

Contents

1 Curriculum Design for the Twenty-First Century	1
Maree Gosper and Dirk Ifenthaler	
Part I Theoretical Consideration for the Twenty-First Century Curriculum	
2 Breaking Away from Text, Time and Place	17
John G. Hedberg and Michael Stevenson	
3 The Social Processes of Web 2.0 Collaboration: Towards a New Model for Virtual Learning	35
Stephen R. Quinton and Matthew M. Allen	
4 Open Educational Curricula Interpreted Through the Māori Concept of Ako	55
Stephen Marshall	
Part II Case Studies: Moving Beyond Traditional Practice	
5 Research-Based Learning: Connecting Research and Instruction	73
Dirk Ifenthaler and Maree Gosper	
6 Personalized Engineering Education for the Twenty-First Century	91
Farrokh Mistree, Jitesh H. Panchal, Dirk Schaefer, Janet K. Allen, Sammy Haroon, and Zahed Siddique	
7 Creating Curriculum Within the Context of an Enterprise	113
Ana-Paula Correia	

8	Interteaching: A Model to Enhance Student Engagement	135
	Mandy Kienhuis and Andrea Chester	
9	Digital Wet Laboratories: Transforming Biological Science with Engaging Blended Learning and Online Support	155
	Danilla Grando and David Santandreu Calonge	
10	A Curriculum Model to Promote (Chiropractic) Clinical Thinking with Video-Case Annotation	181
	Meg Colasante, Amanda Kimpton, and Jennifer Hallam	
 Part III Technological and Pedagogical Innovations Influencing Curriculum Renewal		
11	Connecting Student Learning at University with Professional Practice Using Rich Media in Practice-Based Curricula	213
	Barney Dalgarno, Gregor Kennedy, and Alan Merritt	
12	Round-Tripping RSS for Socialized Techno-Pedagogy in a Twenty-First-Century Learning Community	235
	Benjamin E. Erlandson	
13	Recasting Lecture Material Using Podcasts: An Educational Psychology Case Study	259
	Penny Van Bergen	
14	Digital Games as Tools for Designing and Implementing Pedagogical Innovations: A Review of Literature	279
	Hercules Panoutsopoulos, Demetrios G. Sampson, and Tassos Mikropoulos	
15	Problem Solving Through Video Game Creation	295
	Dana Ruggiero	
16	Immersive Simulation: The Replication of Environments to Practice Problem Solving	313
	Jill E. Stefaniak	
17	Virtual Worlds in Higher Education: The Challenges, Expectations and Delivery	325
	Helen Farley	
18	Trialing e-Portfolios for University Learning: The Devil in the Detail	351
	Margot McNeill, Amanda Parker, and Andrew Cram	

Part IV Sustainable Practice in Technology-Rich Environments

19	University Student Experiences of Inquiry and Technologies	371
	Robert A. Ellis	
20	Innovators and Institutions Working as Partners on Sustainable Change	389
	Cathy Gunn	
21	Managing the Challenges of Technology to Support Learning: Some Lessons from Experience	407
	Judyth M. Sachs	
22	Sustainable Practice in Embedding Learning Technologies: Curriculum Renewal Through Course Design Intensives.....	423
	Judith P. Lyons, John Hannon, and Claire Macken	
	Index.....	443
