

Contents

1 Cytochrome P450 2E1: Its Clinical Aspects and a Brief Perspective on the Current Research Scenario	1
Aparajita Dey	
2 Nrf2 and Antioxidant Defense Against CYP2E1 Toxicity	105
Arthur I. Cederbaum	
3 The Role of Cytochrome P450 2E1 in Ethanol-Mediated Carcinogenesis	131
Helmut K. Seitz and Xiang-Dong Wang	
4 The Importance of CYP2E1 in the Pathogenesis of Alcoholic Liver Disease and Drug Toxicity and the Role of the Proteasome	145
Samuel W. French	
5 Relevance of CYP2E1 to Non-alcoholic Fatty Liver Disease	165
Ann K. Daly	
6 CYP2E1-Catalyzed Alcohol Metabolism: Role of Oxidant Generation in Interferon Signaling, Antigen Presentation and Autophagy	177
Natalia A. Osna and Terrence M. Donohue Jr.	
7 CYP2E1, Oxidative Stress, Post-translational Modifications and Lipid Metabolism	199
M. Raj Lakshman, Mamatha Garige, Maokai A. Gong, Leslie Leckey, Ravi Varatharajalu, Robert S. Redman, Devanshi Seth, Paul S. Haber, Kenneth Hirsch, Richard Amdur, and Ruchi Shah	

8 The Role of CYP2E1 in Alcohol Metabolism and Sensitivity in the Central Nervous System	235
Claire Heit, Hongbin Dong, Ying Chen, David C. Thompson, Richard A. Deitrich, and Vasilis K. Vasiliou	
Index.....	249

Cytochrome P450 2E1: Its Role in Disease and Drug
Metabolism

DEY, A. (Ed.)

2013, XVI, 256 p. 37 illus., 5 illus. in color., Hardcover

ISBN: 978-94-007-5880-3
