
Contents

Part I Esophagus

1	Normal Histologic Anatomy and Common Variations.	3
2	General Microscopic Changes	11
3	Noninfectious Inflammatory Conditions	17
4	Infectious Esophagitis and Organisms.	27
	Reference	32
5	Benign Squamous Proliferations	33
6	Squamous Intraepithelial Neoplasia	37
	Reference	42
7	Invasive Squamous Cell Carcinoma.	43
	Reference	45
8	Unusual Carcinomas, Including Squamous Variants.	47
9	Nonneoplastic Barrett's Mucosa.	53
9.1	Typical Barrett's Mucosa	54
	References	61
10	Dysplasia and Dysplasia Mimics in Barrett's Mucosa	63
10.1	Low-Grade Dysplasia from the Lowest End to the Highest	64
10.2	High-Grade Dysplasia.	67
10.3	High-Grade Dysplasia with Changes Suspicious for Invasive Adenocarcinoma in the Lamina Propria	69
10.4	Indefinites for Dysplasia	71
11	Invasive Adenocarcinoma in Barrett's Mucosa.	73
11.1	Growth Patterns and Cell Types Commonly Encountered in Biopsies.	73
12	Mesenchymal and Melanocytic Proliferations	77
13	Esophageal Odds and Ends.	83
14	Gastric Cardiac Mucosa	87

Part II Stomach

15	Normal Biopsy Anatomy/Histology and General Changes	95
16	General Microscopic Changes and Findings to Ignore	99
17	Structural Abnormalities/Heterotopias	103
18	Vascular Abnormalities	105

19	Toxic and Medication-Induced Conditions	109
20	Noninfectious Inflammatory and Systemic Diseases Affecting the Stomach	117
21	Infectious Diseases and Organisms	129
22	Hyperplastic/Metaplastic Conditions.	139
23	Benign Tumors and Polyps	143
24	Epithelial Dysplasia and Adenomas.	153
25	Carcinoma of the Stomach	159
26	Carcinoid Tumor of the Stomach	165
27	Mesenchymal Neoplasms.	169
28	Hematolymphoid Neoplasms	177
29	Gastric Metastases	185
	Index	189

Atlas of Esophagus and Stomach Pathology

Owens, S.R.; Appelman, H.D.

2014, X, 195 p. 373 illus. in color., Hardcover

ISBN: 978-1-4614-8083-9
