

Contents

1	Introduction.....	1
	Muller Fabbri	
2	Biogenesis and Physiology of MicroRNAs	5
	Carlos A. Melo and Sonia A. Melo	
3	Detecting Noncoding RNA Expression: From Arrays to Next-Generation Sequencing.....	25
	Catalina Perdomo, Joshua Campbell, and Frank Schembri	
4	MicroRNAs in Solid Tumors.....	45
	Jin Wang and Subrata Sen	
5	MicroRNAs in Hematologic Malignancies	67
	Johannes Bloehdorn, Arefeh Rouhi, Pavan Kumar Dhanyamraju, Kathrin Krowiorz, Edith Schneider, Christian Langer, Daniel Mertens, Stephan Stilgenbauer, and Florian Kuchenbauer	
6	miRNAs as Cancer Biomarkers.....	97
	Edward R. Sauter	
7	Unraveling the Complex Network of Interactions Between Noncoding RNAs and Epigenetics in Cancer.....	125
	Veronica Davalos and Manel Esteller	
8	MicroRNA SNPs in Cancer.....	149
	Yujing Li and Peng Jin	
9	Bioinformatics Approaches to the Study of MicroRNAs.....	165
	Ravi Gupta and Ramana V. Davuluri	

10	Beyond miRNAs: Role of Other Noncoding RNAs in Cancer	247
	Roxana S. Redis and George A. Calin	
11	Translational Implications for Noncoding RNA in Cancer.....	265
	Duaa Dakhallah, Melissa Piper, and S. Patrick Nana-Sinkam	
Index.....		283

Non-coding RNAs and Cancer

Fabbri, M. (Ed.)

2014, VI, 284 p. 19 illus. in color., Hardcover

ISBN: 978-1-4614-8443-1
