3	Results.	49
3.1	Simulation and Discretization Details.	49
3.2	Model A: Small Test Problem.	50
3.2.1	Solving Directly for the Final Deformations.	57
3.2.2	Testing the Effect of <i>cstress</i>	57
3.3	Models B and C: Large Test Problems.	58
3.3.1	Model B: Large Test Problem of Shear Stimulation	59
3.3.2	Model C: Large Test Problem of Mixed-Mode Stimulation.	66
3.4	Model D: Testing the Strain Penalty Method	67
3.5	Hierarchical Matrix Decomposition	69
	References	72
4	Discussion	73
4.1	Model A.	73
4.1.1	General Description of Results	73
4.1.2	Effect of Spatial and Temporal Discretization	74
4.1.3	Solving Directly for Final Deformations	75
4.1.4	Effect of <i>cstress</i>	76
4.2	Model B.	77
4.2.1	General Description of Results	77
4.2.2	Effect of Temporal Discretization Refinement	79
4.2.3	Effect of <i>cstress</i>	80
4.2.4	Effect of Adaptive Domain Adjustment.	80
4.2.5	Dynamic Friction Weakening	81
4.2.6	Neglecting Stress Interaction	82
4.3	Model C.	82
4.4	Model D.	83
4.5	Hierarchical Matrix Decomposition	83
4.6	Extension of the Model to Three Dimensions	84
