

TABLE OF CONTENTS

PREFACE	vii
PREFACE TO THE FIRST EDITION	ix
ABBREVIATIONS AND SYMBOLS	xv
1. PRELIMINARIES	1
1.1 Notations and Conventions	1
1.2 Measurability, L^p Spaces and Monotone Class Theorems	2
1.3 Functions of Bounded Variation and Stieltjes Integrals	4
1.4 Probability Space, Random Variables, Filtration	6
1.5 Convergence, Conditioning	7
1.6 Stochastic Processes	8
1.7 Optional Times	9
1.8 Two Canonical Processes	10
1.9 Martingales	13
1.10 Local Martingales	18
1.11 Exercises	21

2. DEFINITION OF THE STOCHASTIC INTEGRAL	23
2.1 Introduction	23
2.2 Predictable Sets and Processes	25
2.3 Stochastic Intervals	26
2.4 Measure on the Predictable Sets	32
2.5 Definition of the Stochastic Integral	34
2.6 Extension to Local Integrators and Integrands	43
2.7 Substitution Formula	48
2.8 A Sufficient Condition for Extendability of λ_Z	50
2.9 Exercises	54
3. EXTENSION OF THE PREDICTABLE INTEGRANDS	57
3.1 Introduction	57
3.2 Relationship between \mathcal{P} , \mathcal{O} , and Adapted Processes	57
3.3 Extension of the Integrands	63
3.4 A Historical Note	71
3.5 Exercises	73
4. QUADRATIC VARIATION PROCESS	75
4.1 Introduction	75
4.2 Definition and Characterization of Quadratic Variation	75
4.3 Properties of Quadratic Variation for an L^2 -martingale	79
4.4 Direct Definition of μ_M	82
4.5 Decomposition of $(M)^2$	86
4.6 A Limit Theorem	89
4.7 Exercises	90
5. THE ITO FORMULA	93
5.1 Introduction	93
5.2 One-dimensional Itô Formula	94
5.3 Mutual Variation Process	99
5.4 Multi-dimensional Itô Formula	109
5.5 Exercises	112

6. APPLICATIONS OF THE ITO FORMULA	117
6.1 Characterization of Brownian Motion	117
6.2 Exponential Processes	120
6.3 A Family of Martingales Generated by M	123
6.4 Feynman-Kac Functional and the Schrödinger Equation	128
6.5 Exercises	136
7. LOCAL TIME AND TANAKA'S FORMULA	141
7.1 Introduction	141
7.2 Local Time	142
7.3 Tanaka's Formula	150
7.4 Proof of Lemma 7.2	153
7.5 Exercises	155
8. REFLECTED BROWNIAN MOTIONS	157
8.1 Introduction	157
8.2 Brownian Motion Reflected at Zero	158
8.3 Analytical Theory of Z via the Itô Formula	161
8.4 Approximations in Storage Theory	163
8.5 Reflected Brownian Motions in a Wedge	174
8.6 Alternative Derivation of Equation (8.7)	178
8.7 Exercises	181
9. GENERALIZED ITO FORMULA, CHANGE OF TIME AND MEASURE	183
9.1 Introduction	183
9.2 Generalized Itô Formula	184
9.3 Change of Time	187
9.4 Change of Measure	197
9.5 Exercises	214

10. STOCHASTIC DIFFERENTIAL EQUATIONS	217
10.1 Introduction	217
10.2 Existence and Uniqueness for Lipschitz Coefficients	220
10.3 Strong Markov Property of the Solution	235
10.4 Strong and Weak Solutions	243
10.5 Examples	252
10.6 Exercises	263

Introduction to Stochastic Integration

Chung, K.L.; Williams, R.J.

2014, XVII, 276 p. 10 illus., Softcover

ISBN: 978-1-4614-9586-4

A product of Birkhäuser Basel
