

Contents

1	Introduction and Overview	1
	Challenges to a Bipolar Disorder Diagnosis	3
	Course and Outcomes Associated with Bipolar Disorder.....	5
	Why School Professionals Should Read This Book	6
	Bipolar Disorder and Special Education Eligibility.....	8
	Purpose and Plan of This Book.....	9
2	Etiology	11
	Genetics.....	13
	Family Studies	13
	Twin Studies.....	13
	Molecular Genetic Studies	14
	Environment.....	16
	Neurobiology	17
	Brain Structure and Activity	18
	Brain Chemistry	19
	Concluding Comments.....	19
3	Prevalence and Associated Conditions.....	21
	Changes in Prevalence in the General Population	22
	International Rates of Early Onset Bipolar Disorder	22
	Prevalence of Students with Bipolar Disorder Served Under IDEA	23
	Gender Issues in Early-Onset Bipolar Disorder.....	24
	Correlates and Association with Other Conditions.....	25
	Psychosocial Correlates	26
	Neuropsychological Correlates	34
	Medical Correlates	36
	Comorbidities.....	36
	Concluding Comments.....	42

4 Case Finding, Screening, and Referral	45
Case Finding	46
Risk Factors	46
Warning Signs	51
Developmental Screening	52
Staff Development	54
Screening.....	54
Universal Screening	55
Selected Screening	56
Referral	62
Concluding Comments.....	63
5 Diagnostic Assessment	65
Diagnostic Criteria	65
Major Changes to Bipolar Disorder Diagnoses from <i>DSM-IV-TR</i> to <i>DSM-5</i>	65
Episodes	67
Subtypes	78
Specifiers	80
Presentation in Children and Adolescents	86
Most Common Symptoms of Mania.....	86
Developmental Aspects.....	87
Evidence-Based Practice: The Gold Standard of Diagnosis.....	89
Concluding Comments.....	91
6 Psycho-educational Assessment	93
Why, When, and How to Assess	94
Step 1: Clarification of Specific Referral Question(s)	95
Eligibility Category	96
Referral Statement	98
Step 2: Develop Assessment Strategy	98
Become Familiar with the Disorder	98
Testing Considerations	99
Domains of Assessment	99
Step 3: Data Collection	102
Indirect Assessment	103
Direct Assessment.....	105
Functional Behavioral Assessment	106
Step 4: Analysis and Triangulation	107
Step 5: Conclusions and Next Steps	111
Concluding Comments.....	114

7 Treatment of Bipolar Disorder in Children and Adolescents	115
Psychopharmacological Interventions	115
Concerns Regarding Medication.....	116
Medications Used to Treat Bipolar Disorder	120
Final Thoughts Regarding Psychopharmacological Treatment	123
Psychosocial Interventions.....	124
Family-Focused Treatment	125
Child- and Family-Focused Cognitive-Behavioral Therapy or RAINBOW	126
