

Contents

1 Knowledge of the Viticultural Area and of its Wines	1
2 Glera Grape Variety	7
2.1 Glera: The Reason for a New Name.	10
2.2 In-Depth Treatment: Glera at a Glance	11
2.3 In-Depth Treatment: Training Systems for Glera.	12
Bibliography	16
3 Study on the Origins of Quality: Formulation of the Investigation . . .	19
3.1 Affirmation of a Viticultural Tradition	21
3.2 Study of Climate and Soils.	22
3.3 Selection of Sample Vineyards.	24
3.4 Study of the Variety-Environment Interaction: Composition of the Berry, Vegetative Growth and Crop Yields.	24
3.5 Microvinifications	26
3.6 Organoleptic Evaluation of the Wines	26
3.7 In-Depth Treatment: Protocol for the Determination of the Aromatic Fraction of the Glera Grape Variety	28
3.8 In-Depth Treatment: Standard Protocol for White Wine Microvinification	28
Bibliography	29
4 Climate	31
4.1 Climate in Viticulture: The Main Elements that Relate to and Direct the Development of the Vine	31
4.1.1 Temperature	31
4.1.2 Light	32
4.1.3 Water	33
4.2 Climate Variability	35
4.3 Climate and the Grapevine: Vegetative and Qualitative Aspects . . .	35
4.4 Climate in the DOCG Prosecco Growing Area	36
4.5 Climate Characteristics in the Subzones of the Eastern Area of the DOCG Prosecco.	43

4.5.1	Average Temperatures During the Growth Cycle	43
4.5.2	Minimum, Maximum and Differential Temperatures During Growth Cycle	44
4.5.3	Rainfall	45
4.6	Climate Characteristics in the Subzones in the Western Area of the DOCG Prosecco	46
4.6.1	Average Temperatures During the Growth Cycle	46
4.6.2	Rainfall	48
4.6.3	Direct Solar Radiation	48
4.7	Application of the Huglin Index to the Study Area	50
	Bibliography	53
5	Phenology	55
5.1	The Phenological Stages of Glera in the DOCG Prosecco District . . .	55
5.2	In-Depth Treatment: Climate Change and its Effects on Glera	61
	Bibliography	63
6	Soils	65
6.1	Soil as Guarantor of Quality and Vine Health	65
6.2	Soils in the DOCG Conegliano-Valdobbiadene Area	69
6.2.1	Geology and Geomorphology	69
6.2.2	Soil Formation and Evolution	72
6.2.3	Description of Soils	74
6.3	In-Depth Treatment: Winter Pruning Canes, from Refuse to Resource	77
	Bibliography	79
7	Water and Soil Water Availability	83
7.1	Water Stress	85
7.2	Water–Soil–Vine Relations	87
7.3	Soil Water Reserves in the Eastern Area of the DOCG Prosecco Zone	90
7.4	Soil Water Reserves in the Western Area of the DOCG Prosecco Zone	92
7.5	In-Depth Treatment: Stomata, Foliar Morphology, Vigour and Drought Resistance	95
7.6	In-Depth Treatment: Water Sustainability in the Vineyard	99
	Bibliography	101
8	Glera’s Crop Yield and Grape Quality Responses to Environmental Conditions	105
8.1	Vineyard Yields	105
8.1.1	Eastern Area	106
8.1.2	Western Area	107
8.1.3	In-Depth Treatment: Vineyards on Steep Slopes: What are Their Actual Yields?	109

8.2	Grape Quality	113
8.2.1	Eastern Area	113
8.2.2	Western Area	118
8.3	Growth–Crop Balance in the Vineyard	120
	Bibliography	123
9	Microstructure of the Grape: Aromatic Precursors in Relationship to Climate, Microclimate and Growing Practices	127
9.1	Aromatic Precursors	127
9.2	Aromatic Characterisation of Glera	130
9.3	Relation Between Presence of Aromatic Precursors and Olfactory Impressions	132
9.4	Seasonal Climate Variability and Aromatic Precursor Content . . .	134
9.5	Aromatic Quality in Relation to Thermal Variability of Individual Sites	136
9.6	Aromatic Quality Related to Growing Soils	142
	Bibliography	145
10	Organoleptic Characteristics of the Wines	149
10.1	Wines of the Eastern Area	150
10.1.1	1997 Wines	150
10.1.2	1998 Wines	152
10.1.3	1999 Wines	153
10.1.4	Three-Year Average Levels and Organoleptic Descriptors: Considerations	155
10.2	Wines of the Western Area	156
10.2.1	2003 Wines	157
10.2.2	2004 Wines	160
10.2.3	2005 Wines	160
10.2.4	2006 Wines	162
10.2.5	Four-Year Average Levels and Organoleptic Descriptors: Considerations	164
	Bibliography	165
11	Representative Terroirs in the DOCG Prosecco	167
11.1	Introduction	167
11.2	Susegana	167
11.3	Conegliano–Feletti	173
11.4	Colle Umberto	179
11.5	Rolle	185
11.6	Scandolere–Molere	190
11.7	Cartizze Alto	197
11.8	Valdobbiadene–San Pietro	203
11.9	Parte Alta Valdobbiadene–Guia	209

12	Using Geospatial Technologies to Better Understand Terroir	215
12.1	Introduction	215
12.2	Viticultural Region Characterisation	216
12.3	Viticultural Suitability Analysis	216
12.4	Viticultural Land Use Identification	217
12.5	Precision Viticulture	219
12.6	Application of Geospatial Technologies to the Prosecco Wine Region	221
12.7	Conclusions	229
	Bibliography	231
13	The Role of Landscape in the Productive Context and in the Quality of Prosecco Wine	235
13.1	Protection of the Growing Area: The Soil	237
13.2	Landscape	239
13.3	Protection of the Landscape	242
	Bibliography	247

The Power of the Terroir: the Case Study of Prosecco
Wine

Tomasi, D.; Gaiotti, F.; Jones, G.V.

2013, X, 248 p. 185 illus., 95 illus. in color., Hardcover

ISBN: 978-3-0348-0627-5
