<i>Preface</i>	<i>v</i>
<i>Contributors</i>	<i>xi</i>
PART I BASIC CONCEPTS AND ENHANCEMENT OF DNA TRANSFER VIA ELECTROPORATION	
1 Electroporation-Based Gene Therapy: Recent Evolution in the Mechanism Description and Technology Developments	3
<i>Lluís M. Mir</i>	
2 Electroporabilization of the Cell Membrane	25
<i>Justin Teissie</i>	
3 The Impact of Non-electrical Factors on Electrical Gene Transfer	47
<i>Jiemiao Hu, Jeffry Cutrera, and Shulin Li</i>	
4 Electroporation Formulation for Cell Therapy.	55
<i>Jiemiao Hu and Shulin Li</i>	
5 Short-Fragment DNA-Mediated In Vivo DNA Electroporation Delivery.	61
<i>Jinliang Peng, Yonggang Zhao, and Yuhong Xu</i>	
6 Gold Nanoparticle-Enhanced Electroporation for Leukemia Cell Transfection	69
<i>Shuyan Huang, Yingbo Zu, and Shengnian Wang</i>	
PART II siRNA ELECTROTRANSFER	
7 siRNA Delivery via Electropulsation: A Review of the Basic Processes	81
<i>Muriel Golzio and Justin Teissie</i>	
8 Continuous Cell Electroporation for Efficient DNA and siRNA Delivery Based on Laminar Microfluidic Chips	99
<i>Zewen Wei and Zhibong Li</i>	
9 Electroporation of siRNA into Mouse Bone Marrow-Derived Macrophages and Dendritic Cells	111
<i>Isabel Siegert, Valentin Schatz, Alexander T. Prectel, Alexander Steinkasserer, Christian Bogdan, and Jonathan Jantsch</i>	
10 Direct Imaging of siRNA Electrotransfer at the Single-Cell Level	121
<i>Justin Teissie and Muriel Golzio</i>	
11 Electroporation-Mediated siRNA Delivery into Tumors	131
<i>Yoshifumi Takei</i>	

12	Substrate-Mediated, High-Efficiency siRNA Electroporation.	139
	<i>Hiroyuki Fujimoto and Hiroo Iwata</i>	
13	Intradermal Electroporation of RNA.	147
	<i>Maria L. Knudsen, Karl Ljungberg, Peter Liljeström, and Daniel X. Johansson</i>	
PART III ELECTROPORATION-MEDIATED DELIVERY TO POORLY ACCESSIBLE AND FRAGILE TISSUES		
14	Delivery of DNA into the Central Nervous System via Electroporation	157
	<i>Jochen De Vry, Tim Vanmierlo, Pilar Martínez-Martínez, Mario Losen, Yasin Temel, Harry Steinbusch, Marc De Baets, and Jos Prickaerts</i>	
15	DNA Delivery in Adult Mouse Eyes: An Update with Corneal Outcomes	165
	<i>John M. Nickerson, Shannon E. Getz, Jana T. Sellers, Micah A. Chrenek, Penny Goodman, Christiana J. Bernal, and Jeffrey H. Boatright</i>	
16	Delivery of Plasmid DNA into Dental Tissues of Developing Rat Teeth by Electroporation	179
	<i>Shaomian Yao, Michael L. Beckley, and Dawen Liu</i>	
17	Electroporation-Mediated Gene Delivery to the Lungs	189
	<i>Jennifer L. Young, Michael S. Barravecchia, and David A. Dean</i>	
18	Electroporation-Mediated Delivery of Genes in Rodent Models of Lung Contusion	205
	<i>David Machado-Aranda and Krishnan Raghavendran</i>	
19	In Vivo Electroporation-Mediated Gene Delivery to the Beating Heart.	223
	<i>Hendrik T. Tevaearai, Amiq Gazdhar, Marie-Noëlle Giraud, and Martin Flück</i>	
PART IV TREATMENT OF CANCER IN LARGE ANIMALS AND HUMANS VIA ELECTROPORATION THERAPY		
20	Managing Local Swelling Following Intratumoral Electro-Chemo-Gene Therapy	233
	<i>Jeffry Cutrera, Glenn King, Pamela Jones, Elias Gumpel, Xueqing Xia, and Shulin Li</i>	
21	Gene Electrotransfer in Clinical Trials	241
	<i>Julie Gehl</i>	
22	Electrochemotherapy in Veterinary Oncology: From Rescue to First Line Therapy	247
	<i>Enrico P. Spugnini and Alfonso Baldi</i>	
23	Low-Energy DC Current Ablation in a Mouse Tumor Model	257
	<i>Prejesh Philips, Yan Li, and Robert C.G. Martin II</i>	

PART V APPLICATIONS OF ELECTROPORATION FOR DNA VACCINATION

24	Evolution of Electroporated DNA Vaccines	269
	<i>Andrea M. Keane-Myers and Matt Bell</i>	
25	Clinical Development of Intramuscular Electroporation: Providing a “Boost” for DNA Vaccines	279
	<i>Amir S. Khan, Kate E. Broderick, and Niranjan Y. Sardesai</i>	
26	Electroporation-Mediated Administration of Candidate DNA Vaccines Against HIV-1	291
	<i>Sandhya Vasan</i>	
27	Electroporation-Mediated Intradermal Delivery of DNA Vaccines in Nonhuman Primates	309
	<i>Lucille Adam, Roger Le Grand, and Frédéric Martinon</i>	
28	Intramuscular DNA Vaccination Protocols Mediated by Electric Fields	315
	<i>Pieranna Chiarella and Emanuela Signori</i>	
29	DNA Electroporation of Multi-agent Vaccines Conferring Protection Against Select Agent Challenge: TriGrid Delivery System	325
	<i>Andrea M. Keane-Myers, Matt Bell, Drew Hannaman, and Mark Albrecht</i>	
30	Gene-Based Vaccination and Screening Methods to Develop Monoclonal Antibodies	337
	<i>M. Pirouz Daftarian, Aram Vosoughi, and Vance Lemmon</i>	
	<i>Index</i>	347

Electroporation Protocols

Preclinical and Clinical Gene Medicine

Li, S.; Cutrera, J.; Heller, R.; Teissie, J. (Eds.)

2014, XIV, 349 p. 69 illus., 49 illus. in color., Hardcover

ISBN: 978-1-4614-9631-1
