

# Contents

<b>About the Author .....</b>	<b>xiii</b>
<b>Acronyms .....</b>	<b>xv</b>
<b>1 Introduction to Meteorological Satellites.....</b>	<b>1</b>
<b>2 History and Background .....</b>	<b>9</b>
A History of Weather Forecasting .....	9
Early Meteorological Instrumentation .....	10
The Evolution of Weather Satellites.....	13
Polar-Orbiting Weather Satellites .....	14
Geostationary Weather Satellites .....	16
<b>3 Examining the Tools of Space Meteorology.....</b>	<b>19</b>
Types of Meteorological Satellites.....	19
Spin Stabilized Satellites .....	21
Three-Axis Stabilized Satellites .....	22
Comparison of Polar-Orbiting and GEO Satellites .....	22
Evolution of Sensing Techniques .....	24
Data Synthesis and International Data Exchange .....	28
<b>4 U.S. Meteorological Satellites.....</b>	<b>33</b>
The Development Role of NASA .....	33
The Operational Role of NOAA .....	35
DOD's Mission Objectives for Meteorological Satellites.....	36
Tri-Agency Partnership and Coordination .....	37
Polar-Orbiting Meteorological Satellites .....	38
Geostationary Orbiting Meteorological Satellites.....	44
<b>5 European Meteorological Satellites and EUMETSAT .....</b>	<b>51</b>
First European Satellite Developments.....	51
The Beginnings of Meteosat .....	53

EUMETSAT .....	54
European Polar-Orbiting Weather Satellites .....	58
<b>6 Russian, Chinese, Japanese, and Indian Meteorological Satellites .....</b>	<b>63</b>
Russian Meteorological Satellites .....	63
Meteor Satellites .....	65
GOMS-Electro Geostationary Satellites.....	67
Okean.....	68
Chinese Meteorological Satellites.....	69
FengYun1 Polar-Orbiting Satellites.....	70
FengYun2 Geostationary Satellites.....	71
FengYun3 Second Generation Polar-Orbiting Satellites .....	72
FengYun4 Second Generation Geostationary Satellites .....	73
Japanese Meteorological Satellites .....	74
GMS (Himawari) Series .....	74
MTSAT Series .....	74
Indian Meteorological Satellites .....	77
INSAT Series .....	77
Indian Polar-Orbiting Satellites .....	79
Summary .....	81
<b>7 International Collaboration in Meteorological Satellite Systems.....</b>	<b>85</b>
World Meteorological Organization (WMO).....	85
Coordination Group for Meteorological Satellites (CGMS).....	89
CEOS, GCOS, and GEO .....	91
<b>8 Evolving and Future Capabilities.....</b>	<b>95</b>
<b>9 Meteorological and Remote-Sensing Satellites in Monitoring</b>	
<b>Climate Change.....</b>	<b>107</b>
Global Climate Observing System (GCOS) Essential Climate Variables....	108
Atmospheric Ozone.....	110
Precipitation and Cloud Patterns.....	113
Ocean Dynamics .....	116
Sea Ice .....	118
Meeting Long-term Climate Monitoring Requirements .....	121
Summary .....	124
<b>10 Top Ten Things to Know About Meteorological Satellites .....</b>	<b>127</b>

Meteorological Satellite Systems

Tan, S.-Y.

2014, XX, 131 p. 15 illus., 8 illus. in color., Softcover

ISBN: 978-1-4614-9419-5
