

Contents

Chapter 1	Introduction	1
1.1	From Numbers to Computers	1
1.2	What Is Fuzziness?	5
1.3	Vague Computing in an Uncertain Environment	11
Chapter 2	A Précis of Classical Computability Theory	13
2.1	Turing Machines	13
2.2	Extensions of Turing Machines	19
2.2.1	Nondeterministic Turing Machines	19
2.2.2	Probabilistic Turing Machines	20
2.2.3	Multitape Turing Machines	25
2.3	The “Most General” Approach to the Concept of an Algorithm	26
2.3.1	States	26
2.3.2	Basic Ideas from Combinatorial Topology	27
2.3.3	The Concept of an Algorithm	28
2.3.4	What Can Be Computed with These Algorithms?	31
2.4	General Recursive Functions	33
2.5	Recursive Sets, Relations, and Predicates	35
2.6	The Church–Turing Thesis	38
2.7	Computational Complexity	40
Chapter 3	Elements of Fuzzy Set Theory	43
3.1	Ordered Sets	43
3.2	Fuzzy Subsets	45
3.3	L-Fuzzy Subsets	47
3.4	Fuzzy Relations	47
3.5	Triangular Norms and Conorms	48
3.6	Some Thoughts on Fuzzy Set Theory	49
Chapter 4	On Fuzzy Turing Machines	51
4.1	Early Ideas	51
4.2	Fuzzy Formal Languages and Grammars	52
4.3	Fuzzy Turing Machines	54
4.3.1	Turing Fuzzy “Algorithms”	54
4.3.2	Fuzzy Programs	57

4.3.3	Turing W-Machines	67
4.3.4	Moraga's Fuzzy Turing Machines	70
4.3.5	An Extension of Turing W-Machines	73
4.4	The Computational Power of Fuzzy Turing Machines	75
4.5	On Universal Fuzzy Turing Machines	79
4.6	Fuzzily Recursive Sets	84
4.7	W-Recursivity	93
4.8	Effective Domain Theory and Fuzzy Subsets	99
4.8.1	On Effective Lattices	99
4.8.2	Effective Lattices of L-Fuzzy Subsets	102
4.8.3	Chains and the Unit Interval	103
4.8.4	Relationship to L-Languages and L-Turing Machines	105
4.9	Fuzzy Complexity Theory	107
Chapter 5	Other Fuzzy Models of Computation	109
5.1	Fuzzy P Systems	109
5.2	Fuzzy Labeled Transition Systems	119
5.2.1	Definition and Properties	119
5.2.2	A Fuzzy Process Calculus	122
5.3	Fuzzy X-Machines	123
5.4	Fuzzy Chemical Abstract Machine	125
5.4.1	The Chemical Abstract Machine	125
5.4.2	On the Similarity of Processes	126
5.4.3	The Fuzzy Chemical Abstract Machine	128
5.4.4	Fuzzy π -Calculus	132
Appendix A	Computing with Words	135
A.1	What Is Computation?	135
A.2	What Is Computing with Words?	135
Appendix B	The Rough Sets Approach	137
B.1	Rough Sets	137
B.2	Rough Finite-State Automata	139
B.3	Rough Turing Machines	143
