

Contents

Part I The Energy Dilemma

- 1 Peaking of World Oil Production** 3
J. Edward Gates
- 2 Energy Return on Investment (EROI), Liquid Fuel
Production, and Consequences for Wildlife** 29
Jason M. Townsend, Charles A. S. Hall, Timothy A. Volk,
David Murphy, Godfrey Ofezu, Bobby Powers, Amos Quaye and
Michelle Serapiglia
- 3 Implications for the Economy and Environment of
Alternatives to Fossil-Fuel Energy** 63
David Pimentel

Part II Economic Considerations

- 4 An Institutionalist Perspective on the Economy and Price of Oil** 87
Lisi Krall
- 5 The Conflict Between Economic Growth and Wildlife Conservation**..... 99
Brian Czech
- 6 The Steady State Economy as the Sustainable Alternative to
Economic Growth** 119
Brian Czech and Herman E. Daly

Part III Fundamental Conflicts

- 7 Economic Growth and Wildlife Conservation in the North
Pacific Rim, Highlighting Alaska and the Russian Far East** 133
Falk Huettmann

8	Oil and Gas Development, the National Petroleum Reserve-Alaska, and Our Wildlife Heritage	157
	Stephen M. Murphy
