

# Contents

## Part I Optimization in Wind Power Generation

<b>Reliability Assessment Unit Commitment with Uncertain Wind Power</b> . . . . .	3
Jianhui Wang, Jorge Valenzuela, Audun Botterud, Hrvoje Keko, Ricardo Bessa and Vladimiro Miranda	
<b>The Wind Farm Layout Optimization Problem</b> . . . . .	21
Michele Samorani	
<b>Risk Management Tools for Wind Power Trades: Weather Derivatives on Forecast Errors</b> . . . . .	39
Yuji Yamada	
<b>Innovative Wind Energy Models and Prediction Methodologies</b> . . . . .	67
Zekâi Şen	

## Part II Grid Integration of Wind Power Systems

<b>Integration of Wind Power Production in a Conventional Power Production System: Stochastic Models and Performance Measures</b> . . . . .	129
Maria Teresa Vespucci, Marida Bertocchi, Asgeir Tomasgard and Mario Innorta	
<b>Grid Integration of Wind Power Systems: Modeling of Wind Power Plants</b> . . . . .	153
Mithun Vyas, Mohit Singh and Surya Santoso	
<b>Deterministic Approaches for the Steady-State Analysis of Distribution Systems with Wind Farms</b> . . . . .	211
P. Caramia, G. Carpinelli, D. Proto and P. Varilone	

<b>Probabilistic Approaches for the Steady-State Analysis of Distribution Systems with Wind Farms . . . . .</b>	<b>245</b>
A. Bracale, G. Carpinelli, A. R. Di Fazio and A. Russo	
<b>Advanced Control Functionalities for Grid Integration of Large Scale Wind Generation . . . . .</b>	<b>283</b>
Fernanda Resende, Rogério Almeida, Ângelo Mendonça and João Peças Lopes	
<b>Network Stability Under High Wind Power Penetration . . . . .</b>	<b>333</b>
Emmanuel S. Karapidakis and Antonios G. Tsikalakis	
<b>Power System Operation with Large Penetrations of Wind Power . . . . .</b>	<b>357</b>
Eleanor Denny	
<b>Operational Reserve Assessment Considering Wind Power Fluctuations in Power Systems. . . . .</b>	<b>379</b>
Mauro Rosa, Manuel Matos, Ricardo Ferreira, Armando Martins Leite da Silva and Warlley Sales	
 <b>Part III Modeling, Control and Maintenance of Wind Facilities</b>	
<b>A Review of Floating Wind Turbine Controllers . . . . .</b>	<b>415</b>
H. Namik and K. Stol	
<b>Modelling and Control of Wind Turbines. . . . .</b>	<b>443</b>
Luis M. Fernández, Carlos Andrés García and Francisco Jurado	
<b>Modelling and Control of Wind Parks . . . . .</b>	<b>509</b>
Carlos A. García, Luis M. Fernández and Francisco Jurado	
<b>Grid Support Capabilities of Wind Turbines . . . . .</b>	<b>569</b>
Gabriele Michalke and Anca Daniela Hansen	
<b>Coordination Between Wind Farms and Storage Devices, Technical and Economic Aspects . . . . .</b>	<b>591</b>
Edgardo D. Castronuovo and J. Usaola	
<b>Prototype of HOTT Generation System . . . . .</b>	<b>623</b>
Mohammad Lutfur Rahman, Shunsuke Oka and Yasuyuki Shirai	

<b>Wind Energy Facility Reliability and Maintenance</b> . . . . .	639
Eunshin Byon, Lewis Ntamo, Chanan Singh and Yu Ding	
<b>Wind Turbine Power Performance and Application to Monitoring</b> . . . . .	673
Patrick Milan, Matthias Wächter and Joachim Peinke	
 <b>Part IV Innovative Wind Energy Generation</b>	
<b>Satellite Remote Sensing in Offshore Wind Energy</b> . . . . .	711
Charlotte Bay Hasager, Merete Badger, Poul Astrup and Ioanna Karagali	
<b>Optimization of AC Electric Power Systems of Offshore Wind Farms</b> . . . . .	747
Marcos Banzo and Andres Ramos	
<b>Low-Power Wind Energy Conversion Systems: Generation Configurations and Control Objectives</b> . . . . .	773
Iulian Munteanu, Antoneta Iuliana Bratcu and Emil Ceangă	
<b>Small Wind Driven Devices for Environment Friendly Power Generation and Consumption</b> . . . . .	805
N. A. Ahmed	
<b>Index</b> . . . . .	837

Handbook of Wind Power Systems

Pardalos, P.M.; Rebennack, S.; Pereira, M.V.F.; Iliadis, N.A.; Pappu, V. (Eds.)

2013, IX, 843 p. 445 illus., Hardcover

ISBN: 978-3-642-41079-6
