Part I Theoretical Foundations and Existing Empirical Evidence		
2	International Trade, FDI and Economic Growth: Terms, Interdependencies and Research Focus	9
2.1	Internationalisation: Transitory versus Secular Growth Effect	10
2.1.1	The Neoclassical Paradigm	10
2.1.2	New Trade Theory, New Trade Theory and New Growth Theory	12
2.2	Growth Through Innovation, Adoption and Imitation	17
2.3	Modes of the Internationalisation of Firms	19
2.3.1	Foreign Direct Investments and the Multinational Enterprise: Concepts, Definitions and Demarcations	21
2.3.2	Numbers and Caveats	25
2.3.3	Benefits and Risks of M&A	26
3	The Impact of Trade on Technological Change and Long-Run Growth	29
3.1	Trade with Heterogeneous Firms and Technology Upgrading	30
3.1.1	Demand	31
3.1.2	Supply	32
3.1.3	Free Trade and Trade Liberalisation	33
3.1.4	Long-Run Productivity Level and Growth Rate Effects	35
3.2	Heterogeneous Firms in Expanding Variety Models of Endogenous Growth	36
3.2.1	Endogenous Growth Through Specialisation and Knowledge Spillovers	36

3.2.2	Process Innovation, International Technology Spillovers and Heterogeneous Firms	39
3.2.3	Product Innovation with Limited Knowledge Spillovers and Heterogeneous Firms	48
3.3	Trade Openness, Competition and Growth	53
3.3.1	Basic Ideas	54
3.3.2	Competition and Innovation with Trade Liberalisation	60
3.4	Empirical Evidence on the Trade and Growth Nexus	66
3.4.1	Conceptual Problems	66
3.4.2	Country-Level Evidence	83
3.4.3	Firm-Level Evidence	91
4	The Impact of FDI on Technological Change and Long-Run Growth	101
4.1	Determinants of FDI: Theory and Empirics	102
4.1.1	The OLI-Paradigm	102
4.1.2	Exports Versus FDI: How to Serve the Foreign Market?	104

Part II Empirical Contributions		
5	Evaluation Method: (Generalised) Propensity Score Matching, Difference-in-Difference Estimation and Dose-Response-Functions	171
5.1	What is Propensity Score Matching and How Does It Work?	171
5.2	Propensity Score Matching with Binary Treatments	172
5.2.1	The Evaluation Problem and the Selection Problem	172
5.2.2	Practical Considerations in Implementing Propensity Score Matching	176
5.2.3	Propensity Score Matching and Difference-in-Difference Estimation	181

5.3	Propensity Score Matching with Continuous Treatments	182
5.3.1	Modification of Basic Assumptions	182
5.3.2	Practical Considerations in Implementing Generalised Propensity Score Matching	184
6	International Technology Transfer within Multinational Enterprises: What the Distance to the Technology Frontier Matters	189
6.1	Research Question	190
6.2	Data and Operationalisation	192
6.2.1	Data	192
6.2.2	Operationalisation	195
6.3	Descriptive Statistics	197
6.4	Characteristics of Acquisitions	202
6.5	The Matching Procedure	205
6.6	The Estimation Method	209
6.7	The Effects of Foreign Acquisitions on the R&D Sourcing Behaviour of Target Firms	212
6.8	Robustness: An Alternative Definition of the Technology Frontier	224
6.9	Discussion	225
7	Export-Intensity and Productivity Growth: Evidence from German Firm-Level Data	235
7.1	Research Question	235
7.2	Data Description and Descriptive Statistics	239
7.2.1	Data	239
7.2.2	The Importance of Exporters and Exporting in German Manufacturing	240
7.2.3	Key Characteristics of Non-Exporters, Exporters and Continuous Exporters	243
7.3	Estimation Strategy	247
7.4	Results	248
7.5	Discussion	254
8	Conclusion and Further Research Prospects	257
