Hepatocellular Carcinoma Biology	1
1 Introduction	2
2 Hepatocellular Carcinoma: Tumor-Initiating Cells	2
3 Carcinogenesis	3
4 Molecular Pathway Dysregulation	5
4.1 Interleukin-6/STAT3 signaling	5
4.2 Transforming growth factor- β signaling	7
4.3 Wnt/ β -Catenin Pathway	7
4.4 Vascular Endothelial Growth Factor	10
4.5 Insulin-Like Growth Factor	11
4.6 Hepatocyte Growth Factor/c-Met	11
4.7 Raf/MEK/ERK	12
4.8 Phosphatidylinositol 3-kinase/Akt/mTOR	14
5 Summary	14
References	15
 Histopathology of Hepatocellular Carcinoma	21
1 Introduction	22
2 Hepatocellular Carcinoma Associated with Chronic Liver Diseases	22
2.1 Pathological Diagnosis of Hepatocellular Carcinoma	22
2.2 Grading and Pathological Prognostic Factors	25
2.3 Preneoplastic Lesions and Early HCC	26
3 Hepatocellular Carcinoma Without Cirrhosis	27
3.1 Hepatocellular Carcinoma Associated with Chronic Liver Diseases	27
3.2 Hepatocellular Carcinoma on Normal Liver	27
3.3 Conclusions	29
References	29
 Imaging of Hepatocellular Carcinoma: Current Concepts	33
1 Introduction	34
2 Pathogenesis	35

3	HCC Screening	35
3.1	Serum Alpha-Fetoprotein (AFP).	35
3.2	Imaging Screening	36
4	Imaging Diagnosis of HCC	36
4.1	Overview	36
4.2	Performance of Imaging Techniques for Detection of HCC	36
4.3	Ultrasound.	37
4.4	CT	38
4.5	MRI	41
5	Particular Forms of HCC	45
5.1	HCC in Non-Cirrhotic Liver	45
5.2	Treated HCC	45
6	Differential Diagnoses of HCC	47
6.1	Regenerative and Dysplastic Nodules	47
6.2	Pseudolesions.	48
6.3	Hemangiomas	48
6.4	Confluent Hepatic Fibrosis	49

Methods to Improve Resectability of Hepatocellular

	Carcinoma	57
1	Introduction.	58
2	Pretreatment Assessment.	58
2.1	Tumor Extent	58
2.2	Severity of Chronic Liver Disease	59
2.3	Assessment of the Future Liver Remnant	60
3	Methods to Improve Resectability of Hepatocellular Carcinoma.	61
3.1	Portal Vein Embolization	61
3.2	Preoperative Transarterial Chemoembolization.	61
3.3	Sequential Chemoembolization and Portal Vein Embolization	63
3.4	Perspectives.	63
4	Indications and Outcomes After Resection of Advanced Hepatocellular Carcinoma	64
4.1	Large HCC	64
4.2	Multiple HCC	65
4.3	HCC Invading the Portal Veins and/or Hepatic Veins.	65
5	Conclusion	65

Surgical Resection for Small Hepatocellular Carcinoma in Cirrhosis:

The Eastern Experience.	69
1 Introduction.	70
1.1 Definition of Small HCC	70
1.2 Small HCC and Early HCC.	71
2 Diagnosis	72
2.1 Contrast-Enhanced Ultrasonography	72
2.2 Ethoxybenzyl-Magnetic Resonance Imaging	73
2.3 Intraoperative Ultrasonography	73
3 Surgical Resection	74
3.1 Anatomic Versus Nonanatomic Resection	74
3.2 Hepatic Resection Margin	77
3.3 Intrahepatic Metastases and Multicentric Occurrence	78
3.4 Laparoscopic Hepatic Resection.	78
4 Conclusion	79
References	79

Surgical Resection for Hepatocellular Carcinoma in the

Noncirrhotic: The Western Experience	85
1 Etiology of Noncirrhotic Hepatocellular Carcinoma	86
1.1 Viral Hepatitis	86
1.2 Nonalcoholic Fatty Liver Disease.	87
1.3 Metabolic Diseases and Unusual Tumors	87
2 Surgical Resection of HCC in the Noncirrhotic:	
The Western Experience.	88
2.1 Clinical, Perioperative, and Pathological Data	88
2.2 Outcomes and Prognostic Factors.	91
2.3 Survival Difference Based on Presence of Underlying	
Liver Disease.	92
2.4 Comparison with Other Western Series.	94
2.5 Diagnosis and Treatment of Recurrence	96
3 Future Directions	98
