1	Introduction	1
1.1	Overview of the Thesis	1
1.2	Why Customer Relationship Management?	1
1.3	CRM Adoption in Industry	2
1.4	Academic Research on CRM	3
1.5	CRM Challenges	4
1.6	General Understanding of CRM	5
1.6.1	Customer Knowledge	5
1.6.2	Customer Relationship	6
1.6.3	Value Proposition	6
1.6.4	Relationship Management	6
1.7	Benefits of Customer Relationship Management	7
1.8	Research Gaps in the Literature	7
1.9	Thesis Objectives	8
1.10	Significance of the Research	9
1.11	Structure of the Thesis	10
1.12	Conclusion	11
	References	11
2	Literature Review	15
2.1	Introduction	15
2.2	Concepts and Definitions of CRM	16
2.2.1	Strategic-Based Definition for Customer Relationship Management	16
2.2.2	Process-Based Definition in CRM	17
2.2.3	Customer Complaint in CRM	18
2.2.4	Complaint Management	19
2.2.5	Complaint and Derivations in CRM	20
2.2.6	Definitions of Perceived Value in CRM	21
2.2.7	Definitions of Interactivity in CRM	21
2.2.8	Definitions of Satisfaction in CRM	22
2.2.9	Definitions of Loyalty in CRM	23
2.2.10	Definitions of Customer Acquisition in CRM	24

2.3	Types of CRM	24
2.3.1	Analytical CRM and its Significance	24
2.3.2	Operational or Transactional CRM and its Significance.	25
2.3.3	Collaborative or Interactive CRM and its Significance.	26
2.3.4	Problems with Above CRM Solutions.	26
2.4	Existing CRM Approaches	27
2.4.1	Customer Relationships-Focused CRM Approach.	27
2.4.2	Customer Perceived Value-Focused CRM Approach	32
2.4.3	Customer Interactivity-Focused CRM Approach.	36
2.4.4	Customers Loyalty-Focused CRM Approach	42
2.4.5	Customer Acquisition-Focused CRM Approach	46
2.4.6	Customer Complaints-Focused CRM Approach	48
2.4.7	Customer Satisfaction-Focused CRM Approach	54
2.5	Models and Methods Used in CRM	61
2.5.1	AHP Method	61
2.5.2	ANP Method	61
2.5.3	Clustering Method	62
2.5.4	An Object-Oriented Analysis Method	62
2.5.5	Content Analysis	62
2.5.6	Single-Case Approach.	63
2.5.7	A Simulation Model Approach.	63
2.5.8	Web-Based Questionnaire Survey.	63
2.5.9	Survey, Questionnaire, Interview and Hypothesis Testing.	64
2.5.10	Data Mining	64
2.5.11	Case-Based Reasoning (CBR)	64
2.6	Existing CRM Systems	65
2.6.1	SAP CRM and its Challenges	65
2.6.2	Salesforce.com and its Challenges	66
2.6.3	Oracle-Siebel and its Challenges	66
2.6.4	Maximizer and its Challenges	67
2.6.5	Sugar CRM and its Challenges.	67
2.6.6	Sage and its Challenges.	67
2.6.7	Microsoft Dynamics and its Challenges.	68
2.7	Critical Evaluation of the Existing Literature.	69
2.7.1	Interpretations and Definitions of CRM.	69
2.7.2	CRM Approaches Which Focus on a Specific Area	70
2.7.3	Different Models and Methods Used to Analyse CRM	70
2.7.4	Different Systems and Tools Used for CRM	71

2.8	Open Source CRM on the Cloud	73
2.8.1	Advantages of Adopting CRM Open-Source Software.	73
2.9	Major Weaknesses of Current CRM	77
2.10	Summary of the Literature Review and the Need for an Intelligent CRM	78
2.11	Conclusion.	80
	References	80
3	Problem Definition	89
3.1	Introduction	89
3.2	Key Concepts Used in this Thesis	90
3.2.1	Basic Concepts.	90
3.2.2	Additional Concepts Introduced in CRM.	91
3.2.3	Advanced Definition of CRM	92
3.3	Problem Overview	92
3.4	The Need for New CRM Solutions.	95
3.5	Research Issues	96
3.5.1	Research Issue 1: Conceptual Definitions	97
3.5.2	Research Issue 2: Propose a Methodology for Complaint Analysis and Management	97
3.5.3	Research Issue 3: Propose a Methodology to Formulate Hypotheses and Provide Recommendations.	98
3.5.4	Research Issue 4: Scientific Models for Customer Feedback, and Customer Satisfaction and Preliminary Hypotheses Validation.	99
3.5.5	Research Issue 5: Propose a Methodology for the Relationship Between Customer Complaints with Variables of Perceived Value, Interactivity, Loyalty and Customer Acquisition	100
3.5.6	Research Issue 6: Validate the Proposed Methodologies	100
3.6	Choice of Research Methodologies.	101
3.6.1	Research Methods	101
3.6.2	Science and Engineering-Based Research	101
3.6.3	Social Science Research	102
3.6.4	Choice of Multi-Disciplinary Approach to Problem Solving.	102
3.7	Conclusion.	104
	References	104

4	Solution Overview	107
4.1	Introduction	107
4.2	The Proposal of an Intelligent CRM (I-CRM) and its Components	108
4.2.1	The Foundation for the Proposed I-CRM.	109
4.2.2	‘Art’ Defined in Terms of I-CRM	111
4.2.3	‘Customer Acquisition’ as Defined for I-CRM.	111
4.2.4	‘Customer Satisfaction’ as Defined for I-CRM.	112
4.2.5	‘People, Technology and Process Integration’ as Defined for I-CRM.	113
4.2.6	“Customer Retention” as Defined for I-CRM	115
4.2.7	‘Loyalty’ as Defined for I-CRM.	116
4.2.8	‘Customer Life-time Value’ as Defined for I-CRM.	116
4.3	Overview of Conceptual Framework of I-CRM	117
4.4	The I-CRM	120
4.4.1	Analysing Customer Feedback	120
4.4.2	Complaint Feedback	120
4.4.3	Complimentary Feedback	121
4.4.4	Neutral Feedback	121
4.4.5	Building and Developing Strategies	121
4.4.6	Classification of the Issues	122
4.4.7	Solution to the Issues	122
4.4.8	The Impact Factors.	122
4.4.9	Intelligent Complaint Analyser.	122
4.5	The I-CRM Evaluator	125
4.5.1	I-CRM Evaluator (I-CRM Manager).	126
4.5.2	Perceived Value	126
4.5.3	Interactivity	126
4.5.4	Customer Service	127
4.5.5	Business Profitability	128
4.5.6	Productivity	128
4.5.7	Quality	129
4.5.8	Reputation.	129
4.6	Analytics Solution for I-CRM	130
4.6.1	The Distinguishing Features of I-CRM and Application in the Logistics Industry	130
4.6.2	Chocie of Case Study and Data Collection	131
4.6.3	Customers’ Issues at Fremantle Port	131
4.7	Questionnaires and Data Collection in I-CRM	134
4.8	The Interview and Questionnaire Approach in I-CRM	136
4.9	Significance of the Proposed I-CRM Framework	136
4.9.1	Unique Features of I-CRM	137

4.9.2	Intelligent Customer Relationship Management as a System for Evaluation of Customer Relationships	137
4.10	Summary of the Proposed Conceptual Framework for I-CRM	137
4.11	Conclusion.	139
	References	139
5	Analytical Text Mining in I-CRM for Customer Complaint Analysis.	141
5.1	Introduction	141
5.2	The I-CRM Concepts Data Analysis	141
5.2.1	Node	141
5.2.2	Node Theme	141
5.2.3	Reference	142
5.2.4	Reference Coverage	142
5.3	Real-World Case Study	143
5.3.1	The Fremantle Port Case Study	143
5.3.2	Qualitative Research	144
5.3.3	Qualitative Analysis of the Interview Data	145
5.3.4	Text Analysis of Interview Data	145
5.4	The Analytic Findings on Fremantle Port Issues.	145
5.4.1	Cost Issues at the Port in Different Segments	146
5.4.2	Booking System	147
5.4.3	Container Pick-up and Drop-off Issues	149
5.4.4	Health and Safety Issues at the Fremantle Port.	150
5.4.5	Infrastructure Problem.	152
5.4.6	Jurisdiction and Policy Issues.	156
5.4.7	Management Issues.	156
5.4.8	Stevedore Performance	160
5.4.9	Time Management	162
5.5	Frequency of Keywords, Weight and Importance Used to Help Identify the Issues.	163
5.5.1	Tag Cloud on the Fremantle Port Issues	164
5.5.2	The Issues Identification Through Frequency of Keywords Analysis.	167
5.6	Confirmation of Issue Interpretation Through Weight and Importance	171
5.6.1	Management Issues.	171
5.6.2	Health and Safety Issues	173
5.6.3	Time Management	174
5.6.4	Infrastructure Issues	175
5.6.5	Booking System	178
5.6.6	Cost	180

5.6.7	Container Issues	181
5.6.8	Stevedore Performance	182
5.6.9	Jurisdiction Issues.	184
5.7	Significance of Text-Mining Analysis	185
5.8	Conclusion.	186
	References	186
6	I-CRM Validation of Customer Issues and Definition of Their Impact Factors Through Hypotheses Formulation	187
6.1	Introduction	187
6.2	Questionnaire to Help Hypotheses Formulation	187
6.3	Hypotheses Formulation Related to the Fremantle Port Issues.	191
6.4	Category Indicators and Abbreviations	194
6.5	Input Factors Resulting from Variance Analysis.	194
6.6	Impact Factors Mapping to I-CRM Evaluator	197
6.6.1	Structural Equation Modelling for Validation of Mapping	197
6.7	Hypotheses Formulation Related to I-CRM	198
6.7.1	Hypotheses Testing Related to the Fremantle Port Issues and I-CRM	198
6.7.2	Conceptual Diagram Derived from Structural Equation Modelling	199
6.7.3	Normalising the Coefficient to Show Relationships Between Variables	200
6.7.4	Significance of Coefficient Derived from Structural Equation Modelling	202
6.8	Validation Mapping of Hypotheses Related to the Fremantle Port and I-CRM	205
6.9	Recommendations.	207
6.10	Significance of Validation of Mapping and Impact Factors Through Hypotheses Formulation and Proof of Concept	208
6.11	Cronbach Alphas Estimation for Each Variable	212
6.11.1	Customer Satisfaction Section	212
6.11.2	Customer Loyalty Section	212
6.11.3	Perceived Value Section	213
6.11.4	Interactivity Section	213
6.11.5	Customer Acquisition Section	213
6.12	Measurement in I-CRM.	213
6.13	Conclusion.	214

7	Improving Customer Satisfaction Through Customer Type Mapping and I-CRM Strategies	217
7.1	Introduction	217
7.2	A Framework for I-CRM Development and Customer Satisfaction	217
7.3	Step 1: Customer Screening.	219
7.3.1	Category One Customers.	219
7.3.2	Category Two Customers	219
7.3.3	Category Three Customers.	220
7.3.4	Level of Education	220
7.3.5	Position	220
7.3.6	Work Status.	221
7.3.7	Knowing the Culture of WA	222
7.3.8	Character of the Customer.	222
7.3.9	Work Experience	223
7.4	Step 2: Data Reduction	224
7.4.1	Step 2.1: Indicators Categorization	224
7.4.2	Step 2.2: Correlation Analysis	225
7.4.3	Step 2.3: Principal Component Analysis (PCA)	226
7.5	Step 3: Data Analysis with Data Envelopment Analysis	229
7.5.1	Data Envelopment Analysis: An Overview	229
7.5.2	Applied Data Envelopment Analysis Model.	231
7.5.3	Data Envelopment Analysis Results	231
7.5.4	Customer Type Mapping.	232
7.6	Step 4: Organization Strengths and Weaknesses.	236
7.7	Step 5: Submit Recommendations to Decrease Weaknesses and Strengthen Good Practices.	238
7.8	Analytical Hierarchal Process for Strategic I-CRM Development	238
7.8.1	Satisfaction Indicators on a Pairwise Comparison Approach for Customers	239
7.8.2	Dynamic Sensitivity Analysis.	241
7.8.3	Performance Sensitivity Analysis	242
7.8.4	Gradient Sensitivity Analysis.	243
7.9	Determining and Addressing Significant Issues to Achieve Maximum Timely Satisfaction	244
7.10	Conclusion.	247

8	Linear and Non-linear Analytics and Opportunity Development in I-CRM.	249
8.1	Introduction	249
8.1.1	Research Questions.	250

8.2	Linear Modelling Between Customer Satisfaction and I-CRM	253
8.2.1	Factor Quantification: Calculate an Overall Degree of Agreement for Each Customer in the Four Sections of Perceived Value, Interactivity, Customer Loyalty, and Customer Acquisition.	253
8.2.2	Relationship Analysis Using Linear Model Estimation Between Customer Satisfaction, Perceived Value and Interactivity	254
8.2.3	Relationship Analysis Using Linear Model Estimation for Loyalty, Acquisition and Customer Satisfaction	255
8.2.4	Summary of Customer Satisfaction and I-CRM	256
8.3	Fuzzy Approach Using Adaptive Neuro-Fuzzy Inference System Modelling.	256
8.3.1	Methodology: Takagi-Sugeno Type Fuzzy Inference System	256
8.3.2	Adaptive Network-Based Fuzzy Inference System	257
8.3.3	Subtractive Clustering	259
8.4	Adaptive Neuro-Fuzzy Inference Systems Results	260
8.4.1	Adaptive Neuro-Fuzzy Inference Systems Results of Relation Analysis in Level 1	260
8.4.2	Adaptive Neuro-Fuzzy Inference Systems Results of Relation Analysis in Level 2-1 Which is the Relationship Between the Issues and Loyalty.	264
8.4.3	Summary.	272
8.4.4	ANFIS Results of Relation Analysis in Level 2-2.	272
8.4.5	Summary of Level 2.1 (Customer Issues and Loyalty) and Level 2.2 (Customer Issues and Customer Acquisition)	278
8.5	Significance of Utilising Linear and Non-linear Methodology	278
8.6	Productivity, Quality and Reputation in I-CRM	280
8.6.1	Productivity	280
8.6.2	Quality	281
8.6.3	Reputation	281
8.7	Creating Opportunities from Customer Complaints and Generating Business Improvement	283
8.7.1	Booking System	284
8.7.2	Infrastructure	286
8.7.3	Health and Safety	287
8.7.4	Time Management	288
8.7.5	Cost	289
8.7.6	Container Sorting	290

8.7.7	Jurisdiction	292
8.7.8	Management	292
8.7.9	Stevedore Performance	294
8.8	Conclusion.	295

9	Conclusion of the Thesis and Future Works	297
9.1	Introduction	297
9.2	Problems Addressed in this Thesis	297
9.3	Recapitulations.	298
9.3.1	I-CRM Analytic Framework	299
9.3.2	Qualitative and Quantitative Research.	300
9.3.3	Text Analysis to Prioritize Complaints	300
9.3.4	Validation of Identified Issues and Their Impact Factors Through Hypotheses Formulation and Proof of Concept	301
9.3.5	Improve Customer Satisfaction Through Customer Type Mapping and Strategies for I-CRM Development	301
9.3.6	Analysis of Relationship Between Customer Satisfaction and Related Variables	303
9.4	Validation and Reliability of the Research.	303
9.4.1	Surveys and Samples	303
9.4.2	Validity Analysis	304
9.4.3	Reliability Analysis.	304
9.4.4	Summary of Questionnaire Reliability.	305
9.5	Contributions of this Thesis to the Existing Literature.	305
9.5.1	Contribution 1: Comprehensive Survey of Current Literature.	306
9.5.2	Contribution 2: Definitions of Advanced I-CRM and Creating an Intelligent CRM Framework.	306
9.5.3	Contribution 3: An Analytic Approach Through Text Mining.	307
9.5.4	Contribution 4: New Approaches for Testing the Hypotheses	307
9.5.5	A Five-Step Algorithm for the Analysis of Customer Satisfaction and Analytic Approach	307
9.5.6	A New Rule-Based Methodology for Customer Complaints, Antecedents and Consequences: Three-Level Analytics Approach	308
9.6	New Features of I-CRM	309
9.7	Future Work	309
