidori, and Domenico Praticó

About the Editors 233
