

# Contents

## **Part I    Lectins: From Biological Recognition Molecules to Variable Medicinal Applications**

<b>1    Lectins: Personal Comments of Nathan Sharon Taken from his Memoirs (Translation from Hebrew) . . . . .</b>	<b>3</b>
Jeremiah Silbert	
<b>2    The History of Lectinology . . . . .</b>	<b>13</b>
Hans-Joachim Gabius	
<b>3    Animal and Human Lectins . . . . .</b>	<b>21</b>
Hans-Joachim Gabius	
<b>4    Lectins of Marine Origin and Their Clinical Applications . . . . .</b>	<b>33</b>
Yasuharu Watanabe, Takako Naganuma, Tomohisa Ogawa and Koji Muramoto	
<b>5    Medicinal Applications of Plant Lectins . . . . .</b>	<b>55</b>
Clara Shui Fern Bah, Evandro Fei Fang and Tzi Bun Ng	

## **Part II    Structural and Functional Insights into Medicinal Ribonucleases**

<b>6    Plant Nucleases from <i>Nuclease I</i> Family: Their Properties and Antitumor Potential . . . . .</b>	<b>77</b>
Tomas Podzimek	
<b>7    Bovine Seminal Ribonuclease and its Special Features: When Two is Better Than One . . . . .</b>	<b>93</b>
Delia Picone, Antonello Merlino and Roberta Spadaccini	

### **Part III The Perspectives for Ribosome Inactivating Proteins: Unveiling the Working Mechanisms and Potential Medicinal Benefits**

- 8 The Discovery of MAP30 and Elucidation of its Medicinal Activities** ..... 117  
 Sylvia Lee-Huang, Philip Lin Huang and Paul Lee Huang
- 9 Ribosome Inactivating Proteins from Plants: Biological Properties and Their Use in Experimental Therapy** ..... 127  
 Lucía Citores, Rosario Iglesias and José Miguel Ferreras
- 10 Current Status and Biomedical Applications of Ribosome-Inactivating Proteins** ..... 145  
 Riccardo Vago, Rodolfo Ippoliti and Maria Serena Fabbrini

### **Part IV The Research History of Protease Inhibitors and Their Health Implications**

- 11 The Health Benefits of the Bowman-Birk Inhibitor** ..... 183  
 Ann R. Kennedy
- 12 Peptidic Inhibitors of Serine Proteinases of Plant Origin** ..... 187  
 Krzysztof Rolka, Adam Lesner, Anna Łęgowska  
 and Magdalena Wysocka
- 13 Anti-Tumor Effect of Synthetic Serine Protease Inhibitor** ..... 205  
 Kenei Furukawa, Tadashi Uwagawa and Katsuhiko Yanaga
- 14 A Landscape of the Health Benefits of Different Natural Protease Inhibitors** ..... 213  
 Ho Him Leung, Evandro Fei Fang and Tzi Bun Ng

### **Part V Plethora of Health Benefits from Small Molecules: From Bench-Top to Clinical Settings**

- 15 Autophagy Upregulation as a Therapeutic Strategy for Neurodegenerative Diseases** ..... 227  
 Mariana Pavel and David C. Rubinsztein
- 16 Rapamycin: Current and Future Uses** ..... 239  
 Morten Scheibye-Knudsen
- 17 Eating, Drinking, Smoking and Cancer Prevention: A Focus on Acetaldehyde** ..... 249  
 Roshanna Rajendram, Rajkumar Rajendram and Victor R. Preedy

<b>18 The Use of Edible Mushroom Water Soluble Polysaccharides in the Treatment and Prevention of Chronic Diseases: A Mechanistic Approach . . . . .</b>	<b>263</b>
Betty Schwartz, Yitzhak Hadar and Daniel Sliva	
<b>19 Essential Oil Constituents: Biodiversity and Their Applicability for Cancer Therapy . . . . .</b>	<b>285</b>
Daniel P. Bezerra, Emmanoel V. Costa and Paulo Cesar L. Nogueira	
 <b>Part VI Medicinal Compounds from the Garden: A Bird's Eye View of One Mushroom, One Fruit, One Insect, and Others</b>	
<b>20 Recent Research on Pharmacological Activities of the Medicinal Fungus <i>Cordyceps sinensis</i> . . . . .</b>	<b>303</b>
Tzi Bun Ng, Jack Ho Wong and Evandro Fei Fang	
<b>21 The Bitter Fruit with Sweet Health Benefits: A Comprehensive Synopsis of Recent Research Progress on Medicinal Properties of <i>Momordica charantia</i> . . . . .</b>	<b>315</b>
Evandro Fei Fang and Tzi Bun Ng	
<b>22 Bioactive Constituents of the Silk Worm <i>Bombyx mori</i> . . . . .</b>	<b>335</b>
Lixin Xia, Tzi Bun Ng, Evandro Fei Fang and Jack Ho Wong	
<b>23 Proteins with Anticancer and Antimicrobial Activities from Mammals, Submammalian Vertebrates and Invertebrates . . . . .</b>	<b>345</b>
Tzi Bun Ng, Evandro Fei Fang and Jack Ho Wong	
<b>24 Defense Proteins with Antiproliferative and Antimicrobial Activities from Fungi and Bacteria. . . . .</b>	<b>359</b>
Jack Ho Wong, Tzi Bun Ng, Evandro Fei Fang and He-Xiang Wang	
 <b>Part VII Modernizing Investigations of Traditional Chinese Medicine at the Molecular Level</b>	
<b>25 The Role of the GP-TCM Research Association to Modernization and Globalization of Traditional Chinese Medicine . . . . .</b>	<b>377</b>
Rudolf Bauer, De-An Guo, Peter Hylands, Tai-Ping Fan and Qihe Xu	
<b>26 High-Throughput Screening in Traditional Chinese Medicine-Based Drug Discovery. . . . .</b>	<b>387</b>
Catherine C. K. Wong and Yung Hou Wong	

**Part VIII Questions and Future Perspectives**

<b>27 Achievements, Questions Arising and Future Outlook on the Path to Discover New Medicinal Compounds . . . . .</b>	<b>407</b>
Evandro Fei Fang and Tzi Bun Ng	
<b>Index. . . . .</b>	<b>419</b>

Antitumor Potential and other Emerging Medicinal  
Properties of Natural Compounds

Fang, E.F.; Ng, T.B. (Eds.)

2013, XIX, 423 p., Hardcover

ISBN: 978-94-007-6213-8
