
Contents

1	Echocardiographic Anatomy of the Mitral Valve	1
1.1	The Mitral Annulus	1
1.1.1	Anatomy	1
1.1.2	Two-Dimensional Echocardiography	2
1.1.3	Three-Dimensional Echocardiography	3
1.2	Valve Leaflets	5
1.2.1	Anatomy	5
1.2.2	Transthoracic and Transesophageal Two-Dimensional Echocardiography	8
1.2.3	Transthoracic and Transesophageal Three-Dimensional Echocardiography	12
1.3	Chordae Tendineae	13
1.3.1	Anatomy	13
1.3.2	Two-Dimensional and Three-Dimensional Transthoracic Echocardiography	17
1.3.3	Two-Dimensional and Three-Dimensional Transesophageal Echocardiography	19
1.4	Papillary Muscles	19
1.4.1	Anatomy	19
1.4.2	Echocardiography	20
	References	22
2	Mitral Valve Insufficiency	23
2.1	Classification and Etiology	23
2.2	Degenerative Mitral Valve Insufficiency	24
2.2.1	Calcification of the Mitral Annulus	24
2.2.2	Myxomatous Degeneration	26
2.2.3	Fibroelastic Deficiency	39
2.3	Inflammatory Disease: Bacterial Endocarditis	43
2.3.1	Transthoracic and Transesophageal Two-Dimensional Echocardiography	44
	References	46
3	Functional Mitral Valve Insufficiency	49
3.1	Definitions	49
3.2	Functional Mitral Valve Insufficiency of Ischemic Origin	49
3.3	Dislocation of the Posteromedial Papillary Muscle	50

3.4	Dislocation of Both Papillary Muscles	50
3.5	Insufficiency Due to Papillary Muscle Dysfunction	55
3.6	Functional Mitral Valve Insufficiency of Non-Ischemic Origin	56
	References	59
4	Determining the Severity of Mitral Valve Insufficiency	61
4.1	General Considerations	61
4.2	Valve Morphology	62
4.3	Color Doppler	62
4.3.1	Turbulence Area in the Left Atrium, or Flow Area	63
4.3.2	Vena Contracta	65
4.3.3	Convergence Area	66
4.4	Assessment of Regurgitation Volume with Pulsed Doppler and Two-Dimensional Echocardiography	68
4.5	Other Methods	70
4.5.1	Pulmonary Venous Flow	70
4.5.2	Velocity of the E Wave	71
4.6	Integrated Assessment	71
4.7	The Ventricle and Left Atrium in Mitral Valve Insufficiency	72
4.7.1	Left Ventricle	72
4.7.2	Left Atrium	74
	References	74
5	Rheumatic Mitral Stenosis	77
5.1	Introduction	77
5.2	Etiology	77
5.3	Disease Progression	78
5.4	Pathophysiology	79
5.5	Echocardiography	81
5.5.1	Commissural Fusion	81
5.5.2	Thickening of the Leaflets	82
5.5.3	Fibrosis of the Chordal Apparatus	86
5.5.4	Calcifications	88
5.5.5	Degree of Stenosis	91
5.5.6	Planimetric Area	93
5.5.7	Pressure Half Time	93
5.5.8	Mild Stenosis	97
5.6	Proximal Isovelocity Surface Area Method	98
5.7	Continuity Equation	99
5.8	Flow Method	99
5.9	Atrioventricular Gradient	100
5.9.1	Evaluation of Pulmonary Systolic Pressure	100
5.9.2	Pulmonary Diastolic Pressure	101
	References	101

6 The Left Atrium	105
6.1 The Left Atrium	105
6.1.1 Anatomy	105
6.1.2 Transthoracic Two-Dimensional Echocardiography	105
6.1.3 Transthoracic Three-Dimensional Echocardiography	107
6.2 Left atrial appendage	108
6.2.1 Anatomy	108
6.2.2 Transesophageal Two-Dimensional Echocardiography	108
6.2.3 Transesophageal Three-Dimensional Echocardiography	109
6.3 Pulmonary Veins	115
6.3.1 Anatomy	115
6.3.2 Transthoracic Two-Dimensional Echocardiography	116
6.3.3 Transesophageal Two-Dimensional Echocardiography	117
6.3.4 Transthoracic and Transesophageal Three-Dimensional Echocardiography	117
References	120
7 Percutaneous Techniques	123
7.1 Introduction	123
7.2 Percutaneous Balloon Valvuloplasty in Mitral Valve Stenosis	123
7.2.1 Technique	123
7.2.2 Patient Selection	125
7.2.3 Indications	127
7.3 Percutaneous Repair Technique for Mitral Valve Insufficiency	128
7.4 Percutaneous Annuloplasty	128
7.5 Mitral Clip	129
7.5.1 Implantation Technique	129
7.5.2 Patient Selection (American Experience)	130
7.5.3 Patient Selection (European Experience)	131
7.6 The Role of Echocardiography	133
7.6.1 Transseptal Puncture	133
References	139
8 Surgical Indications and Techniques	141
8.1 Mitral Valve Insufficiency	141
8.1.1 Surgical Indication	141
8.2 Surgical Repair Techniques	145
8.2.1 Posterior Leaflet Prolapse	145
8.2.2 Anterior Leaflet Prolapse	146
8.2.3 Minithoracotomy	147

8.3	Mitral Stenosis	147
8.3.1	Surgical Indications.	147
8.4	Surgical Techniques.	150
8.4.1	Closed-Heart Commissurotomy.	150
8.4.2	Open-Heart Commissurotomy.	151

Echocardiography in Mitral Valve Disease

Faletta, F.F.

2013, XII, 156 p. 122 illus., 104 illus. in color.,

Hardcover

ISBN: 978-88-470-5434-9
