

Contents

Part I The General Setting

1 Introduction	3
Amanda Sierra and Marie-Ève Tremblay	
2 Historical Context	7
Payam Rezaie and Uwe-Karsten Hanisch	
3 Microglial Physiology	47
Jyoti J. Watters and Jennifer M. Pocock	
4 Lessons from In Vivo Imaging	81
Dimitrios Davalos and Martin Fuhrmann	
5 Roles in Immune Responses	115
Richa Hanamsagar, Sandra M. Cardona, Tammy Kielian, and Astrid E. Cardona	
6 Neuroprotection Versus Neurotoxicity	145
Knut Biber and Michelle L. Block	

Part II What Is on Stage

The New Roles

7 Developmental Neuronal Elimination	175
José L. Marín-Teva, Julio Navascués, Ana Sierra, and Michel Mallat	
8 Developmental Vascularization, Neurogenesis, Myelination, and Astrogliogenesis	193
G. Jean Harry and Lorena Pont-Lezica	

9	Developing and Mature Synapses	223
	Marie-Ève Tremblay, Rosa C. Paolicelli, Beth Stevens, Hiroaki Wake, and Alain Bessis	
10	Adult Neurogenesis, Learning and Memory	249
	Amanda Sierra and Marie-Ève Tremblay	
11	Neuropathic Pain	273
	Jessica K. Alexander, Simon Beggs, and Michael W. Salter	
12	Drug Addiction	299
	Xiaohui Wang, Thomas A. Cochran, Mark R. Hutchinson, Hang Yin, and Linda R. Watkins	
13	Aging	319
	Romy von Bernhardt, Betsi Flores, and Hiroshi Nakanishi	

Part III Their Pathological Implications

Conditions Impacting on the Quality of Life

14	Neurodevelopmental and Neuropsychiatric Disorders	345
	Akira Monji, Izumi Maezawa, Yoshito Mizoguchi, Takahiro A. Kato, and Lee-Way Jin	
15	Human Immunodeficiency Virus	373
	Daniel F. Marker, Shao-Ming Lu, and Harris A. Gelbard	
16	Multiple Sclerosis	393
	Yoshifumi Sonobe and Akio Suzumura	

Leading Causes of Death

17	Ischemia and Stroke	413
	Raffaella Cipriani, Maria Domercq, and Carlos Matute	
18	Neurodegenerative Diseases	437
	Diego Gomez-Nicola and V. Hugh Perry	
19	Spinal Cord and Brain Trauma	455
	Samuel David and Phillip G. Popovich	

Index	473
