<b>Historical Development and Perspectives of the Series .....</b>	<b>v</b>
<b>Preface to Volume 13.....</b>	<b>vii</b>
<b>Contributors to Volume 13 .....</b>	<b>xvii</b>
<b>Titles of Volumes 1–44 in the <i>Metal Ions in Biological Systems Series</i> .....</b>	<b>xxi</b>
<b>Contents of Volumes in the <i>Metal Ions in Life Sciences Series</i>.....</b>	<b>xxiii</b>
 <b>1   Metal Ions and Infectious Diseases. An Overview from the Clinic .....</b>	 <b>1</b>
Peggy L. Carver	
Abstract .....	2
1   Introduction.....	3
2   Iron .....	5
3   Zinc .....	10
4   Selenium .....	14
5   Copper.....	18
6   Chromium .....	19
7   Manganese .....	20
8   Summary and Future Developments.....	22
References .....	23
 <b>2   Sodium and Potassium in Health and Disease .....</b>	 <b>29</b>
Hana R. Pohl, John S. Wheeler, and H. Edward Murray	
Abstract .....	30
1   Introduction.....	30
2   Physiology of Sodium and Potassium in Humans .....	32
3   Pathology Associated with Sodium Levels .....	38

4	Pathology Associated with Potassium Levels .....	41
5	Conclusion .....	45
	References .....	46
<b>3</b>	<b>Magnesium in Health and Disease</b> .....	49
	Andrea M.P. Romani	
	Abstract .....	50
1	Introduction .....	50
2	Cellular Magnesium Homeostasis .....	54
3	Magnesium in Disease .....	55
4	Conclusions .....	73
	References .....	75
<b>4</b>	<b>Calcium in Health and Disease</b> .....	81
	Marisa Brini, Denis Ottolini, Tito Calì, and Ernesto Carafoli	
	Abstract .....	82
1	Introduction .....	83
2	General Properties of Calcium as a Signaling Agent .....	88
3	Intracellular Calcium Handling .....	93
4	Calcium as a Regulator of Biological Processes .....	100
5	The Ambivalence of the Calcium Signal: Defects of Calcium Regulation and Disease .....	116
6	Conclusions .....	126
	References .....	130
<b>5</b>	<b>Vanadium. Its Role for Humans</b> .....	139
	Dieter Rehder	
	Abstract .....	139
1	Introduction .....	140
2	Distribution and Cycling of Vanadium .....	142
3	The Aqueous Chemistry of Vanadium and the Vanadate-Phosphate Antagonism .....	147
4	The Medicinal Potential of Vanadium .....	152
5	Concluding Remarks and Prospects .....	164
	References .....	167
<b>6</b>	<b>Chromium: Is It Essential, Pharmacologically Relevant, or Toxic?</b> .....	171
	John B. Vincent	
	Abstract .....	172
1	Introduction .....	172
2	Is Chromium Essential? .....	173
3	Is Chromium Pharmacologically Relevant? .....	180
4	Is Chromium Toxic? .....	191
5	Concluding Remarks and Future Direction .....	192
	References .....	194

<b>7 Manganese in Health and Disease</b> .....	199
Daiana Silva Avila, Robson Luiz Puntel, and Michael Aschner	
Abstract .....	200
1 Introduction .....	200
2 Manganese Transport .....	206
3 Manganism. A Neurodegenerative Disease .....	210
4 Symptoms and Sensitive Populations .....	211
5 Manganism versus Parkinson's Disease .....	211
6 Manganese in the Etiology of Other Neurodegenerative Disorders .	212
7 Molecular Mechanisms of Toxicity .....	214
8 Genetic Susceptibility .....	216
9 Treatment .....	217
10 General Conclusions .....	218
References .....	220
<b>8 Iron: Effect of Overload and Deficiency</b> .....	229
Robert C. Hider and Xiaole Kong	
Abstract .....	230
1 Introduction .....	231
2 Iron Deficiency and Anemia .....	248
3 Systemic Iron Overload .....	255
4 Iron-Selective Chelators with Therapeutic Potential .....	266
5 Neuropathology and Iron .....	277
6 The Role of Iron Chelation in Cancer Therapy .....	281
7 Iron and Infection .....	282
8 Overview and Future Developments .....	284
References .....	286
<b>9 Cobalt: Its Role in Health and Disease</b> .....	295
Kazuhiro Yamada	
Abstract .....	296
1 Introduction .....	296
2 Cobalamin, Vitamin B12 .....	297
3 Vitamin B12 Deficiency and Disease .....	310
4 Non-corrinoid Cobalt .....	314
5 Implications and Future Development .....	315
References .....	317
<b>10 Nickel and Human Health</b> .....	321
Barbara Zambelli and Stefano Ciurli	
Abstract .....	322
1 Introduction: The Double Face of Nickel in Biological Systems .....	322
2 Nickel Hazard for Human Health .....	324
3 Nickel-Dependent Infectious Diseases .....	336

4	Nickel Essentiality in Animals and Humans.....	348
5	Conclusions and Outlook.....	350
	References.....	352
<b>11</b>	<b>Copper: Effects of Deficiency and Overload .....</b>	<b>359</b>
	Ivo Scheiber, Ralf Dringen, and Julian F.B. Mercer	
	Abstract.....	360
1	Introduction.....	360
2	Copper Biochemistry and Homeostasis .....	361
3	Copper Deficiency Disorders.....	371
4	Copper Overload Disorders .....	375
5	Neuropathology and Copper.....	376
6	Overview and Future Developments.....	380
	References.....	381
<b>12</b>	<b>Zinc and Human Disease.....</b>	<b>389</b>
	Wolfgang Maret	
	Abstract.....	390
1	Introduction.....	390
2	Zinc Biochemistry.....	391
3	Zinc in Organ Pathophysiology .....	398
4	Zinc in Disease.....	404
5	General Conclusions .....	407
	References.....	409
<b>13</b>	<b>Molybdenum in Human Health and Disease.....</b>	<b>415</b>
	Guenter Schwarz and Abdel A. Belaidi	
	Abstract.....	416
1	Introduction.....	417
2	Deficiencies in Molybdenum Enzymes .....	419
3	Molybdenum Cofactor Deficiencies .....	426
4	Association of Molybdenum with Other Disorders .....	440
5	Concluding Remarks and Future Developments .....	442
	References.....	444
<b>14</b>	<b>Silicon: The Health Benefits of a Metalloid .....</b>	<b>451</b>
	Keith R. Martin	
	Abstract.....	452
1	Introduction.....	452
2	Silicon Biochemistry.....	453
3	Silicon and Its Potential Health Benefits .....	457
4	Toxicology of Silicon and Silica.....	463
5	Potential Medicinal Uses of Silicon and Silicates .....	467
6	Summary and Future Directions .....	468
	References.....	469

<b>15 Arsenic. Can This Toxic Metalloid Sustain Life?</b> .....	475
Dean E. Wilcox	
Abstract .....	476
1 Introduction .....	476
2 Toxicity .....	481
3 Sustaining Roles .....	484
4 Beneficial Uses .....	490
5 Summary .....	492
References .....	494
<b>16 Selenium. Role of the Essential Metalloid in Health</b> .....	499
Suguru Kurokawa and Marla J. Berry	
Abstract .....	500
1 Introduction .....	501
2 Selenium in Biomolecules .....	502
3 Function of Selenoproteins .....	509
4 Selenium and Disease .....	516
5 Health Benefits of Selenium in Humans .....	520
6 General Conclusions .....	525
References .....	527
<b>Index</b> .....	535

Interrelations between Essential Metal Ions and Human  
Diseases

Sigel, A.; Sigel, H.; Sigel, R.K.O. (Eds.)

2013, XXXVII, 573 p. 103 illus., 28 illus. in color.,

Hardcover

ISBN: 978-94-007-7499-5
