

Contents

- 1 Introduction 1**
 - 1.1 A Brief History of Finite-Time Stability 1
 - 1.2 FTS, Lyapunov Stability, and Related Issues 2
 - 1.2.1 FTS: An Input–Output Perspective 3
 - 1.3 Book Organization 4
- Part I Linear Systems**
- 2 FTS Analysis of Continuous-Time Linear Systems 9**
 - 2.1 Introduction 9
 - 2.2 Problem Statement 9
 - 2.3 Main Results 10
 - 2.4 Computational Issues 14
 - 2.5 Application to the Car Suspension System 15
 - 2.5.1 The Model 16
 - 2.5.2 FTS Analysis 17
 - 2.6 Summary 18
- 3 Controller Design for the Finite-Time Stabilization of Continuous-Time Linear Systems 23**
 - 3.1 Introduction 23
 - 3.2 Problem Statement 23
 - 3.3 Main Results 24
 - 3.4 Finite-Time Stabilization of the Car Suspension System 30
 - 3.5 Summary 31
- 4 Robustness Issues 39**
 - 4.1 Introduction 39
 - 4.2 QFTS of Uncertain Linear Systems 39
 - 4.3 Quadratic Finite-Time Stabilization of Uncertain Linear Systems 43
 - 4.3.1 The State Feedback Case 45
 - 4.3.2 The Output Feedback Case 46

4.4	Finite-Time Stabilization of a Car Suspension System Affected by Uncertainty	49
4.5	Summary	51
5	FTS of Discrete-Time Linear Systems	53
5.1	Introduction	53
5.2	Problem Statement	53
5.3	Analysis Conditions for FTS	55
5.4	Controller Design	58
5.5	Numerical Implementation of the Main Results	62
5.6	Summary	64
6	FTS Analysis Via PQLFs	67
6.1	Introduction	67
6.2	Preliminaries	68
6.2.1	Cones and Conical Partitions	68
6.2.2	PQLFs and PQDs Defined over a Conical Partition	70
6.3	FTS with PQDs	72
6.3.1	Reparameterization of the Quadratic Forms	77
6.4	Numerical Examples	80
6.4.1	Polytopic Initial Domain and Ellipsoidal Trajectory Domain	80
6.4.2	Polytopic Initial and Trajectory Domains	82
6.5	Summary	84
Part II Hybrid Systems		
7	FTS of IDLSs	91
7.1	Introduction	91
7.2	IDLSs	92
7.2.1	State Space Representation	92
7.2.2	TD-IDLSs and TD-SLSS	93
7.2.3	State Transition Matrix	94
7.3	Problem Statement and Preliminaries	95
7.4	FTS of TD-IDLSs	96
7.5	FTS of SD-IDLSs	100
7.5.1	Preliminary Results on Quadratic Forms	101
7.5.2	D/DLMI Condition for the FTS of SD-IDLSs	102
7.5.3	Analysis of Some Cases of Interest	103
7.6	Computational Issues	106
7.7	Examples	106
7.7.1	Sampled-Data Systems as TD-IDLSs	107
7.7.2	FTS of SD-IDLSs	110
7.7.3	Jumping Body	111
7.8	Summary	112

8	Controller Design for the Finite-Time Stabilization of IDLSs	115
8.1	Introduction	115
8.2	Problem Statement	115
8.3	Finite-Time Stabilization of TD-IDLSs	116
8.4	Finite-Time Stabilization of SD-IDLSs	120
8.5	Examples	120
8.5.1	SD-IDLS	120
8.5.2	Reservoir System	122
8.6	Summary	124
9	Robustness Issues for IDLSs	127
9.1	Introduction	127
9.2	Uncertain IDLSs	127
9.2.1	QFTS of Time-Dependent U-IDLSs	129
9.2.2	QFTS of State-Dependent U-IDLSs	132
9.3	SLSs with Uncertain Resetting Times	133
9.4	Examples	137
9.4.1	Jumping Body	137
9.4.2	Reservoirs System	138
9.5	Summary	138
	References	141
	Index	145

Finite-Time Stability and Control

Amato, F.; Ambrosino, R.; Ariola, M.; Cosentino, C.; De
Tommasi, G.

2014, XII, 146 p. 37 illus., 14 illus. in color., Softcover
