

Contents

| | | |
|----------|---|-----------|
| 1 | Introduction | 1 |
| 1.1 | Linear Network Coding | 2 |
| 1.2 | Construction of Linear Network Codes | 9 |
| 1.3 | Random Network Coding | 10 |
| 1.4 | Network Error Correction Coding | 11 |
| 1.5 | Historical Notes | 12 |
| 2 | Network Error Correction Model | 17 |
| 2.1 | Basic Model | 17 |
| 2.2 | Distance and Weight | 19 |
| 2.3 | Error Correction and Detection Capabilities | 23 |
| 3 | Another Description of Linear Network Error Correction Model | 33 |
| 3.1 | Local Description of Linear Network Error Correction Model | 33 |
| 3.2 | Distances and Weights | 39 |
| 3.3 | Decoding | 48 |
| 4 | Coding Bounds of Linear Network Error Correction Codes | 51 |
| 4.1 | Hamming Bound | 51 |
| 4.2 | Singleton Bound and Network MDS Codes | 57 |
| 4.3 | Construction of Linear Network Error Correction MDS Codes | 68 |
| 4.3.1 | The First Algorithm | 68 |
| 4.3.2 | The Second Algorithm | 72 |
| 4.3.3 | The Third Algorithm | 76 |
| 5 | Random Linear Network Error Correction Coding | 85 |
| 6 | Subspace Codes | 95 |
| 6.1 | Channel Models | 96 |
| 6.2 | Subspace Codes | 98 |
| 6.3 | Bounds on Constant-Dimension Codes | 99 |

6.4 Code Constructions and Decoding Algorithms 102

6.4.1 Code Constructions 102

6.4.2 Decoding Algorithms 103
