Part I Motivation and Teaching

1	Motivation	3
	References	11
2	Getting Started	13
2.1	The Instructor	13
2.2	Motivating Students	14
2.3	Hosting a Puzzle Contest	17
3	Icebreakers	21
	Reference	35
4	Effective Teaching Approaches	37
4.1	Cognitive Apprenticeship	38
4.2	Class Activities	42
4.3	Online Activities	49
4.4	Measuring and Assessing Puzzle-based Learning	52
4.5	Effective Assessment	57
4.6	Increasing and Maintaining Confidence	62
4.7	Peer Teaching	62
	Reference	63

Part II Tools, Tips, and Strategies

5	Understand the Problem	69
5.1	Take Inventory	69
5.2	Build a Model	73
5.3	Draw a Diagram	83
6	Reasoning: Logic and Reasoning Backwards	95
7	Pattern Recognition	107
	Reference	121

8 Enumerate and Eliminate	123
9 Simplify!	137
10 Perform a Gedanken: “What If?” and “So What?”	149
11 Simulation and Optimization	159
11.1 Simulation	160
11.2 Optimization	170
Reference	184
Part III Challenges	
12 Probabilistic Reasoning	187
Reference	232
13 Logical Reasoning	233
14 Geometric Reasoning	259
15 Grand Challenges	287
Reference	334
Summary	335
List of Puzzles	337
Index	343

Guide to Teaching Puzzle-based Learning

Meyer, E.F.; Falkner, N.; Sooriamurthi, R.; Michalewicz,
Z.

2014, XVI, 345 p. 117 illus., 19 illus. in color., Softcover

ISBN: 978-1-4471-6475-3
