

# Contents

<b>1</b>	<b>Lithium-ion Cell Materials in Practice . . . . .</b>	<b>1</b>
	Malgorzata K. Gulbinska	
<b>2</b>	<b>Predicting Materials’ Performance . . . . .</b>	<b>31</b>
	Boris Ravdel	
<b>3</b>	<b>Optimizing Electrodes for Lithium-ion Cells . . . . .</b>	<b>63</b>
	Stuart G. Santee, Boris Ravdel, Malgorzata K. Gulbinska, Joseph S. Gnanaraj and Joseph F. DiCarlo	
<b>4</b>	<b>Lithium-ion Cells for High-End Applications . . . . .</b>	<b>89</b>
	Gregory J. Moore, Frank J. Puglia and Malgorzata K. Gulbinska	
<b>5</b>	<b>Lithium-ion Cell and Battery Safety . . . . .</b>	<b>115</b>
	Seth Cohen, Malgorzata K. Gulbinska and Frank J. Puglia	
<b>6</b>	<b>Lithium-ion Cells in Hybrid Systems . . . . .</b>	<b>151</b>
	Malgorzata K. Gulbinska, Arthur Doble, Joseph S. Gnanaraj and Frank J. Puglia	
<b>7</b>	<b>Competing Technologies Landscape . . . . .</b>	<b>175</b>
	William A. McPhee	

Lithium-ion Battery Materials and Engineering  
Current Topics and Problems from the Manufacturing  
Perspective

Gulbinska, M.K. (Ed.)

2014, IX, 205 p. 79 illus., Hardcover

ISBN: 978-1-4471-6547-7
