

# Contents

<b>1</b>	<b>Infinitesimal Calculus, Consistently and Accessibly .....</b>	<b>1</b>
1.1	An Accessible Axiom System for Infinitesimal Calculus: Minimal Internal Set Theory .....	1
1.2	Finer Classification of the Reals: Finite vs. Limited .....	4
<b>2</b>	<b>Radically Elementary Probability Theory .....</b>	<b>7</b>
2.1	Random Variables and Stochastic Processes.....	7
2.2	Integrability and Limitedness.....	9
2.3	Wiener Walks and Wiener Processes.....	13
2.4	Distribution of the Wiener Walk.....	15
2.5	Integrability and Limited Paths of the Wiener Walk .....	16
<b>3</b>	<b>Radically Elementary Stochastic Integrals .....</b>	<b>19</b>
3.1	Martingales and Itô Integrals .....	19
3.2	Radically Elementary Itô Processes.....	23
3.3	A Basic Radically Elementary Itô Formula.....	26
3.4	Analytic Excursion: A Radically Elementary Treatment of Geometric Itô Processes with Monotone Drift .....	28
3.5	The Radically Elementary Version of Lévy’s Characterization of Wiener Processes.....	33
<b>4</b>	<b>The Radically Elementary Girsanov Theorem and the Diffusion Invariance Principle .....</b>	<b>35</b>
4.1	Girsanov’s Theorem .....	35
4.2	The Radically Elementary Diffusion Invariance Principle .....	42
<b>5</b>	<b>Excursion to Financial Economics: A Radically Elementary Approach to the Fundamental Theorems of Asset Pricing .....</b>	<b>45</b>
<b>6</b>	<b>Excursion to Financial Engineering: Volatility Invariance in the Black–Scholes Model .....</b>	<b>55</b>

<b>7</b>	<b>A Radically Elementary Theory of Itô Diffusions and Associated Partial Differential Equations .....</b>	<b>61</b>
7.1	Itô Diffusions .....	61
7.2	The Markov Property of Itô Diffusions and the Feynman–Kac Formula .....	64
<b>8</b>	<b>Excursion to Mathematical Physics: A Radically Elementary Definition of Feynman Path Integrals.....</b>	<b>71</b>
<b>9</b>	<b>A Radically Elementary Theory of Lévy Processes .....</b>	<b>77</b>
9.1	Random Walks and Lévy Walks.....	77
9.2	Integrability of Lévy Walks with Limited Increments .....	80
9.3	Lindstrøm’s Characterization of Lévy Walks .....	82
9.4	A Radically Elementary Itô–Doebelin Formula for Lévy Walks with Limited-Variation Jump Part .....	86
9.5	A Brief Look at Lévy Finance .....	90
<b>10</b>	<b>Final Remarks .....</b>	<b>93</b>
<b>A</b>	<b>Excursion to Logic: Some Remarks on the Metamathematics of Minimal Internal Set Theory .....</b>	<b>95</b>
A.1	An Alternative Road to Minimal Internal Set Theory .....	95
A.2	A Simple Relative Consistency Proof for a Substantial Subsystem of minIST .....	97
A.3	Definable Models for (Minimal) Nonstandard Analysis .....	101
<b>B</b>	<b>Robinsonian vs. Minimal Nonstandard Analysis .....</b>	<b>103</b>
	<b>References.....</b>	<b>107</b>
	<b>Index .....</b>	<b>111</b>
