

# Contents

## Part I Production and Perception Models

<b>Synchronization and Self-Organization as Basis of Musical Performance, Sound Production, and Perception . . . . .</b>	<b>3</b>
Rolf Bader	
<b>A Free Energy Formulation of Music Performance and Perception Helmholtz Revisited. . . . .</b>	<b>43</b>
Karl J. Friston and Dominic A. Friston	
<b>Change and Continuity in Sound Analysis: A Review of Concepts in Regard to Musical Acoustics, Music Perception, and Transcription . . . . .</b>	<b>71</b>
Albrecht Schneider	
<b>Quantal Elements in Musical Experience . . . . .</b>	<b>113</b>
Rolf Inge Godøy	

## Part II Neurocognition and Evolution

<b>Strong Emotions in Music: Are they an Evolutionary Adaptation? . . .</b>	<b>131</b>
Eckart Altenmüller, Reinhard Kopiez and Oliver Grewe	
<b>Music and Action . . . . .</b>	<b>157</b>
Stefan Koelsch and Clemens Maidhof	
<b>Music for the Brain Across Life. . . . .</b>	<b>181</b>
Teppo Särkämö, Mari Tervaniemi and Minna Huotilainen	
<b>The Perception of Melodies: Some Thoughts on Listening Style, Relational Thinking, and Musical Structure . . . . .</b>	<b>195</b>
Christiane Neuhaus	

### Part III Applications

<b>Virtual Room Acoustics</b> . . . . .	219
Michael Vorländer, Sönke Pelzer and Frank Wefers	
<b>The Wave Field Synthesis Lab at the HAW Hamburg</b> . . . . .	243
Wolfgang Fohl	
<b>The <math>\mu\text{cosm}</math> Project: An Introspective Platform to Study Intelligent Agents in the Context of Music Ensemble Improvisation</b> . . . . .	257
Jonas Braasch	
<b>Acoustical Measurements on Experimental Violins in the Hanneforth Collection</b> . . . . .	271
Robert Mores	
<b>Fourier-Time-Transformation (FTT), Analysis of Sound and Auditory Perception</b> . . . . .	299
Albrecht Schneider and Robert Mores	
<b>Performance Controller for Physical Modelling FPGA Sound Synthesis of Musical Instruments</b> . . . . .	331
Florian Pfeifle and Rolf Bader	
<b>Multisymplectic Pseudo-Spectral Finite Difference Methods for Physical Models of Musical Instruments</b> . . . . .	351
Florian Pfeifle	
<b>Human-Computer Interaction and Music</b> . . . . .	367
Alejandro Rosa-Pujazón, Isabel Barbancho, Lorenzo J. Tardón and Ana M. Barbancho	

Sound - Perception - Performance

Bader, R. (Ed.)

2013, XV, 389 p., Hardcover
