

Table of Contents

Geleitwort	VII
Acknowledgements	XI
Table of Contents	XIII
List of figures.....	XVII
List of tables.....	XIX
List of formulae	XXI
1 Introduction.....	1
1.1 Problem.....	1
1.2 Definition of third-party product reviews (TPPRs).....	2
1.3 Research gap.....	4
1.4 Epistemological classification	4
1.5 Scientific and practical relevance	5
1.6 Course of investigation	6
2 Literature review.....	9
2.1 Third-party product reviews	9
2.1.1 Theories explaining TPPR effects on consumer behaviour	9
2.1.2 Empirical evidence for TPPR effects on consumer behaviour.....	13
2.1.3 TPPR and advertising.....	18
2.1.4 TPPRs and marketing strategy	18
2.1.5 TPPRs as cues in consumer behaviour research	19
2.2 Perceived quality research	19
2.2.1 The notion of “quality”.....	19
2.2.2 Cue research in respect of perceived quality	25
2.2.3 Models of the quality perception process.....	31
2.3 Customer value	39
2.4 Attitude, preference and choice	42
2.4.1 Preference from an attitude point of view	43
2.4.2 Product preference.....	43
2.4.3 Preference and purchase behaviour	45
2.5 Purchase intention.....	46

3 Empirical approach and conceptual models	49
3.1 Experiments in the context of the internet	49
3.2 Online experiment one: TPPRs and the product choice process	50
3.3 Online experiment two: TPPRs, quality, purchase intention and value	53
3.4 Hypotheses	56
3.5 Sampling	58
3.5.1 Descriptive statistics online access panel sample	58
3.5.2 Descriptive statistics student sample	60
4 Rasch modelling, scale development and paired comparisons	63
4.1 Classical test theory and the fundamentals of probabilistic Rasch modelling	63
4.1.1 The Rasch model	64
4.1.2 The mixed Rasch model	66
4.1.3 Assessing Rasch model fit and model selection	67
4.2 Constructs employed in the experiments	70
4.2.1 Perceived quality	70
4.2.2 Perceived value	71
4.2.3 Purchase intention	71
4.2.4 Perceived purchase risk	72
4.2.5 Product class involvement	73
4.2.6 Product knowledge	73
4.2.7 Source credibility	74
4.2.8 Brand popularity	75
4.3 Rasch homogeneity tests and model selection	76
5 Analysis online experiment one	79
5.1 Methodological introduction to conjoint design paired comparison models ..	79
5.1.1 The Bradley-Terry model	79
5.2 Paired Comparison Modelling	85
5.2.1 Main effects model: panel sample	85
5.2.2 Main effects model: student sample	92
5.2.3 Two-way interaction effects model and hypotheses testing	98
6 Analysis online experiment two	101
6.1 Methodological foundations of graphical chain models	101
6.1.1 Graphical models	101

6.1.2	Graphical chain models	102
6.1.3	Applications and suitability	104
6.2	Graphical chain modelling.....	105
6.2.1	Student sample analysis.....	107
6.2.2	Hypotheses testing.....	110
6.2.3	Panel sample	111
7	Discussion and conclusion	117
7.1	Summary of the results	117
7.2	Scientific and managerial implications.....	118
7.3	Limitations and future research	120
7.4	Conclusion	120
Appendix	121
A.	Screenshots online experiments.....	121
B.	Main effects model - students.....	142
C.	Two-way interaction model - students	143
D.	Influence of single subject covariates: panel	144
E.	Influence of single subject covariates: students.....	148
F.	Information criteria of alternative Rasch models for the panel sample.....	153
G.	Graphical chain modelling output - students.....	154
H.	Graphical chain modelling output - panel	157
I.	Descriptive analysis of person parameters - students.....	160
J.	Descriptive analysis of person parameters - panel	162
References	165

Third Party Product Reviews and Consumer Behaviour
A Dichotomous Measuring via Rasch, Paired
Comparison and Graphical Chain Models

Ziniel, W.

2013, XXI, 183 p. 39 illus., Softcover

ISBN: 978-3-8349-3632-5
