

Contents

1	Hypergraphs: Basic Concepts	1
1.1	First Definitions	1
1.2	Example of Hypergraph	3
1.2.1	Simple Reduction Hypergraph Algorithm	4
1.3	Algebraic Definitions for Hypergraphs	7
1.3.1	Matrices, Hypergraphs and Entropy	7
1.3.2	Similarity and Metric on Hypergraphs	9
1.3.3	Hypergraph Morphism; Groups and Symmetries	18
1.4	Generalization of Hypergraphs	20
	References	21
2	Hypergraphs: First Properties	23
2.1	Graphs versus Hypergraphs	23
2.1.1	Graphs	23
2.1.2	Graphs and Hypergraphs	24
2.2	Intersecting Families, Helly Property	29
2.2.1	Intersecting Families	29
2.2.2	Helly Property	30
2.3	Subtree Hypergraphs	33
2.4	Conformal Hypergraphs	35
2.5	Stable (or Independent), Transversal and Matching	37
2.5.1	Examples	38
2.6	König Property and Dual König Property	39
2.7	linear Spaces	41
	References	42
3	Hypergraph Colorings	43
3.1	Coloring	43
3.2	Particular Colorings	45
3.2.1	Strong Coloring	45
3.2.2	Equitable Coloring	47
3.2.3	Good Coloring	47
3.2.4	Uniform Coloring	48

3.2.5	Hyperedge Coloring	48
3.2.6	Bicolorable Hypergraphs	49
3.3	Graph and Hypergraph Coloring Algorithm	54
	References	56
4	Some Particular Hypergraphs	57
4.1	Interval Hypergraphs	57
4.2	Unimodular Hypergraphs	60
4.2.1	Unimodular Hypergraphs and Discrepancy of Hypergraphs	60
4.3	Balanced Hypergraphs	64
4.4	Normal Hypergraphs	68
4.5	Arboreal Hypergraphs, Acyclicity and Hypertree Decomposition	71
4.5.1	Acyclic Hypergraph	72
4.5.2	Arboreal and Co-Arboreal Hypergraphs	75
4.5.3	Tree and Hypertree Decomposition	75
4.6	Planar Hypergraphs	78
	References	82
5	Reduction-Contraction of Hypergraph	83
5.1	Introduction	83
5.2	Reduction Algorithms	84
5.2.1	A Generic Algorithm	84
5.2.2	A Minimum Spanning Tree Algorithm (HR-MST)	90
	References	94
6	Dirhypergraphs: Basic Concepts	95
6.1	Basic Definitions	95
6.2	Basic Properties of Directed Hypergraphs	98
6.3	Hypercycles in a Dirhypergraph	101
6.4	Algebraic Representation of Dirhypergraphs	107
6.4.1	Dirhypergraphs Isomorphism	107
6.4.2	Algebraic Representation: Definition	108
6.4.3	Algebraic Representation Isomorphism	108
	References	110
7	Applications of Hypergraph Theory: A Brief Overview	111
7.1	Hypergraph Theory and System Modeling for Engineering	111
7.1.1	Chemical Hypergraph Theory	112
7.1.2	Hypergraph Theory for Telecommunications	112
7.1.3	Hypergraph Theory and Parallel Data Structures	112
7.1.4	Hypergraphs and Constraint Satisfaction Problems	113
7.1.5	Hypergraphs and Database Schemes	113

Contents	xiii
7.1.6 Hypergraphs and Image Processing	114
7.1.7 Other Applications	115
References	116
Index	117

Hypergraph Theory

An Introduction

Bretto, A.

2013, XIII, 119 p., Hardcover

ISBN: 978-3-319-00079-4
