

# Contents

<b>1</b>	<b>The Input–Output Model: A Study of the Interindustry</b>	
	<b>Structure</b> . . . . .	1
1.1	Background . . . . .	1
1.2	The Basic Input–Output Structure . . . . .	3
1.3	A Numerical Example . . . . .	6
1.4	Concluding Remarks . . . . .	8
	References . . . . .	8
<b>2</b>	<b>The Outlook of the Sovereign Planner: The Linear Activity</b>	
	<b>Model</b> . . . . .	9
2.1	Commodities and Activities . . . . .	9
2.2	Producers . . . . .	10
2.3	Consumers . . . . .	10
2.4	Feasible Activities . . . . .	11
2.5	The Programming Formulation . . . . .	12
2.6	Concluding Remarks . . . . .	19
	References . . . . .	20
<b>3</b>	<b>The Planner and the Market: The Takayama Judge Activity</b>	
	<b>Model</b> . . . . .	21
3.1	The Quadratic Programming Problem . . . . .	22
3.2	Specification of the Model . . . . .	24
	3.2.1 The Introduction of Foreign Trade . . . . .	29
3.3	The Programming Formulation . . . . .	31
3.4	A Temporary Equilibrium Specification . . . . .	35
3.5	Empirical Findings: Applications . . . . .	37
3.6	Comparative Advantages? . . . . .	41
3.7	Concluding Remarks . . . . .	43
	Appendix 1: The Reformulation of the Walras-Cassel Model . . . . .	43
	Appendix 2: Tables 3.2, 3.3, 3.4, 3.5, and 3.6 . . . . .	47
	References . . . . .	53

<b>4</b>	<b>A Market with Autonomous Economic Decision Makers:</b>	
	<b>Features of the CGE Model</b> . . . . .	55
4.1	The Basic Structure . . . . .	56
4.2	The Construction of a Simple CGE Model . . . . .	58
4.3	Foreign Trade: The CES and CET Specification . . . . .	63
4.4	Concluding Remarks . . . . .	68
	Appendix: A Summary of Models Presented . . . . .	69
	References . . . . .	70
<b>5</b>	<b>An Applied Model: The CGE Mini Model</b> . . . . .	73
5.1	The Basic Structure of the CGE Model . . . . .	73
5.2	The Numerical Experiments . . . . .	75
5.2.1	Capital Stock Subject to Physical Deterioration . . . . .	79
5.2.2	A Change in the Real Exchange Rate . . . . .	81
5.2.3	Growth in the Domestic Capital Stock . . . . .	83
5.3	Concluding Remarks . . . . .	85
	Appendix 1: The Mathematical Equations of the Model . . . . .	86
	Appendix 2: Some Parameters Assignments of the Model . . . . .	96
	References . . . . .	97
<b>6</b>	<b>A Suggested Model of Economic Transformation</b> . . . . .	99
6.1	Introduction . . . . .	99
6.2	Outline of the Transformation Model . . . . .	100
6.3	The Process Towards Steady-State . . . . .	104
6.4	Conclusions . . . . .	106
	References . . . . .	107
<b>7</b>	<b>Back to the CGE Mini Model</b> . . . . .	109
7.1	The New Specification . . . . .	109
7.2	Re-computations of Numerical Experiments . . . . .	110
7.2.1	A Change in the Real Exchange Rate . . . . .	112
7.3	Concluding Remarks . . . . .	114
	References . . . . .	116
<b>8</b>	<b>Globalisation and Intermediate Activity</b> . . . . .	119
8.1	Introduction . . . . .	119
8.2	Calculation Methodology and Results . . . . .	121
8.3	Questions of Economic Strategy . . . . .	124
	Appendix 1: 2000 and 2005 SNA Statistics . . . . .	126
	Appendix 2: Sector Classification . . . . .	126
	References . . . . .	127
	<b>A Final Word</b> . . . . .	129
	<b>Index</b> . . . . .	131
