
Contents

| | | |
|----------|--|-----------|
| 1 | Geobotanical Mapping and Its Levels of Study | 1 |
| | Definition of Geobotanical Mapping | 1 |
| | A Bit of History | 2 |
| | Levels of Synthesis in Geobotanical Mapping | 3 |
| | Types of Geobotanical Maps | 6 |
| 2 | Mapping Populations | 7 |
| | Maps of Individual Plants | 7 |
| | Maps of Populations | 13 |
| | Maps of Vegetation Structure | 18 |
| 3 | Mapping Synusiae | 27 |
| 4 | Chorological Mapping | 29 |
| | Definition of Chorological Mapping | 29 |
| | General Characteristics and Current Trends in Chorological Mapping | 30 |
| | Types of Chorological Maps | 34 |
| | Location Maps | 34 |
| | Grid Maps | 37 |
| | Maps of Homogeneous Areas | 39 |
| | Maps with Fixed Internal Boundaries (e.g. Administrative Units) | 40 |
| | Range Maps | 42 |
| | Quantified Chorological Maps | 44 |
| 5 | Mapping Vegetation | 53 |
| | Definition of Vegetation Mapping | 53 |
| | Trends in Vegetation Mapping | 53 |
| | General Characteristics of Vegetation Maps | 54 |
| | Data Collection for Vegetation Mapping | 65 |
| | The Botanical Problem | 66 |
| | The Cartographic Problem | 67 |

| | |
|--|------------|
| Generalization | 81 |
| Computer Cartography | 86 |
| Mapping with Satellite Imagery | 89 |
| Confidence Limits in Vegetation Mapping | 95 |
| Editing Vegetation Maps | 98 |
| Cartography with Geographic Information Systems | 98 |
| Subjectivity and Positional Errors in Vegetation Mapping | 101 |
| 6 Types of Vegetation Maps | 103 |
| Physiognomic Maps | 104 |
| Phytosociological Maps | 106 |
| Phytosociological Maps of Actual Vegetation | 107 |
| Phytosociological Maps of Actual Vegetation with Zonal Units | 109 |
| Integrated Phytosociological Maps | 109 |
| Phytosociological Maps of Potential Vegetation | 115 |
| Maps of Phytogeocoenoses | 124 |
| Maps of Coeno-Associations | 124 |
| Maps of Vegetation Series | 126 |
| Maps of Vegetation Bands | 130 |
| Maps of Vegetation Dynamics | 130 |
| Relations Among Different Types of Phytosociological Maps | 148 |
| Maps of Plant Ecology | 152 |
| Synchorological Maps | 158 |
| Maps of the Conservation Status of Vegetation | 165 |
| 7 Examples of Vegetation Maps | 183 |
| Mountain Ranges and Valleys | 183 |
| Volcanos | 187 |
| Disturbed Environments | 188 |
| Plains | 191 |
| Islands | 192 |
| Dunes | 198 |
| Karst Basins | 198 |
| Wetlands, Mires, Lagoons and Rivers | 199 |
| Streams | 206 |
| Urban Centers | 207 |
| 8 Mapping Systems of Dynamically Related Communities | 213 |
| 9 Phytogeographical Mapping | 219 |
| 10 Mapping Vegetation Zones and Belts | 225 |
| Zonation of the Vegetation of Italy | 226 |
| 11 Mapping Plant Biodiversity | 233 |

| | | |
|-----------|--|-----|
| 12 | Applied Geobotanical Mapping | 243 |
| | Inventory Mapping | 244 |
| | Predictive Mapping | 249 |
| | Mapping for Land-Use Planning | 249 |
| | Mapping Habitats | 252 |
| | Mapping for Landscape Planning | 252 |
| 13 | Geobotanical Mapping in Italy | 255 |
| | Historical Overview | 255 |
| | General Vegetation Maps of Italy | 258 |
| 14 | Mapping Environments | 261 |
| | Definition and Trends in Environmental Mapping | 261 |
| | Approaches and Study Methods | 261 |
| | Environmental Mapping by Geo-Synphytosociology | 264 |
| | Methods of Representation in Environmental Mapping | 267 |
| | References | 275 |

Plant and Vegetation Mapping

Pedrotti, F.

2013, XIII, 294 p., Hardcover

ISBN: 978-3-642-30234-3
