
Contents

1	Eulerian Walks	1
1.1	The Königsberg Bridge Problem	1
1.2	Eulerian Graphs	8
1.3	Graphs with Odd Vertices	24
1.4	The Chinese Postman Problem	27
1.5	Randomly Eulerian Graphs	31
2	Hamiltonian Walks	35
2.1	The Icosian Game	35
2.2	Hamiltonian Graphs	38
2.3	The Toughness of a Graph	44
2.4	The Traveling Salesman Problem	46
2.5	Line Graphs and Powers of Graphs	47
2.6	Hamiltonian Walks and Cyclic Orderings	51
2.7	The Upper Hamiltonian Number of a Graph	58
2.8	The Hamiltonian Spectrum of a Graph	62
3	Traceable Walks	67
3.1	The Traceable Number of a Graph	67
3.2	The Traceable Number of a Tree	71
3.3	The Traceable and Hamiltonian Numbers of a Graph	74
3.4	The Upper Traceable Number of a Graph	78
3.5	Traceable Numbers of Vertices in a Graph	84
3.6	The Maximum Vertex Traceable Number of a Graph	87
3.7	The Total Traceable Number of a Graph	97
