<b>1 The Ideal Eight-Step Urologic Diet and Lifestyle Program:</b>	
<b>Heart Health = Urologic Health.....</b>	<b>1</b>
Introduction.....	1
General Urologic Recommendation 1 .....	2
General Urologic Recommendation 2 .....	7
General Urologic Recommendation 3 .....	8
General Urologic Recommendation 4 .....	9
General Urologic Recommendation 5 .....	11
General Urologic Recommendation 6 .....	12
General Urologic Recommendation 7 .....	13
General Urologic Recommendation 8 .....	17
Conclusion .....	19
References.....	21
<b>2 BPH/LUTS: Heart Healthy = Prostate Healthy .....</b>	<b>31</b>
Introduction.....	31
Alcohol.....	31
Blood Pressure/Hypertension.....	32
Caffeine/Coffee.....	32
Caloric Intake.....	32
Cardiovascular Disease Markers	
(LDL, HDL Triglycerides, Etc.) and Inflammation .....	33
Diabetes/Glucose Intolerance/Metabolic Syndrome.....	33
Fiber/Flaxseed/Omega-3/Soy or Soy Protein .....	34
Fruits and Vegetables .....	35
Physical Activity/Exercise .....	35
Smoking/Tobacco.....	36
Weight/Waist Circumference/BMI.....	37
Conclusion .....	37
References.....	38
<b>3 Complementary and Alternative Medicine Interventions</b>	
<b>for BPH/LUTS.....</b>	<b>43</b>
Introduction.....	43
Acupuncture.....	43
Beta-Sitosterol (A Plant Sterol) Dietary Supplements.....	43
Cernilton (Pollen Extract, <i>Secale cereale</i> ) Dietary Supplements ...	46
Flaxseed and SDG Dietary Supplements .....	47

Pumpkin Seed Oil .....	47
<i>Pygeum africanum</i> (African Plum Tree) Dietary Supplements .....	48
Saw Palmetto ( <i>Serenoa repens</i> ) Dietary Supplements.....	49
Why Didn't the Researchers Use a Higher Dose of Saw Palmetto? .....	51
Why Didn't the STEP Trial Use a More Popular Brand of Saw Palmetto for the Study?.....	51
What Notable Standards Did the Saw Palmetto Product Adhere to in This Trial?.....	51
Why Didn't the STEP Trial Test Primarily Men with Mild BPH Symptoms and Larger Prostate Volumes?.....	51
How Effective Is a Placebo for BPH, and Did the STEP Trial Give Any Indication of the Placebo Response Rate?.....	52
Were Men on Prescription Drugs for BPH Allowed to Be a Part of This Trial? .....	52
Was There a Difference in Any of the Side Effects Between Saw Palmetto and Placebo? .....	52
Why Was the Trial Only 1 Year Long, and Not 2 Years, for Example?.....	52
Was CAMUS the Final Verdict for Saw Palmetto? .....	53
Stinging Nettle ( <i>Urtica dioica</i> , Common Nettle) Dietary Supplements .....	56
Zinc .....	57
Miscellaneous .....	58
Conclusion .....	59
References.....	61
<b>4 Complementary and Alternative Medicine Interventions for Male Infertility/Subfertility: First Do No Harm .....</b>	<b>67</b>
Introduction.....	67
Dietary Supplements.....	68
Coenzyme Q10.....	68
Folic Acid.....	69
L-Carnitine .....	71
Omega-3 Fatty Acids .....	72
Plant Estrogens or Phytoestrogens.....	73
Selenium and Vitamin E .....	74
Tongkat Ali .....	74
Vitamin C.....	75
Zinc .....	77
Miscellaneous and Combination Products.....	77
Conclusion .....	79
References.....	82
<b>5 Lifestyle Changes, Erectile Dysfunction, and Female Sexual Dysfunction: Heart Health and Sexual Health.....</b>	<b>89</b>
Introduction.....	89
Weight and Waist Gain and Loss and Diet or Caloric Reduction for ED and FSD .....	89
Exercise: A Prevention and Treatment Option by Itself .....	93

Other Individual Lifestyle Changes .....	95
Polypharmacy/Too Many Supplements .....	95
Tobacco .....	96
Alcohol.....	96
Sleep.....	96
Should Fasting Be Required for Testosterone Testing? .....	97
Comprehensive, Simultaneous, and Diverse Lifestyle Changes.....	97
Conclusion .....	100
References.....	102
<b>6 Complementary and Alternative Medicine for Erectile Dysfunction, Testosterone Replacement Therapy, and Female Sexual Dysfunction.....</b>	<b>107</b>
Introduction.....	107
Acupuncture.....	108
Androstenedione and/or DHEA (Better, Worse, the Same, or an Ancillary to Prescription Testosterone Replacement Therapy?) .....	108
L-Arginine or L-Arginine Aspartate + Pycnogenol.....	111
Safety .....	112
Metabolism .....	112
Efficacy by Itself .....	112
L-Arginine Aspartate + Pycnogenol (Prelox and Others) .....	113
Why Not Just Citrulline? .....	114
L-Carnitine .....	114
L-Citrulline.....	115
Maca ( <i>Lepidium meyenii</i> ).....	117
Niacin (Vitamin B <sub>3</sub> ) .....	118
<i>P. ginseng</i> and Ginsenosides (Korean Red Ginseng and Others)....	119
Tongkat Ali ( <i>E. longifolia</i> , Also Known as or Nicknamed “Malaysian Ginseng,” but It Is Not in the Ginseng Family) .....	125
<i>Tribulus terrestris</i> .....	126
Yohimbine Hydrochloride (Not Really a Dietary Supplement or CAM).....	126
Zinc .....	127
Miscellaneous .....	128
Fenugreek ( <i>Trigonella foenum-graecum</i> ) .....	128
Horny Goat Weed ( <i>Epimedium</i> Species) .....	128
Lubricants (Zestra for FSD).....	128
SAM-e for SSRI-Induced Sexual Dysfunction.....	129
Conclusion .....	129
References.....	134
<b>7 Complementary and Alternative Medicine and Lifestyle Changes and Prostate Cancer.....</b>	<b>145</b>
Introduction.....	145
Heart Health Is Tantamount to the Ideal Prostate, Men’s, and Overall Health: Lessons from Pharmaceutical Prostate Cancer Prevention Trials .....	146

Lifestyle Changes Continue to Make a Difference with Prostate Cancer and Improve Conventional Treatment Outcomes .....	147
Surgery/Radiation and Other Conventional Treatments for Prostate Cancer and Dietary Supplements (A Bad Combination Unless Heart Healthy): Less = More .....	150
Less Is More Overall for Prevention and Treatment (Learning from Past Cancer Supplement Studies).....	152
Lessons from the SELECT Trial (Selenium and Vitamin E): Over-Antioxidation of the Population, Heart Unhealthy = Prostate Unhealthy, and More Issues .....	153
SAM (Statins, Aspirin, and Metformin): An Acronym That Brings the SELECT and Other CAM Prostate Cancer Lessons to a Final Perspective .....	157
BPH Dietary Supplements/CAM (Beta-Sitosterol, Pumpkin Seed Oil, Pygeum, Saw Palmetto, Stinging Nettle) Versus Flaxseed.....	158
Fish Oil Supplements (Marine Sources of Omega-3).....	159
Folic Acid History, Other B Vitamins, and Multivitamins .....	160
The Case Against Folic Acid, Excessive Dosages of B Vitamins and Multivitamins, and Prostate Cancer .....	161
Red Yeast Rice Extract (A Statin Drug Mimic).....	167
Vitamin C (Ascorbic Acid) .....	169
Vitamin D and/or Calcium .....	170
What About Calcium?.....	173
Zinc .....	174
Miscellaneous: PSA Doubling Times and Dietary/Supplement Interventions, Pomegranate Juice, and ADT and Other Options .....	175
Androgen-Deprivation Therapy Side Effects and Solutions.....	182
The Future of Side Effect Reduction and CAM .....	187
Conclusion .....	187
References.....	187
<b>8 Lifestyle Changes, CAM, and Kidney Stones:</b>	
<b>Heart Health = Kidney Health</b> .....	201
Introduction: Heart Health and Kidney Health.....	201
Comprehensive Lifestyle Changes, Stones, and Heart Health.....	202
Hypertension .....	203
Dyslipidemia, High LDL, High Triglycerides, Inflammatory Markers, and Treatment (Statins?).....	203
Obesity/Bariatric Surgery/Weight-Loss Diets and Drugs and/or Pre- and Diabetes (Glucose Intolerance) .....	204
Metabolic Syndrome (More Is Not Better).....	205
Exercise and/or Water/Hydration and Fluid Types .....	205
Dietary Fiber .....	206
Dietary Oxalate Content Controversies (Bioavailable? Soluble Versus Insoluble?).....	206
Calcium and Vitamin D Supplements.....	207

Cranberry and Cranberry Dietary Supplements and Oxalate .....	208
Inosine (Nucleoside Supplements) or D-Ribose	
Dietary Supplements .....	209
Magnesium (Dietary and Supplements) .....	210
Omega-3 Dietary Supplements from Marine Sources	
(EPA and DHA) and Omega-6 Supplementation .....	210
Probiotic (Natural)- <i>Oxalobacter formigenes</i>	
and Lactic Acid Bacteria .....	211
Vitamin B <sub>6</sub> Supplements (Pyridoxine HCL): An Effective	
Endogenous Oxalate Reducer in Some Conditions .....	212
Vitamin C Versus Buffered Vitamin C (Calcium Ascorbate	
or Other Sources) and the Metabolic Paradox of Increased	
Oxalate, but Reduced Serum Uric Acid (SUA) and Increased	
Urinary Uric Acid .....	213
Vitamin E? No Thank you? .....	217
Zinc and an Increased Stone Risk? .....	217
Miscellaneous (Acupuncture, Artificial Sweeteners	
and Potassium Citrate Palatability, and Other Juices) .....	218
Conclusion .....	218
References .....	223
<b>9 Review of Lifestyle and CAM</b>	
<b>for Miscellaneous Urologic Topics (Bladder Cancer,</b>	
<b>CP/CPPS, IC/PBS, Kidney Cancer): Part One .....</b>	<b>231</b>
I. Bladder Cancer (Lifestyle) .....	231
II. Bladder Cancer (CAM/Dietary Supplements) .....	232
Low-Dose Multivitamin for Prevention .....	232
Megadose Vitamins and Minerals for Adjuvant Treatment	
of Superficial Bladder Cancer (Less Is More) .....	233
Probiotic: <i>Lactobacillus casei</i> (Prevention and Treatment) .....	234
Chewing Gum .....	235
III. Chronic Prostatitis/Chronic Pelvic Pain Syndrome .....	236
Exercise, Lifestyle Changes, and/or Acupuncture	
or Percutaneous Tibial Nerve Stimulation and UPOINT? .....	237
Dietary Supplements (Cernilton	
and Quercetin Complex Products) .....	237
IV. Interstitial Cystitis/Painful Bladder Syndrome .....	239
Diet and CAM .....	239
V. Kidney Cancer (Renal Cell) .....	241
Conclusion .....	241
References .....	244
<b>10 Review of Lifestyle and CAM for Miscellaneous Urologic</b>	
<b>Topics (OAB and/or Incontinence, Pediatric Urology,</b>	
<b>Peyronie's Disease, Premature Ejaculation, UTIs,</b>	
<b>Miscellaneous): Part Two .....</b>	<b>249</b>
Introduction .....	249
VI. Overactive Bladder and/or Urinary Incontinence .....	249
VII. Pediatric Urology (Lifestyle, Urinary Tract Infections, Etc.) .....	250

---

VIII. Peyronie's Disease .....	250
IX. Premature Ejaculation.....	251
Topical CAM.....	251
Serotonin Increasing CAM (Drug-Like Mimics) .....	252
X. Urinary Tract Infections .....	253
Miscellaneous Urology .....	254
Conclusion .....	254
References.....	256
