

Table of Contents

Section A: Surgical Anatomy

Figure 1.1: Anterior view of the skull	1	Figure 1.6: Vascular supply to the face	6
Figure 1.2: Lateral view of the skull	2	Figure 1.7: Anatomy of the nose.....	7
Figure 1.3: Lateral view: muscles of the head and neck	3	Figure 1.8: Subunits of the face.....	8
Figure 1.4: <i>Left</i> : branches of cranial nerve VII (facial nerve), <i>Right</i> : sensory nerves of the face	4	Figure 1.9: Anatomy of the external ear.....	9
Table 1.1: Branches of cranial nerve V (trigeminal nerve)	5	Figure 1.10: Anatomy of the eye.....	10
Figure 1.5: Branches of the facial nerve (<i>circles</i> indicate areas at greatest risk for injury).....	5	Figure 1.11: Anatomy of the nail unit.....	11
		Figure 1.12: Skin tension lines (<i>face</i>): for planning optimal incisions to minimize scarring.....	12
		Figure 1.13: Skin tension lines (anterior)	13
		Figure 1.14: Skin tension lines (posterior)	14
		Figure 1.15: Great saphenous vein (GSV) and its tributaries.....	15
		Figure 1.16: Small saphenous vein (SSV) and its tributaries.....	16

Table of Contents

Section B: Excisional and Non-excisional Surgery

Preoperative History	17	Table 2.7: Melanoma staging	34
Figure 2.1: Guidelines for prophylactic and empiric antibiotics.....	20	Main Indications for Mohs Micrographic Surgery	38
Table 2.1: Commonly used prophylactic antibiotic agents for cutaneous surgery.....	21	Mohs Micrographic Surgery Procedure.....	39
Table 2.2: Antiseptic scrubs.....	22	Figure 2.2: Mohs micrographic surgery	40
Table 2.3: Local anesthetics	23	Elliptical Fusiform Excision	41
Anesthetics: Key Facts	25	Figure 2.3: Elliptical fusiform excision.....	41
Table 2.4: Tumescant anesthesia solution.....	27	Placement of Incisions and Excisions on the Face	42
Table 2.5: Electrosurgery	28	Figure 2.4: Placement of incisions and excisions on the face.....	42
Cryosurgery.....	30	Simple Interrupted Stitch.....	43
Table 2.6: Recommended surgical margins	32	Figure 2.5: Simple interrupted stitch	43
		Buried Vertical Mattress Stitch	44

Table of Contents

Figure 2.6: Buried vertical mattress stitch for deep dermal tissue approximation and eversion	44	Figure 2.12: Repair of dog ears “Leashing” of Dog Ears	50
Cutaneous Vertical Mattress Stitch	45	Figure 2.13: “Leashing” the dog ear	51
Figure 2.7: Vertical mattress stitch	45	Table 2.8: Absorbable sutures	52
Horizontal Mattress Stitch	46	Table 2.9: Nonabsorbable sutures	53
Figure 2.8: (a, b) Horizontal mattress stitch	46	Table 2.10: Topical antimicrobial agents	55
Running Subcuticular Stitch	47	Table 2.11: Wound dressing	56
Figure 2.9: Running subcuticular/intradermal stitch	47	Table 2.12: Surgical complications	58
Pulley Stitch	48	Table 2.13: Suture removal timetable	59
Figure 2.10: Pulley stitch (epidermal): for closure of wounds under tension	48	Commonly Used Surgical Instruments in Dermatologic Surgery	63
Three Point Suture (aka Tip stitch)	49	Figure 2.14: Scalpel handles	64
Figure 2.11: Three-point stitch (AKA tip stitch)	49	Figure 2.15: Scalpel blades	64
“Dog Ear” Repair	50	Figure 2.16: Curettes	65
		Figure 2.17: Needle holders	66
		Figure 2.18: Adson Forceps	67
		Figure 2.19: Bishop Harmon forceps	68
			69

Table of Contents

Figure 2.20: Jacobson hemostat forceps	70	Figure 3.2: Bilateral advancement flap	81
Figure 2.21: Scissors: general operating scissors for suture cutting	71	Z-Plasty	82
Figure 2.22: Scissors: the curved Mayo scissor (<i>left</i>), and the straight Metzenbaum scissor with blunted tips (<i>right</i>)	72	Figure 3.3: Z-plasty	82
Figure 2.23: Castroviejo needle driver	73	M-Plasty	83
Figure 2.24: Chalazion clamp	74	Figure 3.4: M-plasty	83
Figure 2.25: Skin hook	75	Figure 3.5: M-plasty	84
Figure 2.26: English nail splitter	76	S-Plasty	85
Figure 2.27: Nail elevator	77	Figure 3.6: S-plasty	85
		Rotation Flap	86
		Figure 3.7: Rotation flap	86
		Double Advancement Rotation Flap (O-Z Plasty)	87
Section C: Advanced Repairs		Figure 3.8: Double advancement rotation flap or O-Z plasty	87
Flap Overview	79	Rhomboid Flap	88
Single Advancement Flap	80	Figure 3.9: Standard rhomboid transposition flap, modified rhomboid flap	88
Figure 3.1: Single advancement flap	80		
Bilateral Advancement Flap (H-Plasty)	81		

Table of Contents

Bilobed Transposition Flap	89	Table 5.1: Lasers used in dermatology	100
Figure 3.10: (a): Traditional bilobed transposition flap, (b): Zitelli modified bilobed transposition flap		Table 5.2: Fractionated laser devices	104
Skin Grafts Overview	89	Table 5.3: Home use and low-energy devices	106
Stages of Graft Survival	90	Table 5.4: Tattoo removal by laser	108
Table 3.1: Skin graft types	90	Table 5.5: Photo-induced eye injury	110
	91	Novel Devices: Skin Tightening and Body Sculpting	111

Section D: Cosmetic Dermatology: Fillers, Neurotoxins, and Chemical Peels

Table 4.1: Botulinum toxin dilutions	93
Table 4.2: Injectable fillers	94
Table 4.3: Chemical peels	98

Section E: Lasers and Other Technology

Laser Overview: Light Amplification by Stimulated Emission of Radiation	99
--	----

Section F: Leg Veins

Leg Vein Treatment Overview	113
Leg Vein Treatment Algorithm	115
Table 6.1: Laser for leg veins	116
Table 6.2: Sclerotherapy agents	117
