# Contents

<b>1</b>	<b>Introduction</b>	1
1.1	Concepts of Ecosystem Regions, or Ecoregions	1
1.2	Need for a Comparative System of Generic Regions	2
1.3	The Process of Defining	4
1.4	The Role of Climate	5
1.5	Macroclimate	5
1.6	Advantages of the Ecoclimatic Approach	6
	References	6
<b>2</b>	<b>Oceanic Types and Their Controls</b>	9
2.1	Factors Controlling Ocean Hydrology	9
2.1.1	Latitude	9
2.1.2	Major Wind Systems	9
2.1.3	Precipitation and Evaporation	10
2.2	Types of Hydrologic Regions, or Oceanic Ecoregions	12
2.2.1	Dietrich's Oceanographic Classification	12
2.3	Distribution of the Oceanic Regions	15
	References	16
<b>3</b>	<b>Ecoregions of the Oceans</b>	17
3.1	500 Polar Domain	17
3.1.1	510 Inner Polar Division	17
3.1.2	520 Outer Polar Division	17
3.2	600 Temperate Domain	18
3.2.1	610 Poleward Westerlies Division and 620 Equatorward Westerlies Division	19
3.2.2	630 Subtropical Division	20
3.2.3	640 High-Salinity Subtropical Division	20
3.2.4	650 Jet Stream Division	21
3.2.5	660 Poleward Monsoon Division	21
3.3	700 Tropical Domain	21
3.3.1	710 Tropical Monsoon Division	21
3.3.2	720 High-Salinity Tropical Monsoon Division	22
3.3.3	730 Poleward Trades Division	22
3.3.4	740 Trade Winds Division	23
3.3.5	750 Equatorward Trades Division	23
3.3.6	760 Equatorial Countercurrent Division	24

3.4 Shelf . . . . .	24
References . . . . .	25
<b>4 Continental Types and Their Controls . . . . .</b>	<b>27</b>
4.1 The Controls of Macroclimate . . . . .	27
4.1.1 Latitude . . . . .	27
4.1.2 Continental Position . . . . .	28
4.1.3 Modified by Elevation . . . . .	30
4.2 Types of Ecoclimatic Zones, or Continental Ecoregions . . .	33
4.2.1 Principles of Ecological Climate Regionalization . . .	33
4.2.2 The Köppen–Trewartha Classification of Climates . . . . .	36
4.3 Distribution of the Continental Regions . . . . .	38
4.4 Relationship to Other Ecoregional Zoning Systems . . . .	40
References . . . . .	43
<b>5 Ecoregions of the Continents: The Polar Ecoregions . . . . .</b>	<b>47</b>
5.1 100 Polar Domain . . . . .	47
5.2 110 Icecap Division . . . . .	48
5.3 120 Tundra Division . . . . .	48
5.4 130 Subarctic Division . . . . .	51
References . . . . .	54
<b>6 The Humid Temperate Ecoregions . . . . .</b>	<b>55</b>
6.1 200 Humid Temperate Domain . . . . .	55
6.2 210 Warm Continental Division . . . . .	56
6.3 220 Hot Continental Division . . . . .	59
6.4 230 Subtropical Division . . . . .	60
6.5 240 Marine Division . . . . .	61
6.6 250 Prairie Division . . . . .	63
6.7 260 Mediterranean Division . . . . .	66
References . . . . .	68
<b>7 The Dry Ecoregions . . . . .</b>	<b>69</b>
7.1 300 Dry Domain . . . . .	69
7.2 310 Tropical/Subtropical Steppe Division . . . . .	69
7.3 320 Tropical/Subtropical Desert Division . . . . .	72
7.4 330 Temperate Steppe Division . . . . .	75
7.5 340 Temperate Desert Division . . . . .	77
References . . . . .	79
<b>8 The Humid Tropical Ecoregions . . . . .</b>	<b>81</b>
8.1 400 Humid Tropical Domain . . . . .	81
8.2 410 Savanna Division . . . . .	83
8.3 420 Rainforest Division . . . . .	84
References . . . . .	87
<b>9 The Mountain Ecoregions . . . . .</b>	<b>89</b>
9.1 M Mountains with Elevational Zonation . . . . .	89
References . . . . .	94

<b>10</b>	<b>Ecoregions and Climate Change</b> . . . . .	95
10.1	Long-Term Climate Change . . . . .	95
10.2	Use of the Köppen Climate Classification to Detect Climate Change . . . . .	97
10.3	Summary . . . . .	102
	References . . . . .	102
<b>11</b>	<b>Continental Patterns and Boundaries</b> . . . . .	105
11.1	Pattern Within Zones . . . . .	105
11.2	Disturbance and Succession . . . . .	107
11.3	Boundaries Between Zones . . . . .	108
	References . . . . .	109
<b>12</b>	<b>Applications of Ecoregional Patterns</b> . . . . .	111
12.1	Design for Sustainability . . . . .	111
12.1.1	Understand Ecosystem Pattern in Terms of Process . . . . .	111
12.1.2	Use Pattern to Design Sustainable Landscapes . . . . .	111
12.2	Significance to Ecosystem Management . . . . .	113
12.2.1	Local Systems Within Context . . . . .	114
12.2.2	Spatial Transferability of Models . . . . .	114
12.2.3	Links Between Terrestrial and Aquatic Systems . . . . .	115
12.2.4	Design of Sampling Networks . . . . .	116
12.2.5	Transfer Information . . . . .	117
12.2.6	Determining Suitable Locations for Seed Transfer . . . . .	118
12.2.7	Understanding Landscape Fragmentation . . . . .	119
12.2.8	Choosing Planting Strategies for Landscaping and Restoration . . . . .	119
12.2.9	Environmental Risk Assessment . . . . .	119
12.2.10	Learn from Successful Ecological Designs and Predict Establishment of Invasive Species . . . . .	120
12.2.11	Maintain and Restore Biodiversity . . . . .	120
12.2.12	Facilitate Conservation Planning . . . . .	120
12.3	Significance to Research . . . . .	121
12.3.1	Restructuring Research Programs . . . . .	122
12.3.2	Some Research Questions . . . . .	122
12.3.3	Natural Ecosystem Patterns . . . . .	123
12.3.4	Effects of Climatic Variation . . . . .	123
12.3.5	Relationships Between Vegetation and Landform . . . . .	123
	References . . . . .	124
<b>13</b>	<b>Use of Fire Regimes at the Ecoregion Scale</b> . . . . .	127
13.1	Ecosystem Structure and Process . . . . .	127
13.2	Range of Variation . . . . .	127
13.3	Different Ecoregions, Different Fire Regimes . . . . .	128

---

13.3.1	Precolonial Fire Regimes (Vale) . . . . .	128
13.3.2	Fire Regime Types (The Nature Conservancy) . . .	128
13.3.3	Characterizing the US Wildfire Regimes (Malamud et al.) . . . . .	130
13.3.4	Other Studies . . . . .	130
13.4	Use of Fire Regime at the Ecoregion Scale . . . . .	132
13.5	Why Ecoregions Are Needed . . . . .	134
13.6	Use of Ecosystem Patterns Within Ecoregions . . . . .	134
13.7	Future Range of Variation . . . . .	134
	References . . . . .	135
<b>14</b>	<b>Summary and Conclusions . . . . .</b>	<b>137</b>
	<b>Appendix A: Air Masses and Frontal Zones . . . . .</b>	<b>141</b>
	<b>Appendix B: Common and Scientific Names . . . . .</b>	<b>143</b>
	<b>Appendix C: Conversion Factors . . . . .</b>	<b>145</b>
	<b>Appendix D: Comparison of Ecoregion and Related Approaches . . . . .</b>	<b>147</b>
	<b>Glossary of Technical Terms . . . . .</b>	<b>153</b>
	<b>Bibliography . . . . .</b>	<b>159</b>
	<b>Maps . . . . .</b>	<b>165</b>
	<b>About the Author . . . . .</b>	<b>171</b>
	<b>Index . . . . .</b>	<b>173</b>

Ecoregions

The Ecosystem Geography of the Oceans and  
Continents

Bailey, R.G.

2014, XV, 180 p. 134 illus., 54 illus. in color., Hardcover

ISBN: 978-1-4939-0523-2
