

Contents

1	Introduction	1
1.1	Network Planning	3
1.2	Energy Modeling	4
1.3	Resource Allocation	4
1.4	Outline	5
	References	6
2	Background and Literature Survey	9
2.1	Network Planning	9
2.2	Energy Modeling	10
2.3	Resource Allocation	11
	References	12
3	Joint Relay Placement and Sub-carrier Allocation in Sustainable Wireless Networks	17
3.1	Introduction	17
3.2	System Model	18
3.3	Problem Formulation	21
3.3.1	QoS and Energy Sustainability Constraints	22
3.4	RNP-SA Algorithms	23
3.4.1	Algorithms Overview	23
3.4.2	Sub-Carrier and Traffic Over Rate	24
3.4.3	RNP-SA with Top-Down Algorithm	25
3.4.4	RNP-SA with Bottom-up Algorithm	26
3.4.5	Time Complexity Analysis of the RNP-SA-t/b Algorithms	27
3.5	Simulation Results	29
3.5.1	Simulation Configurations	29
3.5.2	Traffic Load Oriented Greedy Algorithm	30
3.5.3	Performance Evaluation	31
3.6	Summary	36
	References	36
