

Contents

1	Cultural Diversity of Social Behaviors in Japanese Macaques	1
1.1	Cultural Behaviors That Have Shed Light on Non-human Primates	1
1.2	Forgotten Cultures of Social Behaviors	3
1.3	Culture for Embracing Behaviors in Japanese Macaques: Prologue.....	4
1.4	Inter-population Differences in Behavioral Patterns and Presence or Absence of “Hug-Hug”	5
1.5	“Social Cultures” Among Non-human Primates	7
	References.....	10
2	Primate Self-medication and the Treatment of Parasite Infection	13
2.1	The Field of Primate Self-medication.....	13
2.2	Primate Self-medication and the Parasite Predicament	14
2.3	Behavioral Strategies of Health Maintenance and Parasite Control	15
2.4	Dietary Selection or Disease Prevention?	15
2.4.1	Medicinal Foods.....	15
2.4.2	Nutrient Poor Items.....	16
2.4.3	Hallucinogens and Stimulants.....	17
2.4.4	Antibiotic Properties	17
2.5	Therapeutic Self-meditative Behavior in Great Apes	18
2.5.1	Great Ape Parasites.....	18
2.5.2	Bitter Pith Chewing, a Chemical Mode of Parasite Control	18
2.5.3	Leaf-Swallowing, a Physical Mode of Parasite Control	20

2.6	Future Directions of Self-medication Research for the Health of Humans.....	20
	References.....	22
3	From Genes to the Mind: Comparative Genomics and Cognitive Science Elucidating Aspects of the Apes That Make Us Human	25
3.1	Exploring the Chimpanzee Mind: Thirty Five Years of Comparative-Cognitive Studies of Chimpanzees at the Primate Research Institute (PRI).....	26
3.1.1	Comparative Cognitive Science.....	26
3.1.2	Teaching Visual Symbols to Chimpanzees: The Initiation of the “Ai Project”	26
3.1.3	How Do Chimpanzees See the World?	28
3.1.4	Comparative–Cognitive–Developmental Perspective.....	31
3.1.5	Step Toward the Next Decade of the Twenty-First Century	34
3.2	Primate Genome Database	35
3.2.1	Introduction.....	35
3.2.2	Geographical Information.....	35
3.2.3	Family Tree	36
3.2.4	Gallery.....	36
3.2.5	Genotype Comparison	36
3.2.6	Chromosome Image	40
3.2.7	Microarray.....	40
3.2.8	Personality Comparison.....	40
3.2.9	Genotype–Phenotype Relationship	40
3.3	Chimpanzee Genome Studies at an Individual Level at PRI	41
3.3.1	Advances in Genome Science in the Last Ten years	41
3.3.2	Application of NGS Technologies to Comparative Genomics Studies.....	42
3.3.3	Chimpanzee Genomics at an Individual Level to Understand Their Variations	42
3.3.4	Further Perspective for Linking the Genome and Phenome.....	47
	References.....	47
