<b>Steno's Scientific Life in a Nutshell (1638–1677)</b> .....	1
<b>Steno as Bishop (1677–1686): Summary of “Gustav Scherz, Niels Stensen, Vol. 2”</b> .....	3
<b>Part I Biography of Nicolaus Steno by Gustav Scherz, translated by Paul Maquet</b>	
<b>1 Childhood and Youth in Copenhagen, 1638–1659</b> .....	7
1.1 Genealogy and Family .....	7
1.2 Childhood Years .....	14
1.3 At Our Lady's School .....	26
1.4 University Years 1656–1659 .....	40
<b>2 Years of Discovery in Holland, 1660–1664</b> .....	61
2.1 In Amsterdam .....	63
2.2 Research on Glands in Leiden .....	67
2.3 A Holiday Journey to North Holland .....	76
2.4 Two Fruitful Years of Work .....	81
2.5 Mathematics and Research on Muscles. ....	85
2.6 Journey Through Belgium, 1663 .....	96
2.7 Departure from Holland .....	102
2.8 Back Home and Disappointments, 1664 .....	108
<b>3 In Paris and France, 1664–1665</b> .....	115
3.1 On to Paris .....	115
3.2 Participant in the Life of the Learned .....	121

3.3	Stensen and Catholic Paris .....	133
3.4	Journey in France in the Autumn of 1665 .....	136
<b>4</b>	<b>The First Year in Italy .....</b>	<b>141</b>
4.1	In the Circle of the Grand Duke Ferdinand, Early 1666 .....	141
4.2	First Visit to Rome in May/June 1666 .....	152
4.3	Studies on Muscles in Tuscany .....	157
4.4	The Huge Shark, Autumn 1666 .....	166
<b>5</b>	<b>Researcher and Convert, in Italy 1667 .....</b>	<b>173</b>
5.1	Embryology and Geology .....	173
5.2	Stensen's Conversion .....	185
<b>6</b>	<b>The Geological Dissertation the <i>Prodromus on a Solid Within a Solid</i>, in Italy 1668 .....</b>	<b>203</b>
6.1	Preliminary Geological Studies .....	203
6.2	On a Solid Within a Solid .....	209
6.3	The Scientific Value of the Treatise .....	218
6.4	Remembrance in Posterity .....	222
<b>7</b>	<b>The Great Travel, 1668–1670 .....</b>	<b>235</b>
7.1	Through Italy .....	236
7.2	The Travelling Geologist in Central Europe .....	242
7.3	Defender of Catholicism in Holland in 1670 .....	247
<b>8</b>	<b>Under Cosimo III, In Florence .....</b>	<b>255</b>
8.1	Theological Writer .....	257
8.2	Geologist of the Grand Duke .....	273
8.3	Departure, Beginning 1672 .....	281
<b>9</b>	<b>The Two Years in Copenhagen, 1672–1674 .....</b>	<b>287</b>
9.1	Copenhagen 1672 .....	287
9.2	Royal Anatomist .....	292
9.3	Amongst Catholics in Denmark .....	310
9.4	Departure from Denmark .....	318
<b>10</b>	<b>Educator and Priest in Florence, 1675–1677 .....</b>	<b>325</b>
10.1	Teacher to the Prince .....	325
10.2	Priest and Missionary .....	328
10.3	The Former Scientist .....	338

**Part II Steno – Scientific Papers – OPH**

<b>Scientific Disputation on the Subject of Hot Springs</b> .....	347
<b>I On the First Discovery of an External Salivary Duct and on the Experiments of Bils</b> .....	353
<i>De Prima Ductus Salivalis Exterioris Inventione &amp; Bilsianis Experimentis</i>	
<b>II On The Glands of the Mouth and the New Salivary Ducts Proceeding from Them</b> .....	359
<i>De Glandulis Oris &amp; Novis Inde Prodeuntibus Salivae Vasis</i>	
<b>III Various New Observations in the Eyes and Nose, Etc.</b> .....	391
<i>Variae in Oculis &amp; Naso Observationes Novae &amp; C.</i>	
<b>IV Response to Vindications for Rehabilitation of the Liver</b> .....	395
<i>Responsio ad Vindicias Hepatis Redivivi</i>	
<b>V Anatomical Observations on the Glands of the Eyes</b> .....	407
<i>De Glandulis Oculorum Novisque Earundem Vasis Observationes Anatomicae</i>	
<b>VI On Vessels of the Nose</b> .....	417
<i>De Narium Vasis</i>	
<b>VII Origin of Sweat from Glands. On the Insertion and Valvula of the Thoracic Duct and of the Lymphatics</b> .....	421
<i>Sudorum Origo ex Glandulis. De Insertione &amp; Valvula Lactei Thoracici &amp; Lymphaticorum</i>	
<b>VIII Why Tobacco Powder Makes the Eyes Clearer. Observation on a Milky Gelatin</b> .....	425
<i>Cur Nicotianae Pulvis Oculos Clariores Reddat. De Lactea Gelatina Observatio</i>	
<b>IX Anatomical Observations in Birds and Rabbits</b> .....	429
<i>Observationes Anatomicae in Avibus &amp; Cuniculis</i>	
<b>X Observations Concerning Movement of the Heart, the Auricles and Vena Cava, Extracted from Dissections of Various Animals Carried out Here and There</b> .....	435
<i>Ex Variorum Animalium Sectionibus Hinc Inde Factis Excerptae Observationes Circa Motum Cordis Auricularumque &amp; Venae Cavae</i>	

<b>XI</b>	<b>Vesicles in the Lung. Anatomy of a Pregnant Rabbit. Experiments in Lungs. The Milky Vessels of the Udders. Observations in a Swan, Etc. ....</b>	<b>441</b>
	<i>De Vesiculis in Pulmone. Anatome Cuniculi Praegnantis in Pulmonibus Lacteis Experimenta. In Cygno Observationes, &amp; C.</i>	
<b>XII</b>	<b>Diversity of Lymphatic Ducts ....</b>	<b>446</b>
	<i>Lymphaticorum Varietas</i>	
<b>XIII</b>	<b>Prologue of an Apologia in Which It Is Demonstrated That the Blaesian Judge Is Ignorant in Anatomy and a Slave of His Sympathies ....</b>	<b>449</b>
	<i>Apologiae Prodromus, Qvo Demonstratur, Judicem Blasianum &amp; Rei Anatomicae Imperitum Esse, &amp; Affectuum Suorum Servum</i>	
<b>XIV</b>	<b>New Structure of Muscles and Heart ....</b>	<b>459</b>
	<i>Nova Musculorum &amp; Cordis Fabrica</i>	
<b>XV</b>	<b>Specimen of Observation on Muscles and Glands ....</b>	<b>463</b>
	<i>De Musculis &amp; Glandulis Observationum Specimen</i>	
<b>XVI</b>	<b>A Letter on the Anatomy of the Ray ....</b>	<b>487</b>
	<i>De Anatome Rajae Epistola</i>	
<b>XVII</b>	<b>On the Passage of Yolk into the Intestines of the Chick ....</b>	<b>499</b>
	<i>De Vitelli in Intestina Pulli Transitu Epistola</i>	
<b>XVIII</b>	<b>The Discourse on the Anatomy of the Brain ....</b>	<b>507</b>
	<i>Discours Sur L'Anatomie du Cerveau</i>	
<b>XIX</b>	<b>Observations on Egg and Chick ....</b>	<b>529</b>
	<i>In Ovo &amp; Pullo Observationes</i>	
<b>XX</b>	<b>Dissection of an Embryo Monster for Parisians ....</b>	<b>537</b>
	<i>Embryo Monstro Affinis Parisiis Dissectus</i>	
<b>XXI</b>	<b>The Uterus of a Hare Dissolving Its Own Foetus ....</b>	<b>541</b>
	<i>Uterus Leporis Proprium Foetum Resolventis</i>	
<b>XXII</b>	<b>Specimen of Elements of Myology ....</b>	<b>545</b>
	<i>Elementorum Myologiae Specimen, Seu Musculi Descriptio</i>	
<b>XXIII</b>	<b>A Carcharodon-Head Dissected ....</b>	<b>571</b>
	<i>Canis Carchariae Dissectum Caput</i>	
<b>XXIV</b>	<b>Description of the Dissection of a Dogfish ....</b>	<b>597</b>
	<i>Historia Dissecti Piscis ex Canum</i>	

<b>XXV</b>	<b>Anatomical Observations Concerning the Eggs of Viviparous Animals</b> .....	603
	<i>Observationes Anatomicae Spectantes Ova Viviparorum</i>	
<b>XXVI</b>	<b>Observations Concerning the Eggs of Viviparous Animals</b> .....	611
	<i>Ova Viviparorum Spectantes Observationes</i>	
<b>XXVII</b>	<b>The Prodromus to a Dissertation on a Solid Naturally Contained Within a Solid</b> .....	621
	<i>De Solido Intra Solidum</i>	
<b>XXVIII</b>	<b>On a Calf with Hydrocephalus</b> .....	661
	<i>De Vitulo Hydrocephalo</i>	
<b>XXIX</b>	<b>Letter to the Grand Duke Cosimo III on the Grottos above Gresta</b> .....	671
	<i>On The Grotto Above Gresta</i>	
<b>XXX</b>	<b>Letter to the Grand Duke Cosimo III on the Grottos of Moncodeno</b> .....	673
	<i>On The Grotto of Moncodine</i>	
<b>XXXI</b>	<b>Preface to Anatomical Demonstrations in the Copenhagen Theatre in the Year 1673</b> .....	679
	<i>Prooemium Demonstrationum Anatomicarum in Theatro Hafniensi Anni 1673</i>	
<b>XXXII</b>	<b>Description of the Muscles of an Eagle</b> .....	685
	<i>Historia Musculorum Aquilae</i>	
<b>XXXIII</b>	<b>Circular Course of the Blood Made Clearer Through Separation of the Ventricles of the Heart</b> .....	703
	<i>Receptaculi Sangvinis Circulus per Ventriculorum Cordis Separationem ab Invicem Manifestior Redditus</i>	
	<b>Abbreviations, Archives and Libraries</b> .....	707
	<b>Bibliography</b> .....	709
	<b>Index of Persons</b> .....	727
	<b>Index of Places</b> .....	737

Nicolaus Steno

Biography and Original Papers of a 17th Century  
Scientist

Kardel, T.; Maquet, P. (Eds.)

2013, XXXVIII, 739 p., Hardcover

ISBN: 978-3-642-25078-1
