

Contents

Part I Data Modelling and Visualisation

Multi-agent Evacuation Simulation Data Model with Social Considerations for Disaster Management Context.	3
Mohamed Bakillah, J. Andrés Domínguez, Alexander Zipf, Steve H. L. Liang and M. A. Mostafavi	
An A*-Based Search Approach for Navigation Among Moving Obstacles	17
Zhiyong Wang and Sisi Zlatanova	
A Two-level Path-finding Strategy for Indoor Navigation	31
Liu Liu and Sisi Zlatanova	
An Approach to Qualitative Emergency Management.	43
Rami Al-Salman, Frank Dylla and Lutz Frommberger	
Smoke Plume Modeling in Crisis Management.	51
Hein Zelle, Edwin Wisse, Ágnes Mika and Tom van Tilburg	
Simulation System of Tsunami Evacuation Behavior During an Earthquake Around JR Osaka Station Area	67
Ryo Ishida, Tomoko Izumi and Yoshio Nakatani	
Interactive Simulation and Visualisation of Realistic Flooding Scenarios	79
Christian Kehl and Gerwin de Haan	

Part II Sensors and Data Integration

Identification of Earthquake Disaster Hot Spots with Crowd Sourced Data	97
Reza Hassanzadeh and Zorica Nedovic-Budic	
Remote Sensing Based Post-Disaster Damage Mapping with Collaborative Methods	121
Norman Kerle	
Automatic Determination of Optimal Regularization Parameter in Rational Polynomial Coefficients Derivation	135
Junhee Youn, Tae-Hoon Kim, Changhee Hong and Jung-Rae Hwang	
Granular Computing and Dempster–Shafer Integration in Seismic Vulnerability Assessment.	147
Fateme Khamespanah, Mahmoud Reza Delavar, Hadis Samadi Alinia and Mehdi Zare	
Managing Satellite Precipitation Data (PERSIANN) Through Web GeoServices: A Case Study in North Vietnam	159
Maria A. Brovelli, Truong Xuan Quang and Gérald Fenoy	
Applying GIS in Seismic Hazard Assessment and Data Integration for Disaster Management.	171
Rumiana Vatseva, Dimcho Solakov, Emilia Tcherkezova, Stela Simeonova and Petya Trifonova	
Methodology for Landslide Susceptibility and Hazard Mapping Using GIS and SDI.	185
Tomás Fernández, Jorge Jiménez, Jorge Delgado, Javier Cardenal, José Luis Pérez, Rachid El Hamdouni, Clemente Irigaray and José Chacón	
Transport Network Vulnerability Assessment Methodology, Based on the Cost-Distance Method and GIS Integration	199
Dragos Toma-Danila	

Part III System Requirements and Analysis

Effectiveness of Net-Centric Support Tools for Traffic Incident Management	217
John Steenbruggen, Maarten Krieckaert, Piet Rietveld, Henk Scholten and Maarten van der Vlist	
A Customizable Maturity Model for Assessing Collaboration in Disaster Management	251
Jaana Mäkelä and Kirsi Virrantaus	
Geographic Information for Command and Control Systems	263
Tomáš Rezník, Bronislava Horáková and Roman Szturc	
On the Roles of Geospatial Information for Risk Assessment of Land Subsidence in Urban Areas of Indonesia	277
Hasanuddin Z. Abidin, Heri Andreas, Irwan Gumilar, Teguh P. Sidiq and Yoichi Fukuda	
The STIG: Framework for the Stress-Test for Infrastructures of Geographic Information	289
Bujar Nushi and Bastiaan Van Loenen	

Part IV Best Practices

Towards an Integrated Crowd Management Platform	301
Nico Van de Weghe, Rik Bellens, Tom De Jaeger, Sidharta Gautama, Roel Huybrechts, Beat Meier and Mathias Versichele	
Evaluation of a Support System for Large Area Tourist Evacuation Guidance: Kyoto Simulation Results	309
Seiki Kinugasa, Tomoko Izumi and Yoshio Nakatani	
A Virtual Police Force as Part of an Integrated Community Security Network: The Case of the Dutch VPK Programme	317
Wim Broer	
Integration of Real-Time UAV Video into the Fire Brigades Crisis Management System	327
Mark van Persie, Menso C. van Sijl, Edwin Wisse, Janio B. Tjoe-Awie, Arnout J. de Jong and Wim Bakker	

**Agent-Enabled Information Provisioning While Retaining Control:
A Demonstration** 341
Peter de Bruijn and Niek Wijngaards

Agent-Based Information Infrastructure for Disaster Management . . . 349
Zulkuf Genc, Farideh Heidari, Michel A. Oey,
Sander van Splunter and Frances M. T. Brazier

**Using a Base Registry Key in Disaster Information
Management: A Dutch Case Study on Linked Data** 357
Jan-Willem van Aalst, Bart van Leeuwen and Rob Peters

**Using Icons as a Means for Semantic Interoperability in Emergency
Management: The Case of Cross-Border Moor Fires
and Schiphol Airport** 367
Rob Peters, Jan-Willem van Aalst, Frank Wilson and Til Hofmann

**Network Information Management for Collaboration
in Disaster Management: Concepts and Case Study** 379
Fons Panneman, Erik de Vries and Peter de Bruijn

Intelligent Systems for Crisis Management
Geo-information for Disaster Management (Gi4DM)
2012

Zlatanova, S.; Peters, R.; Dilo, A.; Scholten, H. (Eds.)

2013, XV, 386 p., Hardcover

ISBN: 978-3-642-33217-3
