<b>The Chemistry of Hydroxamic Acids . . . . .</b>	<b>1</b>
Satya P. Gupta and Anjana Sharma	
<b>Theoretical Studies on Hydroxamic Acids . . . . .</b>	<b>19</b>
Rita Kakkar	
<b>Hydroxamates as Carbonic Anhydrase Inhibitors . . . . .</b>	<b>55</b>
Claudiu T. Supuran	
<b>Structure–Activity Relationship Studies of Hydroxamic Acids as Matrix Metalloproteinase Inhibitors . . . . .</b>	<b>71</b>
Vaishali M. Patil and Satya P. Gupta	
<b>Hydroxamic Acids as Histone Deacetylase Inhibitors . . . . .</b>	<b>99</b>
Florian Thaler, Vaishali M. Patil and Satya P. Gupta	
<b>Hydroxamates as Ribonucleotide Reductase Inhibitors . . . . .</b>	<b>153</b>
Arijit Basu and Barij Nayan Sinha	
<b>Hydroxamic Acid Derivatives as Potential Anticancer Agents . . . . .</b>	<b>173</b>
Manish K. Gupta, Gagandip Singh and Swati Gupta	
<b>Quantitative Structure–Activity Relationship Studies on Hydroxamic Acids Acting as Histone Deacetylase Inhibitors . . . . .</b>	<b>205</b>
Dimitra Hadjipavlou-Litina and Eleni Pontiki	
<b>Hydroxamic Acids as Inhibitors of Urease in the Treatment of <i>Helicobacter pylori</i> Infections . . . . .</b>	<b>241</b>
E. M. F. Muri and T. G. Barros	

<b>Therapeutic Potential of Hydroxamic Acids for Microbial Diseases. . .</b>	<b>255</b>
Giseli Capaci Rodrigues, Flavia Alexandra Gomes de Souza, Whei Oh Lin and Alane Beatriz Vermelho	
<b>Hydroxamic Acids as Chelating Mineral Collectors . . . . .</b>	<b>281</b>

<b>Index . . . . .</b>	<b>309</b>

## Hydroxamic Acids

A Unique Family of Chemicals with Multiple Biological Activities

Gupta, S.P. (Ed.)

2013, X, 312 p. 366 illus., 27 illus. in color., Hardcover

ISBN: 978-3-642-38110-2
