

Contents

- 1 Where Are We Heading?** 1
 - 1.1 What the Great East Japan Earthquake Taught Us..... 1
 - 1.2 Contemplating the Nature of Prosperity 4
 - 1.3 Where Are We Heading?..... 7
 - Bibliography 10
- 2 The Eco-Dilemma**..... 11
 - 2.1 The Global Environmental Problem
and Our Way of Living 11
 - 2.2 The Nature of the Eco-dilemma..... 12
 - 2.3 Eco-products May Lower Corporate Brand Value..... 18
 - Bibliography 19
- 3 The True Nature of the Global Environmental Problem** 21
 - 3.1 Is Global Warming a Global Environmental Problem? 21
 - 3.2 Technological Progress Involves Trade-Offs 24
 - 3.3 The Global Environmental Problem Is Rooted
in the Bloating of Human Activity..... 25
 - 3.4 The Expansion of Human Activity..... 27
 - Bibliography 30
- 4 A New Way of Manufacturing and Living**..... 31
 - 4.1 Manufacturing and Living with Consideration for People 32
 - 4.2 Manufacturing and Living with Consideration for the Earth..... 34
 - 4.3 Ways of Living (Lifestyles) Incorporating Nature..... 35
 - Bibliography 39
- 5 Forecasting and Backcasting** 41
 - 5.1 Lifestyles Based on Forecasting 41
 - 5.2 Measuring the Impact of Forecasting 43
 - 5.3 The Dominance of Forecasting 44

5.4	Lifestyle Design Based on the Backcasting Methodology	44
5.4.1	<Living in Accordance with the Seasons> (Social Acceptability of Lifestyle: 76 %).....	49
5.4.2	<Shared Batteries> (Social Acceptability of Lifestyle: 70 %)	49
5.4.3	<The Talking Refrigerator> (Social Acceptability of Lifestyle: 26 %)	50
5.4.4	<The Purifying Box> (Social Acceptability of Lifestyle: 28 %)	50
5.5	The Backcasting Approach Versus the Forecasting Approach.....	51
5.6	What Is a Wholesome, Fulfilling Lifestyle?	53
	Bibliography	55
6	Lifestyles Envisioned with Backcasting	57
6.1	Lifestyles in 2030.....	57
6.2	The Measurement of Social Acceptability and Contributing Factors to Raising It.....	62
6.3	The Structure of Trade-offs.....	63
	Bibliography	65
7	Pre-war Living in Co-existence with Nature	67
7.1	Pre-war Living in Co-existence with Nature	67
7.2	Interviews with Old People (Nonagenarians) as a New Methodology	70
7.3	Ways of Living That Are Disappearing	71
7.3.1	“The Pleasure of Living in Balance with Nature’s Rhythm”	73
7.3.2	“Reading the Signs of Nature”.....	73
7.3.3	“Wisdom to Utilize Nature in Daily Life”	73
7.3.4	“Being Prepared for Natural Disasters”	73
7.3.5	“Proximity to Other Living Things”	74
7.3.6	“Community Is Bonded by Shared Tasks and Mutual Support”	74
7.3.7	“Places and Events Providing a Sense of Belonging for People in the Community”	74
7.3.8	“Annual Events Are Important”	74
7.3.9	“You Create the Community Yourself”	75
7.3.10	“Sharing the Mountains, Fuel and Water”	75
7.3.11	“Joint Effort and Mutual Support”	75
7.3.12	“Companionship with Other People as a Source of Vitality”	75
7.3.13	“Living Together with People Who Are Not Relatives Is Common”	76
7.3.14	“Passing on Knowledge to the Next Generation Through Daily Life”	76
7.3.15	“Everybody Has a Role”	76
7.3.16	“Children Have Their Own World”	77

7.3.17	“The House Is a Place of Production”	77
7.3.18	“Things Are Maintained”	77
7.3.19	“No Excess of Things”	77
7.3.20	“Acting with Half a Year into the Future in Mind”	78
7.3.21	“Food, Fuel, and Timber Are Procured and Consumed Locally”	78
7.3.22	“Circulating Things (Circular Use)”	78
7.3.23	“A Useful Garden”	78
7.3.24	“There Are Sheds and Storage Houses”	78
7.3.25	“The Shape of the House Reflects the Way of Living”	79
7.3.26	“Songs and Sounds as a Part of Life”	79
7.3.27	“A Working Relationship with Fire”	79
7.3.28	“A Lot of Time Is Spent Walking”	80
7.3.29	“There Are Mechanisms and Places Encouraging People to Meet”	80
7.3.30	“Going Back and Forth Between the City and Rural Villages”	80
7.3.31	“An Entertaining Street of Shops”	80
7.3.32	“Small Scale Trading Abounds”	81
7.3.33	“Delivery Businesses”	81
7.3.34	“Things Are Sold by Weight”	81
7.3.35	“Several Trades to Live by and Changes in Life”	81
7.3.36	“Value That Is Not Counted in Money and the Mechanism of Money”	82
7.3.37	“A Different Perception of Time”	82
7.3.38	“Gratitude and Reverence in Daily Life”	82
7.3.39	“A Different Notion of Luxury”	82
7.3.40	“A Sense of Laxness and Generosity”	82
7.3.41	“Moderation: Knowing Just How Much Is Enough”	83
7.3.42	“A Clear Distinction Between the Extraordinary/Celebratory (<i>hare</i>) and the Daily (<i>ke</i>)”	83
7.4	What Is Necessary to Co-exist with Nature	83
7.5	Low Impact Technologies Found in Nature and Their Similarities with Pre-war Living	84
	Bibliography	87
8	The Pursuit of Nature and Enjoyment:	
	The Contours of a Wholesome, Fulfilling Lifestyle	89
8.1	Low Impact Pre-war Lifestyles	90
8.2	The Difficulty of “Returning to the Past” and the Necessity of Backcasting	92
8.2.1	2030 Lifestyle <Shared Batteries> Social Acceptability 70 %	92
8.2.2	Pre-war Lifestyle <Mutual Support Organizations> Social Acceptability 12 %	93
8.2.3	Pre-war Lifestyle <All the Village Helps with Roof Thatching> Social Acceptability 25 %	93

8.3	The Ability to Discover Enjoyment in Life	95
8.4	The Relationship Between Nature and Enjoyment.....	98
8.4.1	From “Recollections of Kiyokata Kaburagi”.....	99
8.5	The Contours of Wholesome, Fulfilling Living.....	99
	Bibliography	104
9	The Transition to New Lifestyles: Transitional Technology.....	105
9.1	Environmental Constraints and Creative Destruction.....	106
9.2	Transitional Technology	107
9.3	The Present Status of Environmental Innovation	108
9.4	Is Innovation Contributing to the Reduction of Environmental Impact?.....	111
9.5	Examples of Transitional Technologies.....	113
9.6	Smart Cities: Making New Lifestyle Proposals.....	117
9.7	Lessons of Community Design Learned from Interviews with Nonagenarians.....	118
	Bibliography	121
10	Manufacturing That Takes Nature into Account:	
	The Shape of Nature Technology	123
10.1	Nature Technology: A New System of Manufacturing	123
10.2	Can We Learn from Nature?.....	125
10.2.1	Nature Drives Perfect Cycles with a Minimal Input of Energy	125
10.2.2	The Success of the Industrial Revolution Was Based on the Principle of Humanity’s Separation from Nature.....	135
	Bibliography	137
11	The Japanese Industrial Revolution Which Did Not Part with Nature.....	141
11.1	A Philosophy of Unity with Nature	142
11.2	<i>Iki</i> : The Spirit of Edo	147
11.3	The Japanese Industrial Revolution	149
11.4	The Four Elements of Technology We Can Learn from <i>iki</i>	153
11.4.1	The First Element: Technology Which Realizes High Function/Ultra-low Environmental Impact with Nature as a Point of Departure	153
11.4.2	The Second Element: Technology Which Is Simple and Easy to Understand (Clear).....	154
11.4.3	The Third Element: Technology Which Encourages Communication and Community.....	154
11.4.4	The Fourth Element: Technology Which Inspires Attachment and Affection.....	154
	Bibliography	155

12 The New World Created with Nature Technology	157
12.1 Technology Assuming Responsibility for Lifestyles	157
12.1.1 <Lifestyle Example I. The Wind Determines the Price of Real Estate>.....	158
12.2 A Waterless Bath Learning from Foam.....	160
12.2.1 <Lifestyle Example II. Enjoying Shared Bathing>	161
12.3 Micro Wind Generators Learning from the Wings of a Dragonfly	162
12.3.1 <Lifestyle Example III. A Wind Generator Revolving in Even the Slightest Breeze>	162
12.4 A House Farm (Kitchen Garden) Learning from the Diversity of Microorganisms.....	169
12.4.1 <Lifestyle Example III. A New Kitchen Garden: Growing Lettuce from the Walls and Cabbage in Drawers>	170
Bibliography	173

Nature Technology

Creating a Fresh Approach to Technology and Lifestyle

Ishida, H.; Furukawa, R.

2013, XIII, 174 p. 70 illus., 59 illus. in color., Hardcover

ISBN: 978-4-431-54612-2
