

---

# Contents

**Empirical Software Engineering Models: Can They Become the Equivalent of Physical Laws in Traditional Engineering? ..... 1**  
Dieter Rombach

**Part I Software Development: Notation, Architecture, and Process**

**Domain Modeling and Domain Engineering: Key Tasks in Requirements Engineering ..... 15**  
Manfred Broy

**Towards Agile Verification ..... 31**  
Carlo Ghezzi, Amir Molzam Sharifloo, and Claudio Menghi

**On Model-Based Software Development ..... 49**  
Constance L. Heitmeyer, Sandeep Shukla, Myla M. Archer, and Elizabeth I. Leonard

**From Software Systems to Complex Software Ecosystems: Model- and Constraint-Based Engineering of Ecosystems ..... 61**  
Andreas Rausch, Christian Bartelt, Sebastian Herold, Holger Klus, and Dirk Niebuhr

**A Safety Roadmap to Cyber-Physical Systems ..... 81**  
Mario Trapp, Daniel Schneider, and Peter Liggesmeyer

**Modeling Complex Information Systems ..... 95**  
Joerg Doerr

**Continuous Process Improvement ..... 111**  
Jens Heidrich

**Part II Empirical Research and Studies**

**Paths to Software Engineering Evidence ..... 133**  
Ross Jeffery

<b>An Evidence Profile for Software Engineering Research and Practice ....</b>	<b>145</b>
Claes Wohlin	
<b>Challenges of Evaluating the Quality of Software Engineering Experiments .....</b>	<b>159</b>
Oscar Dieste and Natalia Juristo	
<b>Technical Debt: Showing the Way for Better Transfer of Empirical Results .....</b>	<b>179</b>
Forrest Shull, Davide Falessi, Carolyn Seaman, Madeline Diep, and Lucas Layman	
<b>An Empirical Investigation of the Component-Based Performance Prediction Method Palladio .....</b>	<b>191</b>
Ralf Reussner, Steffen Becker, Anne Koziolok, and Heiko Koziolok	
<b>Can We Trust Software Repositories? .....</b>	<b>209</b>
Andreas Zeller	
<b>Empirical Practice in Software Engineering .....</b>	<b>217</b>
Andreas Jedlitschka, Liliana Guzmán, Jessica Jung, Constanza Lampasona, and Silke Steinbach	
<b>Part III Visions on the Future of Software Engineering as a Discipline</b>	
<b>What Is Software? The Role of Empirical Methods in Answering the Question .....</b>	<b>237</b>
Leon J. Osterweil	
<b>A Personal Perspective on the Evolution of Empirical Software Engineering .....</b>	<b>255</b>
Victor R. Basili	
<b>Moving Toward Evidence-Based Software Production .....</b>	<b>275</b>
David M. Weiss, James Kirby Jr., and Robyn R. Lutz	
<b>Skating to Where the Puck Is Going: Future Systems and Software Engineering Opportunities and Challenges.....</b>	<b>299</b>
Barry Boehm	
<b>Formalism and Intuition in Software Engineering .....</b>	<b>335</b>
Michael Jackson	
<b>Education of Software Engineers.....</b>	<b>349</b>
Marvin V. Zelkowitz	
<b>Integrated Software Process and Product Lines.....</b>	<b>359</b>
Dieter Rombach

Perspectives on the Future of Software Engineering

Essays in Honor of Dieter Rombach

Münch, J.; Schmid, K. (Eds.)

2013, XVI, 366 p., Hardcover

ISBN: 978-3-642-37394-7
