

Contents

Regular vs. Classical Möbius Transformations of the Quaternionic Unit Ball	1
Cinzia Bisi and Caterina Stoppato	
Distributional Boundary Values of Harmonic Potentials in Euclidean Half-Space as Fundamental Solutions of Convolution Operators in Clifford Analysis	15
Fred Brackx, Hendrik De Bie, and Hennie De Schepper	
On Two Approaches to the Bergman Theory for Slice Regular Functions	39
Fabrizio Colombo, J. Oscar González-Cervantes, Maria Elena Luna-Elizarrarás, Irene Sabadini, and Michael Shapiro	
A Bloch-Landau Theorem for Slice Regular Functions	55
Chiara Della Rocchetta, Graziano Gentili, and Giulia Sarfatti	
Dirichlet-Type Problems for the Iterated Dirac Operator on the Unit Ball in Clifford Analysis	75
Min Ku, Uwe Kähler, and Paula Cerejeiras	
Fueter Regularity and Slice Regularity: Meeting Points for Two Function Theories	93
Alessandro Perotti	
A Note on Analytic Functionals on the Complex Light Cone	119
Daniele C. Struppa	
The S-spectrum for Some Classes of Matrices	125
Mihaela B. Vajiac	
Regular Composition for Slice-Regular Functions of Quaternionic Variable	141
Fabio Vlacci	

Advances in Hypercomplex Analysis

Gentili, G.; Sabadini, I.; Shapiro, M.; Sommen, F.;
Struppa, D.C. (Eds.)

2013, VIII, 148 p., Hardcover

ISBN: 978-88-470-2444-1
