
Contents

Part I Cells and Mediators

1 Endothelial Cell Origin, Differentiation, Heterogeneity and Function	3
Anna Grochot-Przęczek, Magdalena Kozakowska, Józef Dulak, and Alicja Józkwicz	
2 Developmental and Pathological Lymphangiogenesis	27
Angelika Chachaj and Andrzej Szuba	
3 Vascular-Resident Endothelial Side Population Cells	67
Hisamichi Naito and Nobuyuki Takakura	
4 Multiple Roles of Proteases in Angiogenesis	85
Ester M. Weijers and Victor W.M. van Hinsbergh	
5 Serpins in Angiogenesis	101
Czesław S. Cierniewski and Joanna Boncela	

Part II Molecular Mechanisms

6 Endothelial Transcriptional Networks in the Control of Angiogenesis: The ETS Factor	121
Anna M. Randi	
7 Insights into Roles of Immediate-Early Genes in Angiogenesis . . .	145
Leonel Prado-Lourenço, Ahmad M.N. Alhendi, and Levon M. Khachigian	
8 Molecular Mechanisms of Hypoxia-Regulated Angiogenesis	163
Agnieszka Łoboda, Alicja Józkwicz, and Józef Dulak	
9 MicroRNA Regulation of Angiogenesis	187
Chandan K. Sen and Yuk Cheung Cyrus Chan	
10 Nrf2 Transcription Factor and Heme Oxygenase-1 as Modulators of Vascular Injury and Angiogenesis	213
Urszula Florczyk, Alicja Józkwicz, and Józef Dulak	

11 Metabolism of Methylarginines and Angiogenesis	241
Hilda Tsang, Lucio Iannone, and Beata Wojciak-Stothard	
12 The Vasohibin Family: Novel Regulators of Angiogenesis	261
Yasufumi Sato	
Part III Diseases and Therapy	
13 Hypoxia-Induced Pathological Angiogenesis in Zebrafish	271
Lasse D. Jensen, Pegah Rouhi, and Yihai Cao	
14 Tumor Angiogenesis: <i>Fishing</i> for Screening Models	293
Dafne Gays, Vera Mugoni, and Massimo M. Santoro	
15 Vascular Complications in Diabetes	313
Louise L. Dunn, Kim Hoe Chan, Martin K.C. Ng, and Roland Stocker	
16 Angiogenesis in Rheumatoid Arthritis	339
Sofia Konisti, Serafim Kiriakidis, and Ewa M. Paleolog	
17 Angiogenic Signaling and Structural Abnormalities in Tumors	367
Magdalena Tertil, Klaudia Skrzypek, and Agnieszka Łoboda	
18 Endothelium in Pathologic Angiogenesis and Angiogenesis-Mediated Therapies	389
Maria Paprocka, Catherine Grillon, Danuta Duś, and Claudine Kieda	
Index	407

Angiogenesis and Vascularisation
Cellular and Molecular Mechanisms in Health and
Diseases

Dulak, J.; Józkowicz, A.; Łoboda, A. (Eds.)

2013, X, 416 p. 60 illus., 45 illus. in color., Hardcover

ISBN: 978-3-7091-1427-8
